TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 308—ALLOTMENTS OF PAY

MISCELLANEOUS AMENDMENTS

Sections 308.3 to 308.7, inclusive, 308.9, and 308.11 are retained without change in revision of AR 35-5520, March 11, 1946; § 308.1 (h) is revoked and §§ 308.2 (b), 308.8 and 308.10 (c) and (e) are amended as follows:

§ 308.1 *Definitions.* • • •
(h) *Alternate allottee.* [Revoked]

§ 308.2 *Eligible allotters.* • • •
(b) *Civilian personnel.* Civilian employees of the War Department except civilian marine personnel, who have national service life insurance or United States Government life insurance may make Class D and N allotments during such time as they may be permanently assigned for duty outside the continental United States or in Alaska. Civilian employees of the War Department except civilian marine personnel may make Class E allotments during such time as they may be permanently assigned to duty outside the continental limits of the United States or in Alaska. They may also make Class B allotments when stationed where the Class A Pay Reservation Plan for the purchase of United States Savings Bonds is not in effect. The execution and discontinuance of allotments of pay for civilian marine personnel of the Transportation Corps will be effected under such regulations as may be prescribed by the Chief of Transportation. A civilian employee permanently stationed outside the continental limits of the United States or in Alaska is deemed to be one whose oversea assignment is not limited in tenure or which may be expected to exceed 6 months. No allotments will be authorized by civilian employees of the War Department until arrival at the permanent oversea duty station.

§ 308.8 *Commencing date; Class E allotments.* Ordinarily class 7 allotments will be made effective the first of the month following that in which the authorization form is executed. A Class E allotment will not be made effective with the month in which an officer or enlisted person enters on duty except when an enlisted person is commissioned, or appointed a warrant officer, or when a warrant officer is commissioned. A Class E allotment will always commence as of the first day of the month in which it is to be effective; for example, for an allotment to be effective in February, it will commence February 1. The first pay deduction will be made from the pay for February, and the allotment office will make the first payment shortly after the end of that month.

§ 308.10 *Effect of certain changes in status on Class E, D, and N allotments.* • • •

(c) *Desertion and dishonorable discharge.* Allotments of pay do not give a vested right to the money allotted, and an allottee is not entitled to be paid the amount of an allotment made by a person who deserted or who was dishonorably discharged with forfeiture of all pay and allowances before payment of the allotment could be made. If the allottee failed to collect or negotiate the allotment checks prior to the dismissal or dishonorable discharge of the allotter from the service with forfeiture of all pay and allowances then due, payment of the allotment is not authorized. If, however, payment to the allottee was made between the date of commencement of the unauthorized absence and the date when the allotter was reported as AWOL, the amount so paid should be allowed as an offset in setting the allotter's accounts.

• • • • •

(e) *Retirement.* When a member of the Regular Army is retired he may, if he desires, continue Class E allotments for commercial life insurance and also Class D and N allotments. In such a case no action is necessary on the part of the allotter. If such class E allotments or Class D or N allotments are to be discontinued, a WD AGO Form 141 will be processed for each separate allotment. Anderson, Secretary of Agriculture, do hereby amend Regulation U-3 of the rules and regulations governing the occupancy, use, protection, and administration of the national forests, which constitutes § 251.22, Chapter II, Title 36, Code of Federal Regulations, to read as follows:

§ 251.22 *Recreation areas.* Suitable areas of national forest land, other than wilderness or wild areas, which should be managed principally for recreation use may be given special classification as follows:

Areas of 100,000 acres or more will be approved and classified by the Secretary of Agriculture.

(b) Areas which should be managed for public recreation requiring development and substantial improvements may be given special classification as public recreation areas. Areas in single tracts of not more than 160 acres may be approved and classified by the Chief of the Forest Service or by such officers as he may designate. Areas in excess of 160 acres will be classified by the Secretary of Agriculture. Classification hereunder may include areas used or selected to be used for the development and maintenance as camp grounds, picnic grounds, organization camps, resorts, public service sites (such as for restaurants, filling stations, stores, horse and boat liveries, garages, and similar types of public service accommodations), bathing beaches, winter sports areas, lodges, and similar facilities and appurtenant structures needed by the public to enjoy the recreation resources of the national forests. The boundaries of all areas so classified shall be clearly marked on the ground and notices of such classification shall be posted at conspicuous places thereon. FEDERAL POWER COMMISSION.

[Docket No. G-669]

MICHIGAN-WISCONSIN PIPE LINE CO.

NOTICE OF AMENDMENT TO APPLICATION

MARCH 26, 1946.

Notice is hereby given that Michigan-Wisconsin Pipe Line Company (Applicant), a Delaware corporation with its principal place of business at Wilmington, Delaware, filed on March 13, 1946, an amendment to its application filed September 24, 1945, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, requesting by the amended application authorization to construct and operate certain transmission pipeline facilities hereinafter described.

Notice of the filing by Michigan-Wisconsin Pipe Line Company on September 24, 1945, of the original application in the above entitled matter was published in the FEDERAL REGISTER on October 12, 1945, Volume 10, pages 12,777–12,778.

Applicant, in its original application, proposed to construct among other facilities, a 20-inch transmission pipeline extending from its No. 7 line compressor station, located in the State of Illinois, in a direction slightly east of north to the Illinois-Wisconsin State line, thence from said point two pipelines—one, an 18-inch pipeline running northeasterly to the point of delivery to the Milwaukee, Wisconsin area, the other an 8-inch pipeline running in a northwesterly direction to the point of delivery to the Madison, Wisconsin area—and certain lateral lines.

Applicant now proposes in its amended application, in lieu of the facilities above described, to construct a 22-inch line from its No. 7 compressor station in the State of Illinois, which will extend from the said station in a direction slightly east of north to the Illinois-Wisconsin State line. From this point there will be constructed a 20-inch pipeline and an 18-inch pipeline running northeasterly to the point of delivery to the Milwaukee, Wisconsin area; an 8-inch pipeline to the point of delivery of the Madison, Wisconsin area; a 14-inch pipeline from near the Milwaukee area to lateral lines connecting the markets of Sheboygan, Oshkosh, and Fond du Lac, and a 10-inch pipeline to the area from which laterals will serve the cities of Two Rivers, Manitowoc, Appleton and Green Bay. All of said cities are located in the State of Wisconsin.

The proposed service to the cities above referred to is in addition to that which is shown under item "D" on page 4 of the original application.

Applicant submits in its amendment to its application that it does not intend to serve the following cities, towns and municipalities in the State of Iowa: Waterloo, Marshalltown, Cedar Falls, Webster City, Tama and Toledo.[1]

The proposed amendment of Michigan-Wisconsin Pipe Line Company recites that the Applicant does not propose to serve the requirements of the cities and towns of Ft. Dodge, Avoca, Oakland, Griswold, Walnut and Carson in the State of Iowa, which now obtain their natural gas supply from Northern Natural Gas Company, until after existing contractual commitments expire in the year 1952.

Applicant asserts that it is estimated that "additional construction and capital costs during the first four years of operation will be approximately as follows: 1948, $1,440,000; 1949, $955,000; 1950, $1,682,000; 1951, $18,103,000. Such additions will provide the necessary capacity for furnishing the full natural-gas requirements of Michigan Consolidated Gas Company beginning with the year 1952, and include the purchase from Michigan Consolidated Gas Company of the storage fields, gathering system and transmission mains, compressor station and the 26" transmission line to be constructed between the Austin field and Detroit, the total estimated cost of the completed project being approximately $71,000,000."

The amendment filed by Applicant recites that the estimated deliveries for 1952, the fifth year of operation, include approximately 14 billion cubic feet of interruptible gas sales, which is 2 billion cubic feet less than its estimate submitted in the original application of September 24, 1945.

Any person desiring to be heard or to make any protest with reference to the application, as amended, should, on or before the 11th day of April 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

NOTICE OF AMENDMENT TO AMENDED APPLICATION

MARCH 26, 1946.

Natural Gas Pipeline Company of America (Natural) and Texoma Natural Gas Company (Texoma), each a Delaware corporation with its principal place of business at Chicago, Illinois, filed on December 3, 1945, an amendatory joint application[1] for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, requesting by the amended application authorization to construct and operate certain transmission pipeline facilities. Such facilities were fully described in Notice of Amended Application, published in the FEDERAL REGISTER on December 28, 1945, Vol. 10, at pages 15,387 and 15,388. On January 7, 1946, Natural and Texoma filed an amendment to their amended application.

Applicants, in their amended application on December 3, 1945, proposed in part as follows:

1. *As to Texoma.* (a) The addition of one new compressor engine of 1250 horsepower at its Compressor Station No. 22 increasing the total installed capacity at said station from 9,000 horsepower, which will be the horsepower after the station is enlarged by construction proposed by Applicant's application in Docket No. G-651,[2] to a total of 10,250 horsepower; and also additions to the facilities there located for removing water vapors and liquid hydrocarbons, to treat an additional 20,100 Mcf of gas per day.

2. *As to Natural.* (c) The construction of 10 miles of 24-inch line in the Hugoton Field.

(d) The construction of 46.33 miles of 26-inch pipeline to connect the proposed Hugoton compressor station with the present main line system at a point near the Oklahoma-Kansas state line.

(h) The construction of a telephone circuit approximately 55 miles in length to connect the present telephone system with the proposed Hugoton compressor station.[3]

Applicants proposed by their amendment of January 7, 1946, to their amended application of December 3, 1945, the following revisions of the above as outlined as to Texoma and Natural.

1. Substitute for subdivision (a) of section 2 on page 9 of said amended application the following:

(a) The construction of a 5,000 H. P. compressor station at a convenient location at or near the town of Guymon, Oklahoma; and also the installation at the same location of facilities for removing water vapor adequate to treat 65,100 Mcf of gas per day.

2. Delete subdivision (c) of section 2 on Page 9 of said amended application providing for the construction of ten miles of 24-inch line in the Hugoton field.

(d) The construction of 34.8 miles of 26-inch pipeline to connect the proposed Guymon compressor station with the present main line at Station No. 2 near Gray, Oklahoma.

4. Substitute for subdivision (h) of section 2 on Page 10 of said amended application the following:

(h) The construction of a telephone circuit approximately 42 miles in length to connect the present telephone system with the proposed Guymon Compressor Station.

Applicants' amendment reduces the estimated total over-all cost of the proposed facilities from "$9,952,606" to "$8,298,721". Its estimated revenues are also reduced from "$2,500,000" to "$2,400,000" from the proposed facilities, and the estimated depreciation of the said facilities is reduced from $500,000 to $415,000.

[Rev. SO 119, Order 137]

COLUMBUS WASHBOARD CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Columbus Washboard Company, Columbus, Ohio, may compute its adjusted ceiling prices for all articles of washboards which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 10.4 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in Section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows: A reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests for adjustments of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective March 30, 1946.

Issued this 29th day of March 1946.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests for adjustments of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective March 30, 1946.

Issued this 29th day of March 1946.

(b) *Maximum prices of purchasers for resale.* A reseller shall calculate his ceiling prices by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling. For this purpose the "most comparable article" is the one which meets all of the following:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances, and other price differentials in effect during the base period, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 30th day of March 1946.

Issued this 29th day of March 1946.

SAND LIME BUILDING BRICK

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

A new section 7.14 is added to Article VII to read as follows:

SEC. 7.14 *Modification of maximum prices for sand lime building brick produced in the United States.* (a) The manufacturers' maximum prices established pursuant to Maximum Price Regulation 592 for sand lime building brick produced in the United States of America may be increased by adding an amount not in excess of $2.00 per thousand for standard size brick to the f. o. b. plant or delivered prices.

(b) *Non-standard sizes.* If the manufacturer had an established differential in price during the month of March 1942 for non-standard sizes of sand lime building brick he may convert the adjustments granted herein for standard size brick on the basis of the conversion factors or formula used by him during March 1942 in establishing a price differential between the standard size brick and the non-standard size brick under this adjustment.

(c) *Manufacturers' individual price adjustments.* (1) Any individual price adjustments granted prior to April 6, 1946 by the Price Administrator or any Regional Administrator to any manufacturer of sand lime building brick in an amount equal to or less than the increase permitted by this paragraph are hereby revoked.

(2) Any individual adjustments granted prior to April 6, 1946, by the Price Administrator or any Regional Administrator to any manufacturer of sand lime building brick in an amount greater than the increase permitted by this paragraph are hereby continued in full force and effect; such individual price adjustments shall not, however, be further increased by the increase permitted in this section.

(d) *Discounts and allowances.* The maximum prices established herein shall be subject to at least the same cash, quantity and other discounts, transportation allowances, services, and other terms and conditions of sale as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

(e) *Maximum prices for resellers.* Any jobber or dealer purchasing sand lime brick for resale from any manufacturer who has modified his maximum prices in accordance with (a) above, may increase his maximum prices f. o. b. yard or delivered, established by the General Maximum Price Regulation by the dollars-and-cents increase in cost resulting from the increase permitted the manufacturer under (a) above. However, in any area where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area.

This amendment shall become effective April 6, 1946.

Issued this 1st day of April 1946.

Acting Administrator.

Openings and closings: A separate additional charge may be made for openings and closing only in those cases where opening and closing are not specifically included in the price applicable to the category. The charge includes payment for all labor and material including that used for replacement of material where necessary. This charge applies only to work performed by the installer in connection with installation of mineral wool insulation.

The above prices shall be cash prices; if the seller customarily made an extra charge for credit during his base period, he may now make this charge so long as his charge is no higher than his base period charge.

(e) *Measurements.* It shall be the seller's responsibility to ascertain that all measurements are accurate. Measurements for exterior walls are to be taken over all, with no deduction for openings, except for sun porch walls, store fronts or similar areas where windows and door areas must be deducted. In the case of elevator wells, ventilators, skylights, monitors and pent houses on flat roofs the entire such area must be deducted where they are more than 16 square feet in area and extend through the flat ceiling area to be insulated. For attic floors outside gross dimensions may be taken. In measuring the heights of knee walls, to the height between floors, joists and rafters add one foot for floor seal piling of granulated insulation. For slopes add six inches to length of clear span for capping intersecting surfaces. For flat ceilings which intersect slopes add one foot to length of span taken at right angles to intersecting slopes. For stairwell walls measurement may be taken as a rectangle from floor to ceiling and not as triangles.

In determining the total of the square foot area for each category of insulation installed a tolerance of 5 percent will be recognized.

(f) *Maximum prices for special insulation and related work and incidental construction.* The maximum prices that may be charged by sellers for special insulation and related work and incidental construction work for which no separate dollar and cents price has been set out in Table I of this order shall be the maximum prices established in accordance with Revised MPR 251.

(g) *Quoting a "guaranteed price."* The seller may offer to sell an insulation job covered by this order on the basis of a "guaranteed price" where in the sellers agrees to charge a fixed amount: *Provided, however,* That the so-called "guaranteed price" must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order. The seller shall stamp or otherwise mark conspicuously on each invoice or statement a statement in substantially the following form: "Prices are at or below ceiling prices set by OPA Regional Order G–28 under RMPR 251."

(h) *Records and invoices.* Every seller of mineral wool insulation on an installed basis, whether the sale is made as a part of a general contract calling for installation of other commodities or not, shall: (1) Preserve records showing the information given in compliance with subparagraphs (i) to (vi) of this section. (2) Upon completion of the work or within a reasonable time thereafter, if requested by the purchaser, give to the purchaser an invoice or similar document showing:

(i) The date on which the installation was completed.

(ii) The name and address of the seller and buyer.

(iii) The number of square feet and type of insulation installed, the thickness of insulation material, and the areas in which such insulation material was installed.

(iv) The price charged for each separate category exactly as stated in Table I including category number and drawing number.

(v) The terms of sale.

(vi) **A statement shown separately on the invoice of any special insulation and related work and incidental construction work.**

Every person making sales subject to this order shall notify the purchaser of the existence of this order, and, if requested, show the purchaser a copy of this order and Revised Maximum Price Regulation No. 251.

(i) *Revocation.* This order may be revised, amended, or revoked at any time by the Office of Price Administration.

[Richmond 3d Rev. Order G-1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN RICHMOND, VA., DISTRICT

For the reasons set forth in an opinion issued herewith, 2nd Revised District Order Number 1, as amended, under General Order Number 50 is redesignated 3rd Revised District Order Number 1 and is amended to read as hereinafter set forth:

SECTION 1. *Purpose of order.* This order establishes specific maximum prices for malt and cereal beverages, including those commonly known as ale, beer and near beer, either in containers or on draft, when sold or offered for sale at retail by any eating or drinking establishment for on-premise consumption.

SEC. 2. *Geographical applicability.* This order applies to the entire area within the Commonwealth of Virginia.

SEC. 3. *Ceiling prices.* (a) On and after the effective date of this order if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in the appendices hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed by brand name in the appendices hereto and if you believe that the maximum price fixed for such beverage in the appendices hereto is not appropriate to such beverage, you may make application to the Richmond District Office of the Office of Price Administration requesting that such beverage be specifically listed by name in one or the other of the appendices hereto. Upon such application or of its own motion, the Richmond District Office of the Office of Price Administration may at any time, and from time to time, add new or unlisted beverages, brands, types or sizes together with maximum prices for same to the lists set forth in the Appendices hereto.

(c) You may not add any taxes to your ceiling prices set forth in the ap-

Regulation No. 122 is hereby amended to read as follows:

in section 13 (f) the figure 7¢ per cwt. shall be substituted for 5.5¢ per cwt.

son Trade area, is hereby amended to read as follows:

issued simultaneously herewith and un-

Act of 1942, as amended, and in the Gen-

(c) You may not add any taxes to your ceiling prices set forth in the ap-

pendices hereto except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group of sellers.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for the base period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. For the purpose of determining your classification as herein provided no consideration may be given to sales of beverages listed by brand name in Appendix B hereof. You must figure the group to which you belong as follows:

(1) *Group 1–B.* Your establishment belongs to Group 1–B if during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 1–B establishments.

(2) *Group 2–B.* Your establishment belongs to Group 2–B if during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 2–B establishments, but were less than those provided in Appendix A for Group 1–B establishments.

(3) *Group 3–B.* Your establishment belongs to Group 3–B if during the base period of April 4–10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2–B establishments. Except as otherwise provided in this order, all establishments that were not in operation during the base period of April 4–10, 1943, also belong to Group 3–B. No establishment in violation of sections 4, 5, 10 and 11 of this order may sell at prices higher than those set forth for Group 3–B sellers in the appendices hereto.

(c) If your establishment was not in operation during the base period of April 4–10, 1943, and accordingly belongs to Group 3–B, you may file an application to have it reclassified into the same group as the nearest eating and drinking establishment that you can show is of the same type as yours is and that has already been properly classified in Group 1–B or in Group 2–B. Unless and until your application is acted upon and your establishment has been reclassified, it must retain the classification of a Group 3–B seller and must continue to observe the ceiling prices provided for that group in the appendices hereto. In all cases your application for reclassification must be filed with the Richmond District Office of the Office of Price Administration not later than either the 1st day of October, 1944, or the 30th day after the beginning of operations by your establishment (whichever day is later) and must contain the following information:

1. Name and address of your establishment and of its owner or owners.
2. A description of your establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.
3. The selling prices by brand name of all malt or cereal beverages sold since the beginning of its operation.
4. The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.
5. Any other information pertinent to such application or which may be requested by the Office of Price Administration.

(d) After you have filed with your Price Control Board the signed statement required by the provisions of section 5 below, your group classification may not be changed except as provided by this order.

SEC. 5. *Filing with Price Control Board.* (a) Not later than the 6th day of July, 1944, or the 6th day after the beginning of operations by your establishment (whichever day is later) you must file with your Price Control Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the said board will send you a card bearing your group number.

(b) If and for so long as you have not filed your signed statement as required by the provisions of subsection (a) above of this section 5 or are otherwise not correctly classified into your proper group as provided in section 4, you are hereby classified as a Group 3–B seller and you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed for Group 3–B sellers in the appendices hereto. Failure to file said signed statement as herein provided is a violation of this order and also subjects you to the other penalties herein provided.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943, legal ceiling prices this order, properly applied, required you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increase, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the district.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order.

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a nonprofit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 2.)

(e) Sales by the War Department or the Department of Navy of the United States through such departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Sales by bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than member or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless such club is a nonprofit organization and is recognized as such by the Bureau of Internal Revenue and unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club. No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices

established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4–10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4–10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals, except that during the hours from 11:30 a. m. to 1:30 p. m. and the hours from 6:00 p. m. to 8:00 p. m., any eating or drinking establishment which can show that it derives not less than 70% of its gross revenue from the sales of prepared food items (not including beverage items) sold for consumption on the premises may refuse to sell beverages subject to this order for consumption on the premises during those hours to persons who do not also purchase food items.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order Number 50, as well as Restaurant Maximum Price Regulation Number 2, as either may have been heretofore or may hereafter be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order Number 50 are the following:

(a) You must preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) You must continue to prepare and maintain such records as have been customarily kept;

(c) You must keep for examination by the Office of Price Administration two copies of each menu used by your establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* (a) If you own or operate an eating or drinking establishment offering malt beverages subject to this order you must comply with the provisions of Order No. 2, issued under Restaurant Maximum Price Regulation 2 on March 10, 1945, and effective the same date, either as heretofore or hereinafter, revised and amended, which order provides in part that you must on or before April 16, 1945, show on a poster to be supplied by the Office of Price Administration, your lawful ceiling prices for all beer and other malt beverages which you offer for consumption on your premises.

(b) If you begin operating your establishment after April 16, 1945, you must obtain the price poster applicable to your establishment from your local Price Control Board and post same immediately.

(c) No establishment which fails to comply with the posting requirements of Order No. 2 issued under Restaurant Maximum Price Regulation No. 2 on March 10, 1945, and effective the same date, either as heretofore or hereinafter revised and amended, may sell any beverage subject to this order at higher prices than the prices provided for Group 3–B sellers as set forth in the appendices hereof during such time as such establishment is not in compliance with said order.

SEC. 11. *Posting of group number.* (a) If you operate an eating, or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card or cards clearly visible to all purchasers while eating or drinking, showing the group number of your establishment as classified under this order. The card must read "OPA 1–B", "OPA 2–B", or "OPA 3–B", whichever is applicable. You must use the card or cards furnished you for this purpose by the Price Control Board.

(b) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3–B sellers in the appendices hereto during such time as such establishment is not in compliance with this section.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same. If you have customarily issued receipts or sales slips, you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order, you must do everything required by this regulation for each place separately.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 59-82, 54-51]

MEMPHIS STREET RAILWAY CO. AND NATIONAL POWER & LIGHT CO.

NOTICE OF FILING AND ORDER FOR HEARING, AND ORDER CONSOLIDATING PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of March A. D., 1946.

In the matter of the Memphis Street Railway Company, File No. 59-82; National Power & Light Company, File No. 54-51.

The Commission having entered on August 23, 1941 an order pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 requiring that the existence of National Power & Light Company ("National"), a registered holding company and the indirect owner of all the outstanding common stock of respondent, The Memphis Street Railway Company ("Memphis"), be terminated and that said company be dissolved, and that said National and its parent, Electric Bond and Share Company ("Bond and Share"), also a registered holding company, proceed with due diligence to submit to the Commission a plan or plans for the prompt dissolution of National pursuant to section 11 (b) (2) of the act; and

National, having filed in compliance with said order of dissolution an application for approval of a "Plan dated as of May 7, 1942 for Compliance with section 11 (b) (2) of the Public Utility Holding Company Act of 1935" and an Application (designated Application No. 10) thereunder (File No. 54-51), which plan and amendments thereto and application outlined a program for the dissolution of National and proposed, inter alia, the disposition by National of its interest in Memphis Generating Company ("Memphis Generating"), a registered holding company and the corporate parent of the respondent, Memphis; and

The Commission, having entered an order on November 13, 1945 instituting proceedings pursuant to sections 11 (b) (2), 12 (c), 15 (f) and 20 (a) (File No. 59-82) directed to Memphis raising, inter alia, the question of the steps, if any, which must be taken to revise the capital structure of that company so as to fairly and equitably redistribute voting power among its security holders, and in said order having required respondent to file its answer thereto on or before January 2, 1946, and the Commission having postponed by supplemental orders, at the request of respondent, the date of filing said answers to March 18, 1946:

Notice is hereby given that National has filed, as a further step in its dissolution program and to meet the issues raised by the Commission's order of November 13, 1945 directed to Memphis, an amendment designated No. 3 to the aforesaid application No. 10, part of which

amendment No. 3 proposes a plan for the rearrangement of the capital structure of the respondent, Memphis, and requests that the Commission determine whether said plan may be approved by the Commission pursuant to section 11 (e) of the Public Utility Holding Company Act, and if such approval be granted, that promptly thereafter the Commission apply to an appropriate court to enforce and carry out the terms and provisions of said plan; and

Notice is hereby given that the respondent, Memphis, has filed its answer to said order of November 13, 1945 and joins in and becomes a party to the said plan for the rearrangement of the capital structure of Memphis filed by National, save and except for the proposals therein with respect to the amount and character of capital stock to be issued thereunder and the allocation thereof among its present stockholders.

All interested persons are referred to said answer and plan, which are on file in the office of the Commission, for a full statement of the issues raised by said answer and of the transactions proposed by the plan, which may be summarized as follows:

In its answer Memphis joins in the plan filed by National and submits that said plan sets forth its position with respect to the allegations contained in paragraphs 1 to 12 of the said notice and order for hearing of November 13, 1945.

The Plan filed by National proposes that (a) Memphis issue in exchange for each share of the present 21,710 shares of 4% preferred stock, par value $100, 2 shares of common stock, par value $50, an aggregate of 43,420 of such shares, (b) Memphis issue in exchange for the 27,593 shares of the present common stock, par value $100, all of which stock is held by Memphis Generating, an aggregate of 54,561 shares of common stock, par value $50, (c) Memphis provide for elimination of earned surplus deficit at December 31, 1945 of $1,144,579 and provide for elimination from plant account for street railway properties to be abandoned in 1946, $4,923,711, a total of $6,068,290, and (d) that Memphis make the necessary accounting adjustments to reflect these changes.

National propose, under its dissolution program, to acquire from Memphis Generating for $1.00 in cash, 27,593 shares of common stock of Memphis, which is all of said stock outstanding, and to distribute to its common stockholders the 54,561 shares of common stock of Memphis to be issued under the plan in exchange for the present common stock of Memphis, such distribution to be made concurrently with the disposition of National's holdings in its other subsidiaries.

It appearing to the Commission that it is appropriate in the public interest and interest of investors and consumers that a hearing be held with respect to plan for the rearrangement of the capital structure of Memphis; and

It further appearing to the Commission that the proceedings instituted by the Commission pursuant to sections 11 (b) (2), 12 (c), 15 (f) and 20 (a) of the act directed to Memphis and the plan filed by National pursuant to section 11 (e) of the act for the rearrangement of the capital structure of Memphis are related and involve common questions of law and fact and should be consolidated and heard together;

It is ordered, That the proceedings instituted by the Commission pursuant to sections 11 (b) (2), 12 (c), 15 (f), and 20 (a) of the act directed to Memphis and the proceedings entitled "National Power & Light Company, File No. 54–51" be, and the same hereby are, consolidated and that any relevant evidence adduced in the said proceedings instituted by the Commission pursuant to section 11 (b) (2) of the act directed to Memphis shall be incorporated in and be deemed to be a part of the record in the proceedings in File No. 54–51.

It is further ordered, That a hearing be held at 10:00 a. m., E. S. T., on the 15th day of April, 1946, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated at that time by the Hearing Room Clerk in Room 318. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall notify the Commission in the manner provided by its rules of practice, Rule XVII, on or before April 11, 1946.

The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented in the consolidated proceedings, particular attention will be directed at the hearings to be held on April 15, 1946 to the following matters and questions:

(1) Whether the proposed plan as submitted, or, as hereafter modified, is necessary to effectuate the provisions of section 11 (b) (2) of the act with respect to Memphis and is fair and equitable to the persons affected thereby.

(2) Whether the accounting entries in connection with the proposed plan are in conformity with the standards of the act and the rules promulgated thereunder.

(3) Whether, if the proposed plan is authorized in whole or in part by the Commission, it is appropriate in the public interest and in the interest of investors or consumers that any terms and conditions be imposed in connection with such authorization and, if so, what such terms and conditions should be.

(4) Whether the plan, as filed or as modified, makes appropriate provision for the payment of expenses, fees and remuneration in connection with the reorganization, in what amounts such expenses, fees and remuneration should be paid, and the fair and equitable allocation thereof.

(5) Whether the proposed plan constitutes a step in compliance with the Order of the Commission dated August 23, 1941 issued pursuant to section 11 (b) (2) of the act directing the dissolution of National.

(6) Generally, whether the proposed transactions are in all respects in the public interest and in the interest of investors or consumers and consistent with all applicable requirements of the act and rules thereunder.

It is further ordered, That jurisdiction be reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part any of the issues, questions or matters herein set forth or which may arise in these proceedings or to consolidate with these proceedings other filings or matters pertaining to the subject matter of these proceedings, and to take such other action as may appear conducive to an orderly, prompt and economic disposition of the matters involved; and

It is further ordered, That notice of this hearing be given to Bond and Share, National, Memphis Generating Company, Memphis, the Public Utilities Commission of the State of Tennessee, and the City of Memphis, and to all other persons, said notice to be given by registered mail to Bond and Share, National, Memphis Generating, Memphis, the Public Utilities Commission of the State of Tennessee, and the City of Memphis, and to all persons previously granted intervention or participation in the proceedings under File No. 59–82, and to all other persons by publication in the FEDERAL REGISTER; and

It is further ordered, That Memphis shall give notice of this hearing to all its preferred stockholders (insofar as the identity of such stockholders is available or known to it) by mailing to each of said persons a copy of this notice of filing and order for hearing and consolidation together with a copy of the proposed plan for the rearrangement of the capital structure of Memphis, at his last known address at least 10 days prior to the date of this hearing.

OKLAHOMA GAS AND ELECTRIC CO.

MEMORANDUM OPINION AND SUPPLEMENTAL ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa. on the 29th day of March, 1946.

On March 5, 1946, we approved a program of Oklahoma Gas and Electric Company contemplating the refinancing of its Preferred Stock and the issuance of serial notes. As presented to us it was proposed that the premiums paid on redemption of the old Preferred Stock, which together with expenses were estimated at $3,188,950, would be charged to "Other Deferred Debits," and amortized by nine equal annual charges to earned surplus. In our findings and opinion (___ S. E. C. ___, Holding Company Act Release No. 6449) we pointed out that the Oklahoma Corporation Commission had approved the amortization program, but that it had not yet been considered by the the Federal Power Commission, which also had jurisdiction over these accounting entries. We stated that in our opinion the proposed period of amortization was somewhat long, although we recognized that some special circumstances existed in this case. Accordingly, while we permitted the declaration to become effective so as to authorize the security issues, we pointed out that our action did not restrict or otherwise affect the jurisdiction of the Federal Power Commission or any other regulatory agencies which might have occasion to pass upon the accounts of the company.

Since the issuance of our findings and opinion in this matter, the company has applied to the Federal Power Commission for approval of the proposed accounting treatment. That Commission has in general approved the Company's proposed program, but directed that the charge be made to the "Capital Stock Expense Account", and should be amortized over a period of not to exceed five years (FPC Docket No. IT 5976). The company has now filed with us a supplemental amendment in which it has modified its program in accordance with the authorization of the Federal Power Commission. The Company has requested an order approving the program as so modified. We approve the amendment so that the accounting treatment may be carried out as authorized by the Federal Power Commission.

It is, therefore, ordered, That the application and declaration heretofore granted and permitted to become effective by our order of March 5, 1946, be and the same is hereby amended in accordance with the amendment filed herein by Oklahoma Gas and Electric Company on March 28, 1946, and that the application as amended is hereby granted and the declaration as amended is hereby permitted to become effective forthwith.

It is further ordered, That our former findings and opinion and order dated March 5, 1946, herein, be and the same is hereby amended in accordance with this order.

contractors. It applies to sawmills that produce 8,000 or more board feet of softwood lumber or 8,000 or more board feet of softwood and hardwood lumber or 4,000 or more board feet of hardwood lumber per average day, and to lumber distributors, millwork manufacturers, hardwood flooring manufacturers, prefabricators, and housing contractors, who sell or use housing construction lumber or hardwood flooring lumber. It explains how lumber distributors, millwork manufacturers, hardwood flooring manufacturers, prefabricators, and housing contractors may obtain lumber for housing construction and that such lumber, or products in which it is incorporated, must be delivered on orders rated HH.

Sawmills

(c) *Sawmill reserve production.* The following provisions will govern the amount of housing construction lumber sawmills shall produce and reserve for certified orders.

(1) Each sawmill as described in paragraph (b) (6) above shall reserve in his total over-all production of lumber in footage for the month of February, 1946, and for each calendar month thereafter, time and supplies sufficient to produce and deliver on certified orders, within such month, at least 40 per cent of his expected monthly production of softwood lumber in the form of housing construction lumber, and 100 per cent of the Grades 2 and 3a rough, in all thicknesses of Oak and Pecan; 100 percent of Grades 2 and 3a, rough, in 4/4 and 8/4 thicknesses of Hard Maple; 25 percent of Grades 2 and 3a, rough, in all thicknesses of Beech; and 25 percent of Grades 2 and 3a, rough, in 4/4 and thinner thicknesses of Birch.

The Civilian Production Administration may, from time to time, change such percentages by publication in the Federal Register prior to the first day of any month.

(2) Any sawmill lacking facilities to manufacture his production into housing construction items listed in paragraph (b) (3), may count as part of his 40 per cent reserve production requirement, such 3-inch and thicker dimension and timber as he may make for delivery on certified orders which provide for the delivery of 3" and thicker pieces to a plant operated for the purposes of manufacturing such dimension and timber into housing construction lumber.

(3) This direction does not prevent the free movement of softwood lumber between sawmills. However, a sawmill that delivers all or any part of his lumber to another sawmill must still manufacture 40% of his softwood production into housing construction lumber. A sawmill receiving housing construction lumber from another sawmill must hold such lumber for sale on certified orders in addition to his own reserve production. A sawmill delivering housing construction lumber to another sawmill may credit against his reserve production under paragraph (c) (1) above the amount of housing construction lumber so delivered.

(4) Every sawmill must hold his reserve production for certified orders as described in paragraph (c) (7) below and must accept and ship such certified orders for delivery in that month in preference to all other orders (except orders rated AAA) to the extent that such certified orders do not require more than the sawmill's monthly reserve production.

(5) When a sawmill has accepted certified orders to the extent of his monthly reserve production of housing construction lumber, he may not require any customer to furnish a certified order as a condition of filling an order for lumber.

(6) Any quantities of lumber produced which, by the 20th day of any month in which production is reserved, are not required to fill certified orders received before that time may be delivered by the sawmill as he may desire subject to all applicable regulations and orders of the Civilian Production Administration.

(7) *Certified orders.* The following types of certified orders placed with the sawmill will be accorded the treatment provided for in paragraph (c) (4) above, and shipments on such orders may be credited against the percentage the sawmill is required to produce and reserve each month: Certified orders from (i) distributors; (ii) millwork manufacturers; (iii) hardwood flooring manufacturers; (iv) housing contractors; (v) office wholesalers; (vi) prefabricators.

Distributors

(d) *Distributors.* The following provisions tell how lumber distributors may place certified orders for housing construction lumber and how lumber so obtained may be sold:

(1) Any distributor may place certified orders for delivery each month starting with the month of February, 1946 for housing construction lumber with a sawmill, a distributor who sells at wholesale or an office wholesaler for one of the following amounts whichever is greater; (i) an amount of housing construction lumber not exceeding 5 per cent of the amount in footage of his inventory of all softwood lumber as of January 1, 1942 or; (ii) an amount of housing construction lumber equal to the total amount of housing construction lumber called for by orders rated HH and certified orders from prefabricators accepted by him for delivery in the month in which delivery is requested of the sawmill; or (iii) two carloads of housing construction lumber in any calendar quarter at the rate of not more than one carload in any month of the quarter.

(2) Every distributor must hold the lumber received on certified orders for sale only on certified orders or orders rated HH or AAA. Any quantities of lumber received on certified orders which, at the end of a period of 60 days after receipt, are not required to fill certified orders or HH or AAA rated orders received before that time may be delivered by the distributor as he may desire subject to all applicable regulations and orders of the Civilian Production Administration.

(3) A distributor who has made delivery of housing construction lumber from his inventory on certified orders from another distributor may place certified orders with a sawmill to replace it in his inventory. The distributor must hold the lumber received on such orders as provided in paragraph (d) (2) above.

Millwork Manufacturers

(e) *Millwork manufacturers.* The following provisions tell how millwork manufacturers may place with the sawmill certified orders for housing construction lumber and how such lumber shall be used, and the millwork sold:

(1) Any millwork manufacturer may place certified orders for delivery in each month starting with the month of February 1946 for housing construction lumber with a sawmill or an office wholesaler for an amount in footage not exceeding 5 per cent of the amount in footage of softwood lumber consumed by him in the manufacture of millwork in the year 1940.

(2) A millwork manufacturer must use each month a quantity of lumber equal to all housing construction lumber received on certified orders for the manufacture of millwork; 75 per cent of the amount of the millwork so manufactured must be held for sale on certified orders from a jobber or prefabricator or on orders rated HH or AAA. Any quantities of millwork manufactured which, at the end of a period of 60 days after completion, are not required to fill certified orders or orders rated HH or AAA before that time, may be delivered by the millwork manufacturer as he may desire subject to all applicable regulations and orders of the Civilian Production Administration.

Hardwood Flooring Manufacturers

(f) *Hardwood flooring manufacturers.* The following provisions tell how hardwood flooring manufacturers may place with a sawmill certified orders for hardwood flooring lumber and how such lumber shall be used and the hardwood flooring sold:

(1) Hardwood flooring manufacturers may place certified orders for delivery each month starting with the month of February 1946 with a sawmill or with an office wholesaler for hardwood flooring lumber for an amount in footage not to exceed 6 percent of the amount of footage of hardwood lumber consumed in the manufacture of hardwood flooring in the year 1940.

(2) A hardwood flooring manufacturer must use each month a quantity of lumber equal to all hardwood flooring lumber received on certified orders for the manufacture of hardwood flooring. 75 percent of the amount of hardwood flooring so manufactured must be held for sale on certified orders from a jobber or prefabricator or on orders rated HH or AAA. Any quantities of hardwood flooring manufactured which at the end of a period of 60 days after completion are not required to fill certified orders or orders rated HH or AAA received before that time, may be delivered by the hardwood flooring manufacturer as he may desire subject to all applicable regulations and orders of the Civilian Production Administration.

Housing Contractors

(g) *Housing contractors.* The following provisions tell how a housing contractor may place with a sawmill or office wholesaler certified orders for housing construction lumber:

(1) A housing contractor who has an HH rating may apply the HH rating on orders for housing construction lumber to a distributor, or he may place certified orders for delivery each month starting with the month of February 1946 with a sawmill or with an office wholesaler for housing construction lumber for an amount in footage not in excess of the total lumber required to meet his construction schedule for housing for which he has received authorization to use the preference rating HH. Certified orders may be placed with a sawmill or with an office wholesaler for housing construction lumber only to the extent that rated orders have not been placed with distributors for authorized amounts. The

housing contractor must not specify delivery dates on certified orders or HH rated orders more than 30 days before the time that the housing construction lumber is needed for incorporation into housing. Furthermore, the housing contractor must not place certified orders or HH rated orders for housing construction lumber in which is specified a delivery date later than during the third calendar month after the time when the purchase order was placed.

(2) The housing contractor must use the housing construction lumber obtained on certified orders in the construction of housing for which the HH rating was authorized.

Office Wholesalers

(h) *Office wholesalers.* The following provisions tell how office wholesalers may place certified orders for housing construction lumber and how lumber so obtained may be sold:

(1) An office wholesaler receiving certified orders from a distributor, millwork manufacturer, hardwood flooring manufacturer, prefabricator or housing contractor may place certified orders with the sawmill for an amount of housing construction lumber or hardwood flooring lumber not in excess of the amount called for by the certified orders which he has received.

Integrated Sawmills

(i) *Sawmills that are also prefabricators, millwork or hardwood flooring manufacturers.* If a person engaged in operating a sawmill is also engaged in manufacturing millwork or hardwood flooring, he may transfer housing construction lumber or hardwood flooring lumber from his sawmill to his manufacturing operation provided that as a millwork manufacturer or a hardwood flooring manufacturer he is permitted to place monthly certified orders for housing construction lumber or hardwood flooring lumber. The transfer from the sawmill must be treated as delivery on a certified order and he must keep records of the transfer in his sawmill files and endorse the appropriate certificate on his records.

A person making a transfer permitted in the above paragraph must use or dispose of the housing construction lumber or hardwood flooring lumber transferred to millwork or hardwood flooring manufacturing operation in conformity with the applicable paragraphs above.

Certification on Orders

(j) *Certification on orders.* To certify an order for housing construction lumber or hardwood flooring lumber under this direction, the following certificate must be endorsed on or attached to the purchase order, sales ticket or other order calling for the delivery of housing construction lumber or hardwood flooring lumber or millwork or hardwood flooring. Certificates must be signed manually or as explained in Priorities Regulation 7. However, the standard form described in that regulation may not be used in place of the certificate described in this direction. The certification required by this direction may not be waived under paragraph (f) of Priorities Regulation 7. Orders placed verbally must be confirmed immediately and the confirmation must bear the appropriate certificate. The certificate must be substantially as follows:

The undersigned certified to the supplier and to the Civilian Production Administration that he is a ——— (Distributor, millwork manufacturer, hardwood flooring manufacturer, prefabricator, housing contractor, office wholesaler, or jobber) and that the quantities of housing construction lumber or hardwood flooring lumber or millwork or hardwood flooring covered by this order (together with all other certified orders for the particular material for delivery in the month specified in this order) do not exceed the amount permitted under Direction 1 to Priorities Regulation 33 with the provisions of which he is familiar.

Date——————— ———————

(k) *Jobbers.* The following provisions tell how a jobber may secure a stock of millwork or hardwood flooring by placing orders for delivery in the months of February, March and April, 1946, and how the millwork and hardwood flooring must be sold:

(1) A jobber may place certified orders for delivery in the months of February, March, and April 1946 with a millwork or hardwood flooring manufacturer for millwork or hardwood flooring in a total amount not in excess of 10 per cent of the amount of his receipts of millwork in units, pieces or footage or hardwood flooring in the calendar year 1940;

(2) Every jobber must hold the millwork or hardwood flooring received on certified orders for sale only on orders rated HH or AAA. Any quantities of millwork or hardwood flooring received on certified orders which at the end of a period of 60 days after receipt are not required to fill HH or AAA rated orders received before that time, may be delivered by the jobber as he may desire subject to all applicable regulations and orders of the Civilian Production Administration.

Newcomers

(l) *Prefabricators.* The following provisions tell how a prefabricator may place orders for housing construction lumber, millwork or hardwood flooring:

(1) A prefabricator may place certified orders for housing construction lumber with a sawmill, distributor or office wholesaler, for millwork with a millwork manufacturer, and for hardwood flooring with a hardwood flooring manufacturer, for an amount not in excess of the total amount of housing construction lumber, millwork or hardwood flooring required to meet a quarterly production schedule for prefabricated houses, panels or sections for which he has received priorities assistance on Form CPA-4415. A prefabricator must not specify delivery dates (at plant or warehouse) on certified orders more than 30 days before the time the housing construction lumber, millwork or hardwood flooring is needed for incorporation into the prefabricated houses, panels or sections. Furthermore, a prefabricator must not place certified orders for housing construction lumber, millwork or hardwood flooring in which is specified a delivery date later than during the third calendar month after the time when his purchase order is placed.

(2) A prefabricator must use the housing construction lumber, millwork or hardwood flooring obtained on certified orders for the construction of prefabricated houses, panels or sections to be sold on orders rated HH.

(3) A prefabricator may not apply or extend an HH rating for housing construction lumber, millwork or hardwood flooring.

(m) *Persons not established as distributors, millwork manufacturers or hardwood flooring manufacturers.* (1) Any person who was not on January 1, 1942 a lumber distributor and wants permission to place monthly certified orders for an amount of housing construction lumber in excess of two carloads of housing construction lumber in any calendar quarter at the rate of not more than one carload in any month of the quarter, may apply by letter to the Civilian Production Administration.

(2) Any person who was not, in the year 1940, a jobber or a millwork or hardwood flooring manufacturer, and wants to place monthly certified orders may apply by letter to the Civilian Production Administration.

(3) Any person applying by letter under subparagraph (1) or (2) above should state how much housing construction lumber or hardwood flooring lumber or millwork or hardwood flooring he needs each month, proximity of his place of business to similar businesses, and any other information to help the Civilian Production Administration decide what amount of housing construction lumber or millwork or hardwood flooring or hardwood flooring lumber is needed by him to engage in business. Such application will be processed in an equitable manner.

Miscellaneous

(n) The following provisions generally affecting sawmills, distributors, millwork manufacturers, hardwood flooring manufacturers, prefabricators, housing contractors, jobbers and office wholesalers, should be carefully read:

(1) *Validation of orders.* Any distributor, millwork manufacturer, hardwood flooring manufacturer, prefabricator, or housing contractor who has placed an uncertified order with a sawmill and is later authorized to place a certified order may validate the order by giving the sawmill the certificate that he is entitled to use. Any order that is validated subsequent to January 15, 1946, should be treated as though the order was placed on the date that the certificate was received by the sawmill.

(2) *Applicability of regulations.* Except as otherwise required by this direction, Priorities Regulations 1 and 3 continue to govern the use of ratings and the acceptance, scheduling and filling of orders placed with distributors and sawmills. All other applicable regulations and orders of the Civilian Production Administration must be observed where not inconsistent with this direction.

(3) *Violations.* Any person who wilfully violates any provision of this direction or who, in connection with this direction, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Extension of preference ratings.* The rating HH may not be applied or extended to a sawmill as defined in paragraph (b)(6) above for lumber. However, where a person has received an HH rated order for the delivery of housing construction lumber, millwork or hardwood flooring, he may extend the HH rating to his suppliers, except to a sawmill as defined in paragraph (b)(6) above to get the housing construction lumber, millwork (or housing construction lumber to be incorporated in millwork) or hardwood flooring which he will deliver on that order subject to applicable inventory regulations. If a person has made delivery of housing construction lumber, millwork or hardwood flooring on an HH rated order, he may extend the HH rating to his suppliers except to a sawmill as defined in paragraph (b)(6) above to replace it in his inventory subject to applicable inventory regulations.

(5) *Reports.* Every person shall file with the Civilian Production Administration, or any other federal agency, through which the Civilian Production Administration may distribute housing construction lumber, such reports and questionnaires as the Civilian Production Administration or such other agency may from time to time require subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(6) *Appeals.* Any appeal from the provisions of this direction should be made by mailing a letter in triplicate to the Civilian Production Administration, Forest Products Division, Washington 25, D. C., Ref.: Direction 1 to Priorities Regulation 33 stating the particular provision appealed from and stating fully the grounds for the appeal.

(7) *Communications.* All communications unless otherwise directed must be addressed as follows: Civilian Production Administration, Forest Products Division, Washington 25, D. C.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 1A, as Amended Mar. 29, 1946]

SOFTWOOD PLYWOOD

The fulfilment of requirements for the defense of the United States has created a shortage in the supply of softwood plywood for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) *What this direction does.* Priorities Regulation 33 and Direction 8 to Priorities Regulation 33 provide for the assignment to builders and prefabricators of priorities assistance to secure materials listed on Schedule A of PR 33 and List I of Direction 8 to PR 33 which are required for use in the Reconversion Housing Program. Among these items is softwood plywood. This direction provides that the manufacturers of softwood plywood shall produce a percentage of their total production in construction and door panel grades and reserve a percentage of those grades for certified orders from prefabricators, distributors, stock cabinet manufacturers, stock door manufacturers and housing contractors. It provides that the softwood plywood reserved and the product into which it is incorporated, may only be sold on certified orders or HH rated orders.

(b) *Definitions for the purpose of this direction.* (1) "Softwood plywood" means laminated veneers of any species of softwood united with a bonding agent to produce board.

(2) "Construction plywood" means plywood of one or more softwood panels of the following grades: Interior (moisture resistant) type as follows: ¼" wall board; ⅜" wall board; ¼" sound one side plypanel; ⅜" sound one side plypanel; 5/16" sheathing; ⅜" sheathing; ½" sheathing and ⅝" sheathing and Exterior type: ¼" sound one side plypanel and ⅜" sound one side panel.

(3) "Door plywood" means softwood plywood. Interior (moisture resistant) and Exterior type without external sealer treatment of ⅛" sound two sides door plypanel.

(4) "Plywood manufacturer" means a person engaged in the manufacture of softwood plywood.

(5) "Prefabricator" means a person engaged in the manufacture of prefabricated houses, panels or sections who has been granted priorities assistance on Form CPA-4415 to build prefabricated houses, panels or sections.

(6) "Housing contractor" means a builder (applicant) who has been directly assigned an HH rating by CPA, FHA or NHA. It also includes a general contractor who has been directly authorized by such a builder to use the HH rating for the whole job. It does not include a subcontractor authorized to use the HH rating for a part of the job.

(7) "Distributor" means a person who buys and stocks softwood plywood for resale as plywood at wholesale or retail.

(8) "Stock cabinet manufacturer" means a millwork manufacturer who produces windows, sash, doors, window and door screens, cut stock for the foregoing, trim, moulding and kitchen cabinets for built-in installation as part of his regular millwork line.

(9) "Stock door manufacturer" means a person who consumes softwood plywood in the manufacture of standard house doors.

(10) "Square footage" means measurement on a ⅜" rough basis.

(11) "Certified order" means any order for the delivery of softwood plywood bearing the certificate prescribed in paragraph (j).

(12) "Person" means any individual, partnership, association, business trust corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

Plywood Manufacturers

(c) *Plywood manufacturers reserve production.* The following conditions will govern the amount of construction plywood and door plywood, plywood manufacturers shall produce and reserve for certified orders:

(1) Each softwood plywood manufacturer shall reserve in his total over-all production of softwood plywood in square footage for the month of April, 1946, and for each calendar month thereafter, time and supplies sufficient to produce and deliver within such month; (i) at least 45% of his expected monthly production of softwood plywood in the form of construction plywood of which not more than 20% of the construction plywood may be in exterior type; (ii) at least 5% of his expected monthly production of softwood plywood in the form of door plywood, for delivery on certified orders.

The CPA may from time to time change such percentages by amendments published in the Federal Register prior to the first day of any month.

(2) Every plywood manufacturer must reserve 60% of his total production of construction plywood in square footage beginning with the month of April, 1946, and in each calendar month thereafter, for delivery on certified orders. A plywood manufacturer must hold the 60% reserve production of construction plywood for certified orders from prefabricators, housing contractors, stock cabinet manufacturers and distributors and must accept and ship such certified orders in preference to all other orders (except orders rated AAA) to the extent that such certified orders do not require more than 60% of the total monthly production of construction plywood. Any quantities of construction plywood reserved for certified orders from prefabricators, housing contractors, stock cabinet manufacturers or distributors which, by the 20th of any month in which production is reserved, are not required to fill certified orders received before that time, may be delivered by the plywood manufacturer as he may desire subject to all applicable orders and regulations of the CPA.

(3) A plywood manufacturer must reserve 40% of his total production of construction plywood in square footage beginning with the month of April, 1946, and for each calendar month thereafter for delivery on uncertified and unrated orders from distributors.

(4) A plywood manufacturer must hold his reserve production of door plywood for certified orders from door manufacturers or distributors and must accept and ship such certified orders in preference to all other orders (except orders rated AAA) to the extent that such certified orders do not require more than the monthly reserve production of door plywood. Any quantities of door plywood manufactured which, by the 20th of any month in which production is reserved, are not required to fill certified orders received before that time, may be delivered by the plywood manufacturer as he may desire subject to all applicable orders and regulations of the CPA.

Prefabricators

(d) The following provisions tell how prefabricators may place with a plywood manufacturer or distributor certified orders for construction plywood:

(1) A prefabricator may place certified orders with a plywood manufacturer or a distributor for construction plywood in the amount for which he has received priorities assistance on Form CPA-4415. A prefabricator must not specify delivery dates (at his plant or warehouse) on certified orders more than 30 days before the time the construction plywood is needed for incorporation into the prefabricated houses, panels, or sections. Furthermore, a prefabricator must not place certified orders for construction plywood in which is specified a delivery date later than during the third calendar month after the time when the purchase order is placed.

(2) A prefabricator must use construction plywood obtained on certified orders in the production of prefabricated houses, panels or sections to be sold on orders rated HH.

(3) A prefabricator may not apply or extend an HH rating for construction plywood.

Housing Contractors

(e) *Housing contractors.* The following provisions tell how a housing contractor may place certified orders or HH rated orders with a plywood manufacturer or distributor for contruction plywood.

(1) A housing contractor may apply the HH rating on orders for construction plywood to a distributor, but not to a plywood manufacturer, or a housing contractor purchasing in not less than carload lots, may place certified orders for mill shipment delivery each month starting with the month of April 1946, with a plywood manufacturer or a distributor, in an amount in square footage not in excess of the total construction plywood required to meet his construction schedule for housing for which he has received priorities assistance on Form CPA-4386. A housing contractor may not place HH rated or certified orders for construction plywood except for use in kitchen cabinets and bathroom and kitchen flooring. He may not apply the HH rating or use a certificate for an amount in excess of 600 square feet per house or apartment. If kitchen cabinets are purchased as millwork the total permissible amount of construction plywood must be reduced by the amount of plywood in the cabinets.

(2) A housing contractor must not specify delivery dates (at site or warehouse) on certified orders or HH rated orders, more than 30 days from the time that the construction plywood is needed for incorporation into the housing. Furthermore, the housing contractor must not place certified orders for construction plywood in which is specified a delivery date later than the third calendar month after the time when the purchase order is placed. A housing contractor may place certified orders for construction plywood only to the extent that HH rated orders have not been placed with a distributor.

(3) A housing contractor must use the construction plywood obtained on certified orders or HH rated orders on housing construction for which the HH rating was authorized.

Stock Cabinet Manufacturers

(f) *Stock cabinet manufacturers.* The following provisions tell how a stock cabinet manufacturer may place with a plywood manufacturer or distributor certified orders for construction plywood for the manufacture of built-in cabinets, and how the cabinets must be sold:

(1) A stock cabinet manufacturer wishing to place certified orders for construction plywood, with the plywood manufacturer, or a distributor, shall apply to the CPA for authority to place such orders. A

particular material for delivery in the month specified in this order) do not exceed the

before that time, may be delivered by the plywood manufacturer as he may desire sub-

tion plywood, with the plywood manufacturer, or a distributor, shall apply to the CPA for authority to place such orders. A

stock cabinet manufacturer must for the second calendar quarter of 1946 apply to CPA before April 1, 1946 and for subsequent quarters apply at least 20 days before the first day of the calendar quarter for which authorization is asked, by letter stating: (i) average monthly consumption of plywood in kitchen cabinets in year 1940 (required in first application only); (ii) average anticipated monthly production of kitchen cabinets in units to be produced in the next 3 calendar months in which construction plywood is required and (iii) total requirement in 3/8" basis of construction plywood for kitchen cabinets in item (ii) above. Such application will be processed equitably. A stock cabinet manufacturer must not specify delivery dates (at plant or warehouse) on certified orders more than 30 days before the time the construction plywood is needed for incorporation into cabinets. Furthermore, the stock cabinet manufacturer must not place certified orders for construction plywood in which is specified a delivery date later than during the third calendar month after the time the purchase order was placed.

(2) A stock cabinet manufacturer must use the construction plywood received on certified orders in the production of built-in kitchen cabinets suitabe for housing. The cabinets manufactured from the construction plywood must be held for sale as millwork and sold in conformity with paragraph (e) (2) of Direction 1 to PR 33 providing for the sale of millwork.

Door Manufacturers

(g) *Door manufacturers.* The following provisions tell how door manufacturers may place with plywood manufacturers or distributors certified orders for door plywood for the manufacture of standard house doors and how the doors must be sold.

(1) A door manufacturer may place certified orders for door plywood for delivery in each month beginning with the month of April, 1946, with the plywood manufacturer or a distributor for an amount in square footage not in excess of 10% of the amount in square footage of door plywood consumed by him in the manufacture of standard house doors in the year 1940.

(2) A door manufacturer must use each month, all the door plywood received on certified orders in the manufacture of standard house doors. The doors so manufactured must be held for sale as millwork and sold in conformity with paragraph (e) (2) of Direction 1 to PR 33 providing for the sale of millwork.

Distributors

(h) *Distributors.* The following provisions tell how distributors may place orders for construction plywood, and how the construction plywood may be sold:

(1) A distributor may place uncertified and unrated orders for delivery each month, starting with the month of April, 1946, for construction plywood, with the plywood manufacturer. A distributor must hold the construction plywood received after April 1, 1946 for sale only on certified orders or orders rated HII or AAA. Any quantities of construction plywood which at the end of a period of 60 days after receipt, are not required to fill all certified orders or HII or AAA rated orders received before that time, may be delivered by the distributor as he may desire, subject to all applicable orders and regulations of the CPA.

(2) A distributor who has received a certified order for construction or door plywood may place the certified order with a plywood manufacturer to get the construction or door plywood which will be delivered direct to consumer subject to the applicable inventory regulations. If a distributor has made delivery of construction or door plywood from his inventory on certified orders from a prefabricator, housing contractor, door manufacturer or stock cabinet manufacturer, he may place certified orders with a plywood manufacturer to replace it in his inventory. The distributor must hold the plywood received on such certified order as provided in paragraph (1) above.

(i) *Newcomers.* (1) A person who in the year 1940 was not established as a millwork manufacturer or a door manufacturer, and who wants to place monthly certified orders for construction plywood for use in kitchen cabinets or for door plywood for use in standard house doors, may apply to CPA for authorization to place certified orders for a calendar quarter. Authorization will be issued on a quarterly basis and application by letter must be filed at least 10 days before the first day of the calendar quarter for which authorization is asked. The letter should state: (i) location of plant; (ii) amount of equipment and its production capacity to manufacture kitchen cabinets or house doors; (iii) line of millwork to be produced; (iv) anticipated monthly production of house doors or kitchen cabinets in which plywood is required; (v) total requirements on a 3/8" basis of plywood for house doors or kitchen cabinets for the next current quarter. Such application will be processed in an equitable manner.

(2) A person receiving authorization to place a certified order under paragraph (i) (1) above, must hold kitchen cabinets or doors manufactured for sale in conformity with the provisions of paragraph (f) (2) and (g) (2) above, respectively.

Certification

(j) *Certification.* To certify an order for construction plywood or door plywood under this direction, the following certificate must be endorsed on or attached to the purchase order, or sales ticket. Certification must be signed manually or as explained in PR 7. However, the standard form described in that regulation may not be used in place of the certificate described in this direction. The certificate described in this direction may not be waived by paragraph (f) under PR 7.

Prefabricators, housing contractors, stock cabinet manufacturers, door manufacturers and distributors who place certified orders calling for delivery of construction plywood or door plywood, must use a certificate reading substantially as follows:

> The undersigned certifies to the supplier and to the CPA that he is a ------ (prefabricator, housing contractor, stock cabinet manufacturer, door manufacturer, or distributor) and that the quantities of construction plywood or door plywood covered by this order (together with all other certified orders for construction plywood or door plywood for delivery in the months specified in this order) do not exceed the amount he has been allowed under Direction 1A of PR 33 with the provisions of which he is familiar.

Miscellaneous

(k) *Miscellaneous.* The following provisions generally affecting plywood manufacturers, prefabricators, housing contractors, stock cabinet manufacturers, door manufacturers and distributors should be carefully read:

(1) *Validation of orders.* Any prefabricator, stock cabinet manufacturer, door manufacturer or housing contractor who has placed an uncertified order with a plywood manufacturer and is later authorized to place a certified order may validate the order by giving the plywood mnufacturer the certificate that he is entitled to use. Any order that is validated subsequent to April 1, 1946, should be treated as though the order was placed on the date that the certificate was received by the plywood manufacturer.

(2) *Applicability of regulations.* Except as otherwise required by this direction Priorities Regulations 1 and 3 govern the use of ratings and the acceptance, scheduling and filling of orders placed with distributors. All other applicable regulations and orders of the Civilian Production Administration must be observed.

(3) *Extension of HH rating.* The HH rating may not be applied or extended to a plywood manufacturer for plywood. However, any person who has received an HII rated order for the delivery of construction plywood may extend the HH rating to his suppliers (except to a construction plywood manufacturer) to get plywood which he will deliver on that order subject to applicable inventory regulations. If a person has made delivery of construction plywood on an HII rated order, he may extend the HH rating to his suppliers (except to a plywood manufacturer) to replace the amount in his inventory subject to the applicable inventory regulations. A millwork manufacturer who has received a HH rated order for millwork or who has delivered millwork on an HH rating, may not extend the HH rating for construction plywood for incorporation into millwork.

(4) *Violations.* Any person who willfully violates any provisions of this direction, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 8, as Amended Mar. 29, 1946]

PREFABRICATED HOUSING UNDER THE RECONVERSION HOUSING PROGRAM

The following amended direction is issued pursuant to PR 33:

(a) *What this direction does.* This direction explains how manufacturers of prefabricated houses, sections or panels, called prefabricators in this direction, may get HH ratings for certain materials to be used in the manufacture and erection of prefabricated housing under the Reconversion Housing Program.

(b) *Definitions.* For the purpose of this direction:

(1) "Prefabricated house" means a house which is manufactured in a factory, is transported without being taken apart, and will be ready for occupancy when placed on a foundation and connected with required utility services. The term "prefabricated house" does not include house trailers.

(2) "Prefabricated section" means a section of a house which is manufactured in a factory, is transported without being taken apart, and will be ready for use when attached to another section or other sections of a house, or used in combination with prefabricated panels or conventionally constructed elements or both, placed on a foundation and connected with public utility services.

(3) "Prefabricated panel" means any floor wall, partition, ceiling, roof or truss panel which is manufactured in a factory in such a fashion that it may be erected, in combination with other prefabricated panels or sections of a house, or in combination with conventionally constructed elements to produce housing accommodations. Prefabricated panels may, but need not, incorporate such items as window and door frames, sash, doors, builders' hardware, wiring, piping, etc.

(4) The terms "prefabricated panel" and "prefabricated section" do not include: (i) fabricated structural steel such as columns, beams, or trusses, (ii) millwork as defined in Direction 1 to Priorities Regulation 33, (iii) items of furniture and equipment not to be permanently attached to and made a part of a house or, (iv) building materials cut to size and shape for assembly at the site (however, if such materials are delivered by the prefabricator as part of the package he supplies, these materials for the purpose of this direction are considered as included in the package and are subject to the rules in this direction).

(c) *Applications by prefabricators for priorities assistance.* A prefabricator may apply to the Civilian Production Administration on Form CPA-4415 for authority to use an HH rating or to place certified orders to get materials on List 1 to this direction to be used in the manufacture of prefabricated houses, sections, and panels, or to be sold with them. Second quarter applications must be filed by April 1, 1946. Authorizations will be given on this form for materials for the Second Quarter (April, May and June) and an advance authorization for a percentage of requirements for the third quarter (July, August, and September). The advance authorization will enable the prefabricator to place purchase orders for the third quarter before the receipt of his third quarter authorization, subject to the provisions of paragraph (d) (5). Priorities assistance will be granted only for such quantities of materials for manufacture into prefabricated houses, sections or panels as are likely to be fully used in housing authorized under the Reconversion Housing Program.

(d) *Use of HH ratings and certified orders by prefabricators.* (1) A prefabricator must not extend an HH rating which he receives from his customers.

(2) A prefabricator to whom an HH rating is assigned on Form CPA-4415 under this direction may use it only to get the quantities of the materials approved on the application (except that the HH rating may not be used to get materials covered by paragraph (4) below). The HH rating may be applied to a purchase order only by placing on the order the following certificate (the certificates set forth in Priorities Regulations 3 and 7 may not be substituted for this certificate).

Reconversion Housing Program
Prefabricated Housing

I certify to the Civilian Production Administration that the materials covered by this order will be used only in prefabricated units being manufactured under the Reconversion Housing Program and that I will sell the completed units only on orders rated HH under Priorities Regulation 33.

Manufacturer

(3) A prefabricator who has been granted priorities assistance on Form CPA-4415 may use an HH rating to get his approved quantity of bath tubs, radiation and soil pipe from distributors or jobbers, and for his approved quantity of gypsum board and lath from dealers, under Directions 2, 3, 4 and 5 to Priorities Regulation 33. A prefabricator, however, shall not use an HH rating to get any of these products directly from producers, as it is expected by the Civilian Production Administration that producers who regularly sell these products directly to prefabricators will continue to provide an equitable share of their products to them without use of ratings.

(4) A prefabricator whose application on Form CPA-4415 is approved may place certified orders for the approved quantities of lumber, millwork, hardwood flooring and construction plywood in accordance with Direction 1 and Direction 1A to Priorities Regulation 33.

(5) The prefabricator must not specify delivery dates (delivery at his plant or warehouse) on HH rated or certified purchase orders for materials more than 30 days before the time they are to be incorporated in the prefabricated house, section or panel. Furthermore, the prefabricator must not place HH rated or certified purchase orders for materials in which delivery is specified later than during the third calendar month after the time when the purchase order is placed.

(e) *Extendibility of HH ratings by dealers.* A person (other than a prefabricator) who receives an HH rated order for a prefabricated house, section or panel, may extend the HH rating to a prefabricator to get the prefabricated house, section or panel which he will deliver on the HH order.

(f) *Sales by prefabricators.* A prefabricator must not sell any prefabricated house, section or panel, in which materials obtained with an HH rating or by means of a certified order under Direction 1 or Direction 1A to Priorities Regulation 33 have been incorporated, except on an order rated HH.

(g) *Application by builders under Priorities Regulation 33.* A veteran of World War II or other builder who wishes to erect a prefabricated house, section or panel (including a prefabricator who erects the building himself) to produce housing accommodations may apply for an HH rating under Priorities Regulation 33 and his application will be processed in the usual fashion. If approved, the builder will be subject to all the requirements of Priorities Regulation 33 including the restrictions on sales price, rents and preference to veterans. When the application is approved, the builder will be assigned an HH rating which he may use to get the prefabricated house, section or panel and other items from the prefabricator. This rating may be applied in accordance with, and subject to the limitations of paragraph (d) of the regulation. The builder may also use the HH rating to get the necessary quantities of any other items on Schedule A of Priorities Regulation 33 from a supplier.

(h) *Violations.* Any person who wilfully violates any provision of this direction, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(i) *Appeals.* Any appeal from the provisions of this direction should be made by mailing a letter in triplicate to the Civilian Production Adminstraton, Washington 25, D. C., Ref: Direction 8 to Priorities Regulation 33, stating the particular provision appealed from and stating fully the grounds for the appeal.

Issued this 29th day of March 1946.

This certification may be placed on a purchase order or contract by means of a rubber stamp or printed on the order or contract form. The certification need not be signed separately if the purchase order or contract is signed by an official who is authorized to assign the ratings on behalf of the agency which is placing the order or contract. This method of assigning the rating may not be used when the assignment of the rating is subject to review and approval by the Civilian Production Administration before issuance.

(h) *Application and extension of ratings.* Ratings assigned under this directive may be applied and extended only in accordance with applicable regulations of the Civilian Production Administration.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-317, as Amended April 1, 1946]

COTTON TEXTILE DISTRIBUTION

Section 3290.115 *General Conservation Order M-317* is amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of cotton textiles and materials for making cotton textiles for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.115 *General Conservation Order M-317*—(a) *What this order does.* This order contains general provisions regarding cotton textiles and special provisions relating to cotton yarn. The special provisions for distribution of cotton fabric are in Supplementary Order M-317A. Provisions for assignment of CC ratings for certain cotton and other textiles are in Priorities Regulation 28A and in Order M-328B and its schedules and directions.

(b) *Definitions.* For the purpose of this order and its schedules and directions:

(1) "Cotton yarn" means yarns containing 50% or more by weight of cotton or cotton waste or any combination of the two, whether spun on roving, ring, or converted twister spindles, or whether subsequently twisted or braided. The term includes not only gray, bleached, colored, mercerized, glazed or polished yarn, but also thread, cordage, sail, seine or tying twine or rope. The term does not include yarns containing wool or yarns produced on the woolen or worsted system.

(2) "Cotton fabric" means any fabric 12" or more in width woven or braided from cotton yarn. The term includes not only fabrics in the gray and yarn dyed fabrics, original mill or regular finish, but also fabrics which have been bleached, Sanforized, dyed or printed; and includes shorts, seconds, remnants or mill ends. The term does not include blankets or blanketing containing 25% or more by weight of wool; or fabrics (other than blankets or blanketing) containing wool produced on the woolen or worsted system.

(3) "Cotton textile" means any cotton yarn or cotton fabric, and the following cotton products: bedsheets, pillow cases, blankets, towels, diapers, face cloths, table "linens", and fish netting.

(4) "Producer" of any cotton textile means any manufacturer who makes that cotton textile in the forty-eight States or the District of Columbia.

(5) "Export" means a shipment from any point within the United States and its territories and possessions to any point outside of that area. "Exports" include shipments to the Philippines.

(c) *Information required on rated orders for cotton textiles.* (1) Each person applying or extending a preference rating for any cotton textile shall add to his rating certificate a statement as to the source of the rating, as follows:

This rating has been assigned on Form -------- No. -------- (insert the CPA Form Number and Serial Number, or specify export license number and date of validation).

(2) The above requirement does not apply to the United States Army, Navy, Maritime Commission or War Shipping Administration on their direct purchase orders.

(d) *Restriction on yarn producer's use of rating.* No person owning or controlling spinning machinery shall use any preference rating to get cotton yarn from another producer of cotton yarn, except to the extent authorized by the Civilian Production Administration, upon his showing, on Form CPA-2842, that his own spinning is insufficient or unsuitable.

(e) *Reports by yarn producers.* Each producer of cotton yarn shall file a report with the Civilian Production Administration on Form CPA-658E at the time and in the manner prescribed in that form. This reporting requirement has been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(f) *Allocation.* The Civilian Production Administration may assign preference rating for or allocate and direct deliveries of cotton textiles pursuant to application on Form CPA-2842.

(g) *General provisions*—(1) *Applicability of regulations.* Except as otherwise provided herein, this order and Supplementary Order M-317A, and all transactions affected thereby are subject to all applicable regulations of the Civilian Production Administration.

(2) *Appeals.* Any appeal from the provisions of this order, of Supplementary Order M-317A, or of any direction under these orders, shall be made by filing a letter in triplicate, referring to the particular provisions appealed from, and stating fully the grounds of the appeal.

(3) *Violations.* Any person who wilfully violates any provision of this order, of Supplementary Order M-317A, or of any direction under these orders, or who, in connection with these orders or directions, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control, and may be deprived of priorities assistance.

(4) *Communications.* All reports, appeals and other communications concerning this order should be addressed to: Civilian Production Administration, Textile Division, Washington 25, D. C., Ref.: M-317.

Chapter XI—Office of Price Administration

PART 1306—IRON AND STEEL

[RPS 6, Amdt. 16]

IRON AND STEEL PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Price Schedule No. 6 is amended in the following respects:

1. In § 1306.17 (a) the text preceding subparagraph (1) is amended to read as follows:

(a) *Additions to basing point base prices for certain iron and carbon steel products.* The sums specified below may be added to the applicable basing point base prices otherwise established by this Schedule for the particular iron (other than wrought iron) and carbon steel products named, in prime quality. In computing a maximum price for secondary quality material, the applicable percentages set forth in § 1306.10 (e) shall be taken after increasing, by the sum specified below, the basing point base price for the product in prime quality.

2. In § 1306.17 (a), subparagraphs (20) and (21) are amended to read as follows:

	Per base box
(20) Tin plate, including hot dipped, electrolytic and canmaking quality black plate. For all such material and other grades of black plate sold on a 100 pound basis, $0.25 per 100 pounds may be added.	$0.25
(21) Terne plate	.25

3. In § 1306.17 (a), subparagraph (25) is amended to read as follows:

	Per 100 lbs.
(25) Galvanized sheets, galvannealed sheets and zinc coated specialty sheets	$0.35

4. In § 1306.17 (b) (5) the term "Miscellaneous nails and staples" is deleted and the term "Miscellaneous nails and brads" is inserted in lieu thereof.

5. In § 1306.17, a new paragraph (c) is added to read as follows:

(c) *Modification of pricing basis for rails.* The maximum prices for light or heavy rails otherwise established by this schedule may be modified in accordance with the provisions of this paragraph.

(1) Basing point base prices for rails customarily stated in terms of gross tons may be converted to a net ton basis by dividing the applicable gross ton price (before the addition of any increase set forth in paragraph (a) of this section) by 1.12. The resultant figure shall be rounded to the nearest cent (all values of less than 5 in the third decimal place shall be dropped; all values of 5 or more in the third decimal place may be increased to 1 cent). The applicable increase in basing point base prices set forth in subparagraphs (7) and (8) of paragraph (a) of this section may be added to the price thus obtained.

(2) Extras for rails customarily stated in terms of gross tons may be charged for rails sold on a net ton basis without any reduction in amount.

This amendment shall become effective April 1, 1946.

Issued this 1st day of April 1946.

PART 1499—COMMODITIES AND SERVICES

[MPR 580,[1] Amdt. 11]

RETAIL CEILING PRICES FOR CERTAIN APPAREL AND HOUSE FURNISHINGS

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Section 13 of Maximum Price Regulation 580 is amended to read as follows:

SEC. 13. *Uniform dollar-and-cents prices for certain articles*—(a) *How prices are established.* The OPA may by order, upon application, establish dollar-and-cent retail ceiling prices for branded articles whenever it appears that:

(1) The article (or an article of the same type) was sold at retail at substantially uniform prices for a period immediately prior to March 19, 1945. OPA may establish uniform retail ceiling prices for any article if the applicant has received or is eligible to receive an order under this section for any of his articles.

If the applicant had a policy of uniform retail prices for his branded merchandise and can show that the article was sold at substantially uniform prices except for a limited area, OPA may establish uniform retail ceiling prices for the article and require retailers in the area in which prices were not maintained to sell in accordance with the pricing provisions of this Regulation. Uniform retail prices may be established for separate zones (not to exceed five zones) where the applicant can show that such differential was maintained as part of his uniform pricing policy immediately prior to March 19, 1945.

Wherever an applicant ceased production of the article because of wartime restrictions or war contracts, the substantial uniformity of applicant's retail prices shall be determined by his last selling period.

(2) The price requested for the article is no higher than the existing level of ceiling prices under this regulation.

Orders issued under this section will remain effective unless revoked or suspended by the Administrator. Orders will be revoked or suspended only if the Administrator is satisfied that such revocation or suspension is not inconsistent with the effective control of prices.

(b) *What the Order may contain.* (1) An order may be issued under this section establishing uniform ceiling prices for all retail sales of an article covered by this regulation although the retail seller may not otherwise be subject to this regulation. A ceiling price thus established shall apply in place of the ceiling price that would otherwise have been determined under sections 7, 10, 11 and 12 of this regulation or under the provisions of any other regulation. Except as provided by the order, all of the provisions of this or whatever regulations would otherwise have applied shall remain applicable in all other respects.

(2) An order issued under this section will include a provision requiring the applicant to tag or ticket the article with the retail ceiling price and other specified information.

(3) An order issued under this section will require the applicant to send copies of the order and any subsequent amendments thereto to those purchasers for resale of the articles covered by the order.

(4) An order issued under this section will ordinarily be in the form of applicant's selling price and retail ceiling price relationships. Such an order will ordinarily require the applicant to submit, from time to time as specified in the order, a description of the articles which he is pricing pursuant to the terms of the order and any other information that may be required by the terms of the order.

(c) *Who may apply.* (1) A manufacturer, or a wholesaler of a branded article may apply under this section if he can submit the information required by paragraph (d).

(2) A group of manufacturers selling the same article under the same brand name may apply as a group under this section if they can submit the information required by paragraph (d).

(d) *What the application must contain.* Two copies of each application must be filed with the Consumer Goods Price Division, Washington 25, D. C. The application must contain the following:

(1) Business name and address of the applicant.

(2) A complete identification of the article for which the price is sought including:

(i) The brand name identifying the article, and its style or lot number.

(ii) Applicant's ceiling price.

(iii) An identification of the regulation and the section in that regulation or the identification of the order issued by the OPA under which his ceiling price was established.

(iv) His invoice price and terms to various classes of retailers.

(v) His suggested retail price, if any, immediately prior to March 19, 1945. [If he had a suggested retail price prior to March 19, 1945, he should submit evidence to show his method of requiring retail price maintenance, such as national advertising, catalogues sent to retailers, advertising mats furnished retailers, copies of letters enforcing retail price maintenance, etc. If he had no suggested retail price prior to March 19, 1945, or did not attempt to enforce his suggested retail price, but can show that the article was sold at substantially uniform prices, he should submit a list of the names and addresses, giving their retail selling price of the article immediately prior to March 19, 1945, of all of his retail customers in fifteen cities representing a cross section of his customers.]

(3) The uniform retail ceiling prices requested for the article.

(4) In the case of wholesalers applying under this section, the name and address of the manufacturer of the article and the manufacturer's style or lot numbers.

(5) In the case of a group of manufacturers applying for a single order covering the articles manufactured in common by the group, the application must contain, in addition to the requirements of subparagraph (2) above, evidence to show that each manufacturer of the group, who sold the article, maintained the same retail prices on the same article with the same brand.

[1] 10 F.R. 3015, 3468, 3642.

This amendment shall become effective April 7, 1946.

NOTE: The reporting and recordkeeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 2d day of April 1946.

Notices

NAVY DEPARTMENT.

PETROLEUM

CALL FOR BIDS

Invitation to qualified bidders to bid with respect to public sale of petroleum from Naval Petroleum Reserve No. 1 (Elk Hills), Kern County, California.

1. Pursuant to the act of June 4, 1920 (41 Stat. 813), as amended by the act of June 30, 1938 (52 Stat. 1252), and as further amended by the act of June 17, 1944 (58 Stat. 280), the Secretary of the Navy (hereinafter referred to as Navy) has produced and will produce from said Reserve and has and will have available for public sale to the highest qualified bidder petroleum in the estimated quantities, at the approximate times and at the place indicated below. Bids for all of such petroleum are requested in compliance with the terms of the above cited Act and the conditions and provisions to which reference is hereinafter made.

2. The public sale will take place in Room 533, United States Court House and Post Office Building, Temple and Main Streets, Los Angeles 12, California, at 10:00 a. m. April 17, 1946. No one will be permitted to bid at such sale who has not, in advance thereof, filed in writing as provided in the Specifications hereinafter described (a) a bid and (b) a statement describing his qualifications. The bids and statements will be read aloud at said time and place and any interested person may be present and will be heard with respect to the subject matter. A bidder who has complied with the provisions of the Specifications may forthwith, after all proposals have been read, change the price or any other terms of his bid and such change or changes shall immediately be written into his bid. No changes will be permitted, however, which will have the effect of lowering the prices bid. The bids will then be taken under advisement by Navy and an acceptance made within 30 days thereafter but such acceptance shall be subject, however, to the later approval of the President of the United States as explained in the Specifications described below. Navy reserves the right, in the public interest, to reject all bids and order a new public sale.

3. The petroleum which will be offered for sale consists of all of Navy's share of the petroleum produced and saved from the Stevens Oil Zone at Naval Petroleum Reserve No. 1 (Elk Hills) during the period of an exploratory and testing program which was started in July 1945 and will be continued for an indefinite period until completed or abandoned. The successful purchaser will have the right to withdraw from his contract upon 60 days written notice. Navy now has available for immediate delivery approximately 13,500 barrels and estimates that approximately 15,000 barrels will be available each month. The quantity to become available from time to time is entirely dependent on the coming in of producing wells in said Zone and the amount of production, therefrom and from wells already drilled, required, in the opinion of the Operating Committee of the Unit Operation-Naval Petroleum Reserve No. 1 (Elk Hills), to test such wells but not to produce them for any other purpose. The place of delivery will be at the Unit Operation's storage tanks in the Southwest corner of Section 23, Township 30 South, Range 24 East, M. D. B. & N., Kern County, California.

4. Specifications containing detailed information on the quantity offered for sale, form of bids, bond requirements, payments, deliveries, volume measurements, provisions respecting price, grav-

ity determination, form of contract, information to be supplied by bidder, etc., can and should be obtained by prospective bidders from Director, Naval Petroleum and Oil Shale Reserves, Navy Department, Washington, D. C. or the Inspector, Naval Petroleum Reserves in California, 402 United States Court House and Post Office Building, Los Angeles 12, California, or the Supply Officer in Command, Naval Supply Depot, San Pedro, California. All proposals must conform to such Specifications.

JOHN L. SULLIVAN,
Acting Secretary of the Navy.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Pacific Stove and Foundry Company, 1120 West Idaho Street, Seattle, Washington, may compute its adjusted ceiling prices for all articles of the line of coal and wood and oil burning stoves and heaters which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of the OPA Industry Reconversion Increase) increased by 19.9 per cent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price (exclusive of the OPA Industry Reconversion Increase) hereafter properly determined or established in accordance with sections 3, 7, or 8 of Maximum Price Regulation No. 64 increased by 19.9 per cent; or the ceiling price determined in accordance with section 5 of Maximum Price Regulation No. 64 which ceiling price may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(4) The manufacturer shall give each of his purchasers for resale of articles covered by this order a sales invoice which conforms to the provisions of section 11c of Maximum Price Regulation No. 64. On that invoice he must separately state and designate as his "OPA Industry Reconversion Increase" that portion of his adjustment under this order which is equal to five per cent of his ceiling price (exclusive of all adjustments).

Example:

Maximum price of Model X stove (exclusive of all adjustments)	$100.00
Adjusted maximum price under this order	119.90
Invoice must read as follows:	
"Model X stove	$114.90
OPA Industry Reconversion Increase"	5.00
Total	$119.90

The $5.00 figure shown on invoice is 5% of $100.00, the maximum price exclusive of all adjustments.

(b) *Resellers' ceiling prices.* A reseller shall determine his ceiling prices for resales of any article which he has purchased at a ceiling price adjusted under this order as follows:

(1) If he has ceiling prices established for sales of comparable articles he shall calculate his ceiling price under this order by adding to his invoice cost (not including his supplier's separately stated OPA Industry Reconversion Increase) the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended remains in effect.

(2) If a reseller cannot establish his ceiling prices under subparagraph (1) above he shall adopt as his ceiling price the ceiling price of his "closest seller of the same class" for the same article produced by the same manufacturer. A reseller's "closest seller of the same class" is a reseller who (a) has established a ceiling price under subparagraph (1) above for sales of the identical model of stove to the same class of purchaser, and (b) is the same general type and class of seller, and (c) is located nearer to the seller than any other seller who meets requirements (a) and (b) of this subparagraph.

(3) If a reseller cannot otherwise find his ceiling price for a particular sale he shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation or § 1372.101 (d) of Maximum Price Regulation No. 210, whichever is applicable. Ceiling prices established under either of those sections will reflect the supplier's prices as adjusted in accordance with this order.

(4) A wholesaler establishing his ceiling prices under this paragraph shall provide each purchaser for resale from him of articles covered by this order with a sales invoice which conforms to the provisions of section 11c of Maximum Price Regulation No. 64 on which he must separately state and designate as his "OPA Industry Reconversion Increase" an amount equal to three fourths of the dollar-and-cent amount of the separately stated "OPA Industry Reconversion Increase" appearing on the manufacturer's invoice to him (as required by section 11a of Maximum Price Regulation No. 64).

(c) *Notification.* At the time of, or prior to the first invoice to each purchaser for resale of articles sold at ceiling prices adjusted under this order, the seller shall notify the purchaser in writing of the method of establishing ceiling prices set by this order for resales by the purchaser. This notice may be given in any convenient form.

(d) *Relationship of this order to Maximum Price Regulation No. 64, Maximum Price Regulation No. 210 and the General Maximum Price Regulation.* All the provisions of Maximum Price Regulation No. 64, Maximum Price Regulation No. 210 and the General Maximum Price Regulation continue to apply to sales of articles covered by this order except to the extent that they are modified by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 1st day of April 1946.

Issued this 1st day of April 1946.

PAUL A. PORTER,
Administrator.

NATIONAL ENAMELING AND STAMPING CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* National Enameling and Stamping Company, 270 North 12th Street, Milwaukee, Wisconsin, may compute its adjusted ceiling prices for all articles of enameled household utensils which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 23.2 per cent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Reseller's ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows: A reseller shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the sale class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for as long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests for adjustment of maximum prices not specifically granted by this order are hereby denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective, on the 1st day of April 1946.

Issued this 1st day of April 1946.

Administrator.

INDUSTRIAL LAMP CORP.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Industrial Lamp Corporation, 2501 South Dearborn Street, Chicago 16, Illinois may compute its adjusted ceiling prices for all articles of portable electric lamps which it manufacturers, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 20 per cent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No.

188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Maximum prices of purchasers for resale.* Purchasers for resale of portable lamps which the manufacturer has sold at adjusted maximum prices permitted by paragraph (a) above, shall determine their adjusted maximum prices as follows:

(1) *Jobbers.* A reseller at wholesale who determines his maximum resale price under section 4.5 (b) of Supplementary Regulation 14J shall calculate his ceiling price according to the method provided by paragraph (b) (2) of section 4.5 on the basis of the manufacturer's adjusted ceiling price as permitted by this order regardless of whether the article was sold by the reseller during March 1942.

A reseller at wholesale who determined his maximum resale price under section 4.5 (c) of Supplementary Regulation 14J shall calculate his ceiling price according to the method provided by paragraph (c) of section 4.5 on the basis of the seller's invoice cost.

A reseller at wholesale who cannot determine his ceiling price in accordance with the foregoing provisions shall apply to the Office of Price Administration for the establishment of his ceiling prices in accordance with the provisions of section 4.5 (d) of Supplementary Regulation 14J. Ceiling prices authorized under that provision will reflect the supplier's prices adjusted in accordance with this order.

(2) *Retailers subject to Maximum Price Regulation No. 580.* A retailer who must determine his maximum prices under Maximum Price Regulation No. 580 by the use of a pricing chart, shall compute his maximum prices in the manner provided by that regulation.

(3) *Other purchasers for resale.* A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620–759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale prices cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a price adjusted in accordance with the terms of this order, the seller shall notify such purchaser in writing of the methods established in section (b) for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 1st day of April 1946.

Issued this 1st day of April 1946.

[2d Rev. MPR 195, Rev. Order 12]

SALES OF ASSEMBLED RETURNABLE BEVERAGE CASES

Order 12 under 2d RMPR 195 is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 7a of 2d Revised Maximum Price Regulation 195, it is ordered:

SECTION 1. *What this order covers.* This order covers *all* sales of assembled returnable (multiple trip) beverage cases produced in those States east of and including the States of Minnesota, Iowa, Nebraska, Kansas, Oklahoma, and Texas.

SEC. 2. *Definition of "assembled returnable beverage case".*—(a) *General.* For the purpose of this order assembled returnable (multiple trip) beverage cases refer to the standard beverage cases listed in Table I in paragraph (b) below, whether strapped or not, as well as similar containers made principally of wood, designed for the transportation and handling of beverage bottles other than milk bottles. A "strapped" case refers either to a full strap or a "hand hole-to-hand hole" strap.

(b) *Description of beverage cases.* The cases described in Table I below are based on the number and size of bottle to be carried by the case, the minimum inside dimensions and the number of pockets required for the case. It should be noted that these dimensions are minimum and that it is customary to build the cases larger than the minimum. Due to the variations of dimension customary in the industry for the same style box and further due to the custom in the industry not to change the price for a minor variation in dimension, only the minimum dimensions are set forth. It should be clearly understood, however, that all the larger customary sizes are covered by this order. However, the maximum price for a case with any dimension smaller than the minimum set forth in Table I shall be established under section 6 of this revised order.

(a) *Services covered by this order.* This order applies to all sellers of services generally supplied by dry cleaning establishments including, but not limited to, the following services: cleaning, pressing, dyeing, and alterations, who furnish purchasers of such services the opportunity to purchase insurance coverage of the type described in paragraph (b) hereof.

(b) *Type of insurance covered by this order.* Insurance coverage which meets all of the following requirements:

(1) The insurance policy covers all risks of loss or damage, except those commonly known as war risks.

(2) The purchaser of dry cleaning service, whether named in the policy or not, is described therein as one of a class of persons who is granted insurance coverage upon his garments, and who is enabled to proceed directly against the insurer for settlement and payment of his claim in the event of loss or damage covered by the policy. Such rights may be evidenced by a coupon, ticket, or certificate issued to him by or on behalf of the insurer.

(3) It must be optional with the purchaser of the dry cleaning service whether or not he will purchase insurance coverage.

(4) The premium paid by the purchaser is based on (i) a fixed charge per garment, or portion thereof, (ii) upon a percentage of the charges made by the seller of dry cleaning service, or, (iii) on the value of the garment.

(5) Payment of the premium is made by the customer to the seller of dry cleaning service for the account of the insurer, and such payment shall not exceed the amount paid by the seller of dry cleaning service to the insurer.

(c) *Maximum prices.* (1) The premium charge made by the insurer issuing a policy of the type described in paragraph 2 may be added by the seller of dry cleaning service to his legally established prices for dry cleaning services when sold to those customers who elect to buy insurance.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 54-108, 59-81]

CRESCENT PUBLIC SERVICE CO., ET AL.

MEMORANDUM FINDINGS AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 28th day of March, A. D. 1946.

In the matters of Crescent Public Service Company, Central Ohio Light & Power Company, Colorado Central Power Company, Empire Southern Service Company, Helene Curley Rea, Robert W. Rea, Floyd W. Woodcock, Kathleen T. Woodcock, Robin Corporation, applicants, File No. 54-108; Crescent Public Service Company, Central Ohio Light & Power Company, Colorado Central Power Company, Empire Southern Service Company, respondents, File No. 59-81.

In our findings and opinion herein dated January 22, 1946,[1] and our supplemental findings and order herein dated February 1, 1946,[2] among other things, we approved an amended plan filed by Crescent Public Service Company ("Crescent"), a registered holding company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, we granted and permitted to become effective certain applications and declarations of Crescent and Central Ohio Light & Power Company ("Central Ohio") in connection with a proposed recapitalization of Central Ohio, and we reserved jurisdiction with respect to the proposed refinancing by Central Ohio of the 12,000 $6 preferred shares to remain outstanding following such recapitalization. Purusuant to Crescent's request, we applied to the District Court of the United States for the District of Delaware to enforce and carry out the terms and provisions of the plan, and after hearing the plan was approved and ordered to be enforced by Court Order dated February 21, 1946.

Subsequently, the hearing before this Commission was reopened. Crescent and Central Ohio have now filed an amendment to their applications and declarations pursuant to sections 6 (b) and 12 of the act and Rule U-50, regarding the proposed sale by Central Ohio at competitive bidding of 12,000 shares of new Preferred Stock,[3] the acquisition, redemption and retirement by Central Ohio, using the proceeds of such issue and sale, of the 12,000 $6 preferred shares of Central Ohio to remain outstanding upon consummation of the recapitalization heretofore approved, including 28 shares held by Crescent, and the sale by Crescent to Central Ohio of said 28 $6 preferred shares of Central Ohio. Having considered the record, we make the following findings:

Central Ohio was organized in 1930 under the laws of Ohio and is engaged principally in the generation, transmission, distribution and sale of electric energy in Ohio. The business, properties, capitalization and earnings of Central Ohio are discussed in our findings of January 22, 1946, and it does not appear that there have been any substantial changes thereafter.

[1] Represents allocated portion of estimated consolidated taxes as joined with Crescent in filing consolidated income tax returns.

[2] Computed on basis of filing separate corporate return at rates in accordance with the Revenue Act of 1945.

[3] Assuming, for purposes of this statement only, a 4% dividend rate.

The proposed amendment to Central Ohio's Articles of Incorporation contains provisions for the protection of the preferred stockholders, including the right to elect a majority of the board of directors in the event of certain dividend defaults, a limitation on the issuance of unsecured debt without the consent of the preferred stockholders, a restriction on the payment of common stock dividends depending upon capitalization ratios, and other provisions which we deem appropriate. In view of such provisions, and the improvements in capital structure to result from the recapitalization heretofore approved, Central Ohio has applied for revocation of the provisions of our order dated February 3, 1944,[4] prohibiting the declaration or payment of common stock dividends without our approval. It appears that such application may appropriately be granted, subject to adoption of the amended articles and consummation of the recapitalization.

Central Ohio proposes to ask for sealed bids, pursuant to the competitive bidding requirements of Rule U-50.

[1] Holding Company Act Release No. 6378.

[2] Holding Company Act Release No. 6396.

[3] The rate of dividends and the price are to be determined by competitive bidding.

[4] Central Ohio Light & Power Company, ---- S.E.C. ----, Holding Company Act Release No. 4872.

Each bid is to specify the price to be paid to Central Ohio for the 12,000 shares of new Preferred Stock, which is to be not less than $100 per share nor more than $102.75 per share, plus accrued dividends from March 1, 1946. Each bid is also to specify the dividend rate on such preferred stock, which is to be a multiple of $\frac{1}{10}$th of 1%. It appears that the procedure of sale to be followed by Central Ohio conforms with the provisions of Rule U-50 (b).

We find that the issuance and sale by Central Ohio of the new Preferred Stock are solely for the purpose of financing the business of Central Ohio, and have been expressly authorized by the Public Utilities Commission of Ohio, in which State Central Ohio is organized and doing business. We are therefore required by the provisions of subsection (b) of section 6, upon such terms and conditions as we may deem appropriate in the public interest or for the protection of investors or consumers, to exempt these securities from the requirements of section 6 (a). In this connection our order herein will be conditioned upon completion of the record on the results of the competitive bidding prior to consummation of the proposed sale, and we shall reserve jurisdiction as to fees and expenses.

With respect to the acquisition, redemption and retirement by Central Ohio of its outstanding $6 preferred shares, and the sale by Crescent to Central Ohio of 28 of such shares, we see no basis for any adverse findings and find that all applicable statutory standards of the act are satisfied, subject to the above condition and reservation of jurisdiction.

It is therefore ordered, That the application herein of Central Ohio Light & Power Company, as amended, for exemption from the provisions of section 6 (a) of the act of the proposed issue and sale at competitive bidding of 12,000 shares of new preferred stock, and the declaration herein of Central Ohio Light & Power Company and Crescent Public Service Company, proposing the acquisition, redemption and retirement by Central Ohio Light & Power Company of 12,000 $6 preferred shares and the sale by Crescent Public Service Company to Central Ohio Light & Power Company of 28 of such shares be, and the same hereby are, granted and permitted to become effective subject to the terms and conditions prescribed in Rule U-24 and to the following further conditions:

(1) That the proposed sale of said shares shall not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate;

(2) That jurisdiction be, and the same hereby is, reserved with respect to the payment of all fees and expenses in connection with the proposed transactions, including the fees and expenses of counsel for the prospective bidders.

It is further ordered, That the application of Central Ohio Light & Power Company for the revocation of that part of our order dated February 3, 1944 (File No. 70-844), prohibiting the declaration or payment of common stock dividends, without our approval, be, and the same hereby is, granted, subject, however, to a certificate of notification being filed with the Commission stating that Central Ohio Light & Power Company has consummated the transactions heretofore approved herein in respect of its recapitalization, and has amended its Articles of Incorporation as proposed herein.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

EMERGENCY WHEAT PURCHASE PROGRAM BULLETIN

§ 296.01 *Emergency Wheat Purchase Program Bulletin.* This section states the requirements with respect to the Emergency Wheat Purchase Program of the Commodity Credit Corporation, hereinafter called C. C. C., under which purchases of eligible wheat will be made. The program will be administered in the field by the County Agricultural Conservation Committees under the general supervision of the respective State Committees.

(a) *Terms of eligibility.* For the purpose of this section and the contract of sale relating thereto, an eligible producer shall be any individual, partnership, association, corporation, or other legal entity who produced the eligible wheat. Eligible wheat shall be wheat of the 1945 crop and of a grade and quality corresponding to the grade and quality required of eligible wheat under the wheat loan program.

(b) *Terms and conditions.*—(1) *Delivery.* Delivery of the wheat shall be made to a country elevator which has executed a Uniform Grain Storage Agreement with the Secretary of Agriculture. Delivery must be made before a closing date to be announced, which will, in any event, be not later than July 1, 1946. If a sufficient quantity of wheat is obtained prior to such closing date, the closing date may be advanced; however, if the closing date is advanced, C. C. C. will give notice thereof.

(2) *Contract of sale.* The contract of sale shall be in the form prescribed by C. C. C.

(3) *Purchase price.* The purchase price per bushel shall be the applicable market price as determined by C. C. C. at the point of delivery on any date the producer elects, between the date of delivery and April 1, 1947: *Provided, however,* That only one election may be made for each lot of wheat: *And provided further,* That the producer may not elect a date prior to the date on which he mails a notice to C. C. C. in writing of his election. In the event no date is elected, the purchase price shall be the applicable market price as of March 31, 1947.

(4) *Basis of sale.* The weight, grade, and quality of the wheat shall be the inweight, grade, and quality determined by the country elevator and approved by the producer at the time the wheat is received at the elevator.

(5) *Time of payment.* The purchase price shall be paid as soon as practicable after the producer has notified C. C. C. of the date as of which the purchase price is to be determined. No advance payment will be made on the purchase price.

(6) *When title passes.* The contract, when signed by the producer, shall become effective and the title to the wheat shall pass to C. C. C. as of the date the contract is signed by the country elevator accepting delivery on behalf of C. C. C.

(7) *Warranty against liens.* The producer shall be required to warrant that he is the owner of the wheat and that the wheat is free and clear of all liens and encumbrances.

(8) *Assignments.* The rights under the Contract of Sale cannot be transferred or assigned.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, as Amended Apr. 2, 1946]

RESTRICTED PRIORITIES ASSISTANCE FOR NON-MILITARY PURPOSES

§ 944.49 *Priorities Regulation 28*—(a) *Background and purpose of this regulation.* With the exception of certain areas of critical shortages, such as the housing and apparel fields, the increased supply of many materials resulting from reduction in military procurement is generally adequate to meet demands. It is the declared policy of the Civilian Production Administration to remove priority controls as quickly as possible. In view of this situation and policy, the issuance of preference ratings by the CPA will be restricted to a minimum. Outside the areas of critical shortages mentioned above, limited priorities assistance may be given for non-military purposes only in specific instances where the need is clearly demonstrated as necessary to assist reconversion or insure the continued fulfillment of essential civilian or export needs. This regulation describes the conditions under which CC ratings will be assigned in such cases, except for textile fabrics or yarns for use in the United States which are covered by Priorities Regulation 28A.

Paragraph (b) below lists other regulations and orders which explain the assignment and use of preference ratings for purposes not covered by this regulation. Paragraph (c) states how applications should be filed under this regulation for use in this country. Paragraph (d) gives the general rules governing the assignment of such ratings, and paragraphs (e) through (h) cover the special situations where these ratings may be granted. Paragraph (i) explains how CC ratings are granted for export.

(b) *Other procedures for assigning ratings.* Priorities Regulation 1 explains in general the rating system, including the sequence of ratings and the purposes for which AAA and MM ratings are assigned. In addition, Priorities Regulation 28A, and certain orders in the M-317 and M-328 series, explain the assignment of CC ratings for certain textiles and related items, and Priorities Regulation 33 explains the assignment of HH ratings for housing.

(c) *How to apply for a CC rating.* Applications for a CC rating under this regulation for uses in the United States, its territories and possessions, should be made on Form CPA-541A addressed to the Civilian Production Administration, Washington 25, D. C., Ref: PR-28. Applications for textile yarns and fabrics covered by Priorities Regulation 28A should be made in accordance with that regulation, and applications for other textiles and related items for certain end uses should be made as explained in orders in the M-317 and M-328 series.

(d) *When the Civilian Production Administration will assign a CC rating under this regulation.* (1) When effective assistance of other kinds is not practicable (CPA may locate sources able to ship without ratings), CC ratings may be granted for specific items and quantities of materials in the limited classes of cases described in paragraphs (e) through (h) below, upon determination in each instance that all the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable;

(ii) Reasonable efforts have been made to get the required item without a rating; and

(iii) A rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and material available without a rating.

(2) In the case of production materials and operating supplies, the CPA will not generally assign ratings for more than a 60-day supply of the item in question. This 60-day limitation does not preclude later applications.

(3) Preference ratings will not be assigned for the procurement of items which will be resold without change in form.

(4) The CPA will not grant a CC rating under this regulation where it would preempt an undue proportion of the limited amounts of material available. If the material is in such short supply that it is generally hard to obtain the CPA may provide other procedures rather than a rating under this regulation.

(5) CC ratings will be denied where it appears that the item for which the rating is requested is available under different terms of sale or from a supplier other than the applicant's customary one.

(e) *Critical products.* The CPA may assign a CC rating as explained in Schedule I to this regulation to get material which is needed to sustain or increase production of an item or service listed on that Schedule which the CPA has determined to be in such tight supply that it is a serious threat to the economy. Schedule I replaces former Directions 1 through 5 and 7 through 12 to this regulation covering critical products.

(f) *Production materials, capital equipment and MRO.* Under the conditions stated in paragraph (d), the CPA may grant a CC rating to get production materials, capital equipment or maintenance, repair and operating supplies (MRO) in the following cases:

(1) The CPA may assign a CC rating to get a "bottleneck" item where a great majority of the materials or of the equipment needed is on hand or is obtainable without priorities assistance and it is demonstrated that failure to receive it in the quantity and on the date requested will prevent an entire plant from beginning, resuming or maintaining operations at the minimum economic rate. The "minimum economic rate" of operation means the rate of operation at which the plant as a whole must operate to avoid incurring a financial loss, without regard to any particular product if the plant makes more than one. If a plant is currently operating at less than capacity without incurring a financial loss, the minimum economic rate of operation will not be considered a higher rate than the current one, even though some of the plant's regular products are not currently being produced.

(2) Special consideration, not limited to bottleneck items, will be given to the needs of small business and to the business needs of World War II Veterans up to the minimum economic rate of operation. For this purpose "small business" generally means a business in which not more than 250 persons are actively employed. A veteran who wants to get farm machinery or equipment listed in War Food Order 135 of the Department of Agriculture for use on a farm should apply under that order for a veterans' preference certificate. No farmer should apply under this regulation for such farm machinery or equipment unless he qualifies under paragraph (h) (4) below.

(3) Special consideration will also be given to emergency requirements for veterans' educational facilities.

(4) CC ratings, however, will not be ordinarily assigned under this paragraph (f) for specialized machinery or equipment designed and made solely for the production of a critical product listed in Schedule I to this regulation. CC ratings for such machinery and equipment will be assigned only under the criteria stated in paragraph (h) below.

(g) *Construction.* Under the conditions stated in paragraph (d), the CPA may assign CC ratings to get construction material and equipment in the following cases:

(1) A bottleneck item which is needed to complete non-housing construction, and which is to be physically incorporated in the structure. CC ratings will not be assigned under this paragraph (g) (1) for any materials listed on Schedule A to Priorities Regulation 33.

(2) An item of material not listed on Schedule A to Priorities Regulation 33 which will be physically incorporated in a dwelling and is needed to make the dwelling habitable.

(3) A person applying for a CC rating to get construction materials or equipment must show on his application Form CPA-541A that approval for the project has been granted on Form CPA-4386 or CPA-4423, or that the construction is exempt under Veterans Housing Program Order No. 1.

(h) *Miscellaneous.* Under the conditions stated in paragraph (d), the CPA may grant a CC rating under this regulation to get material in the following cases:

(1) The item is needed to prevent a delay in the completion on time of military procurement, production or construction; or

(2) The item is needed for incorporation into a product to be delivered on a CC or HH rating, and the item is not on hand or available on order; or

(3) The item is needed for use by the applicant to eliminate serious hazard to the life, health or safety of a large number of people, or to maintain or establish essential public or other community service; or

(4) The item is essential to replace one which has been destroyed by flood, fire, tornado or other act of God, and the item (i) is to be used on a farm, or (ii) is essential to the continued operation of a plant, facility or service at the minimum economic rate; or

(5) The item is essential to the continued operation of a plant, facility or service at the minimum economic rate and is shown to fall in one of the following cases:

(i) It is needed in an emergency to replace equipment which has actually broken down and cannot be repaired; or

(ii) It is needed to replace equipment which is subject to recurring mechanical breakdowns and is out of service so frequently as to impede operations; or

(iii) It is needed to replace equipment which has been condemned as unsafe or illegal by public authority or insurance underwriters and which cannot be repaired and must be replaced under requirements of law or insurance contracts; or

(6) The item is needed as a repair part to prevent imminent breakdown of machinery or equipment; or

(7) Failure to obtain delivery of the item would result in exceptional community hardship or in unreasonable and exceptional hardship not suffered generally by others in the same industry or activity.

(i) *CC Ratings for export*—(1) *General.* In the case of materials for export (other than certain textiles and related items referred to in paragraph (i) (2) below), applications from Canada should be filed with the Priorities Officer of Canada, and will be handled on the same basis as United States applications. In the case of other exports, upon demonstration that a rating is required, a CC rating may be assigned for procurement in this country of materials for export to prevent serious injury to the minimum essential civilian economies of friendly foreign nations; or to aid in the restoration, development and maintenance of foreign sources of supplies vitally needed in this country; or for other reasons of public policy. Applications for such ratings should be made to the Office of International Trade, Department of Commerce on the forms prescribed by that agency.

(2) *Certain textiles and related items.* For exports, including shipments to Canada, of cotton broad woven fabrics for which set-asides are provided in the distribution schedules of Order M-317A, seine twine, fish netting, and cotton yarn, CC ratings may be granted, on specific applications only, to the extent of the export programs fixed by the CPA. Applications for such ratings should be made to the Office of International Trade, Department of Commerce, on the forms prescribed by that Agency; except that for shipments to Canada, applications should be filed with the Cotton Administrator of the Wartime Prices and Trade Board and will be acted on by the CPA.

PART 1042—IMPORTS OF STRATEGIC MATERIALS[1]

[General Imports Order M-63, as Amended Apr. 2, 1946]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain imported materials for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1042.1 *General Imports Order M-63*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

(5) [Deleted Mar. 1, 1946.]

[1] Certain food items formerly on Lists I, II, and III are now subject to import control in accordance with War Food Administration Order 63.

(6) Material shall be deemed "in transit" if it is afloat, if an on board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M–63.

(b) *Restrictions on imports of materials*—(1) *General restriction.* No person, except as authorized in writing by the Civilian Production Administration shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon Lists A and B attached hereto.

(2) *Authorization by Civilian Production Administration.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form WPB–1041 or CPA–1041 addressed to the Civilian Production Administration Ref: M–63, Washington 25, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation after the governing date of any material subject to this order, unless such bank or person either has received a copy of the authorization issued by the Civilian Production Administration under the provisions of paragraph (b) (2) or is satisfied from known facts that the proposed transaction comes within the exceptions set forth in paragraph (b) (4).

(4) *Exceptions.* Unless otherwise directed by the Civilian Production Administration, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Reconstruction Finance Corporation, U. S. Commercial Company, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency or corporation; or

(ii) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(iii) To any material which on the governing date was in transit to a point within the continental United States.

(iv) [Deleted Mar. 30, 1944]

(v) To any material consigned as a gift or imported for personal use where the value of each consignment or shipment is less than $100.00; or to any material consigned or imported as a sample where the value of each consignment or shipment is less than $25.00; or to any used material in the category of household goods imported by the owner for his own personal use; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States; or

(vii) [Deleted Nov. 13, 1944.]

(viii) To manufactured materials which are imported in bond solely for the purpose of having them repaired and then returned to the owner outside the continental United States; or

(ix) To materials which were grown, produced, or manufactured in the continental United States, and which were shipped outside the continental United States on consignment or pursuant to a contract of purchase, and which are now returned as rejected by the prospective purchaser; or

(x) To materials shipped into the United States in transit from one point in Mexico to another point in Mexico, or from one point in Canada to another point in Canada.

(xi) To materials on List B which are located in, and are the growth, production, or manufacture of, and are transported into the Continental United States overland, by air, or by inland waterway from Canada, Mexico, Guatemala or El Salvador.

(c) [Deleted June 4, 1945.]

(d) [Deleted June 4, 1945.]

(e) *Restrictions on distribution of List A and List B materials.* Unless otherwise provided by the terms of the authorization issued pursuant to paragraph (b) (2), any material on List A or List B which is imported in accordance with the provisions of this order after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable provisions of the regulations of the Civilian Production Administration and to all orders and directions of the Civilian Production Administration which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports on customs entry.* No material which is imported after the governing date, including materials imported by or for the account of the Reconstruction Finance Corporation, U. S. Commercial Company, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation or any other United States governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form WPB–1040 or CPA–1040 in duplicate except in the case of a material described in paragraph (b) (4) (xi) when the person making the entry need not file with the entry Form WPB–1040 or CPA–1040. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the Civilian Production Administration, Imports Division, Ref.: M–63, Washington 25, D. C.

(2) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the Civilian Production Administration.

(3) *Exceptions.* The provisions of this paragraph (f) shall not apply to materials imported and consigned as gifts for personal use by or to members of the Armed Services of the United States.

(g) *Routing of communications.* All communications concerning this order shall, unless otherwise herein directed be addressed to: Civilian Production Administration, Washington 25, D. C. Ref.: M–63.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority assistance. In addition, the Civilian Production Administration may direct the disposition and use of any material which is imported without authorization as required by paragraph (b).

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the Civilian Production Administration as amended from time to time.

(j) *Effect on liability of removal of material from order.* The removal of any material from the order shall not be construed to affect in any way any liability for violation of the order which accrued or was incurred prior to the date of removal.

The numbers listed after the following materials are commodity numbers taken from Schedule A Statistical Classification of Imports of the Department of Commerce (issue of January 1, 1943). Materials are included in the list to the extent that they are covered by the commodity numbers listed below. If no commodity number is listed, the description given shall control.

N. S. C.—No separate class or commodity number has been assigned for the material as described by the Department of Commerce, Statistical Classification of Imports.

INTERPRETATION 1: Revoked June 4, 1945.

INTERPRETATION 2

The following official interpretation is hereby issued by the Civilian Production Administration with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M–63 (§ 1042.1) as amended.

By amendment dated December 17, 1942, the definition of material "in transit" was changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier for transportation to a point within the continental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to a specified port and from thence by boat to a point within the continental United States.

The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship the material must have been afloat, or an on board ocean bill of lading must have been issued with respect to it on the governing date in order for it to be considered as having been in transit on such date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

INTERPRETATION 3: Revoked June 4, 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, Direction 10]

TWENTY-DAY INVENTORY ON COKE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of coal and coke for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

(a) No person, including a Government operated establishment, may accept delivery of any coke if his inventory of it is or will by virtue of such acceptance become more than he expects to use during the succeeding twenty days on the basis of his current or scheduled method and rate of operation.

(b) This direction does not apply to:

(1) Coke which on April 2, 1946 was billed or in transit;

(2) Any delivery of a carload of coke or less to any person who at the time of delivery has in his inventory less than a twenty day supply of coke. However, he may not thereafter accept delivery of any additional quantities until his inventory is again less than a twenty day supply;

(3) Delivery of coke to any person who acquires it for space heating, domestic hot water, or cooking;

(4) Delivery of coke to any person buying for resale.

(c) No person may place any order for coke requesting delivery which would result in an inventory in excess of that permitted by this direction. A person must immediately cancel, reduce or defer any order for coke which has been placed where the scheduled delivery would result in an inventory in excess of that permitted by this direction.

(d) No person may deliver any coke if he knows or has reason to believe that acceptance of such delivery would be in violation of this direction.

(e) Any appeal from this direction should be filed by letter in triplicate to the Civilian Production Administration, Steel Branch, Washington 25, D. C., Ref: PR 32, Direction 10, referring to the provision appealed from and stating fully the grounds of the appeal.

Issued this 2d day of April 1946.

[M–328B, Direction 10, as Amended Apr. 3, 1946]

USE OF CC RATINGS IN FIRST QUARTER OF 1946 UNDER SCHEDULE C

The following amended direction is issued pursuant to M–328B:

(a) *Purpose.* The purpose of this direction is to state the rules governing the yardage for which CC ratings may be used in the first quarter of 1946 under Schedule C of Order M–328B.

(b) [Deleted Apr. 3, 1946.]

(c) *Quantities and kinds of fabric which may be received on ratings.* (1) Authorizations on Form CPA–3732 under Schedule C for the first quarter of 1946 assign CC ratings for the total yardage of all fabrics which may be obtained for an item. The yardage (explained in (c) (2) and (c) (3) below) may be divided up in any way among the fabrics listed on the Preference Rating Schedules for that item.

(2) Any person who receives an authorization for an item on Schedule C on Form CPA–3732 for a yardage which was 75% or more of the total yardage of all fabrics for which he was assigned CC ratings for that item in the fourth quarter of 1945, is governed by the following rule. He may not receive on M–328B CC rated orders after he gets his CPA–3732 authorization for an item any fabric which will make his total receipts of all fabrics for that item in the first quarter of 1946 on M–328B CC ratings exceed the yardage authorized on Form CPA–3732 for that item. This includes the yardage authorized for the fourth quarter of 1945, but not received in that quarter.

(3) Any person who receives an authorization on Form CPA–3732 for any item for less than 75% of the total yardage of all fabrics allocated to him for that item in the

fourth quarter of 1945, may use CC ratings to get in the first quarter of 1946 75% of the yardage for which he was assigned CC ratings for all fabrics for the fourth quarter of 1945 for the same item. This includes the yardage authorized for the fourth quarter of 1945, but not received in that quarter.

(4) Any person who actually received before March 6, 1946, on CC ratings under Order M-328B more than the yardage to which he is entitled under this direction, may not receive any more fabric on M-328B CC ratings in the first quarter of 1946 for the particular item. He must, however, use all of the yardage obtained before then to make the item for which the rating was authorized.

(5) Any person who has placed CC rated orders for more yardage than he is authorized to receive under this direction must immediately unrate or cancel orders for the excessive yardage as explained in paragraph (e) (3) of Order M-328B.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Supplementary Order M-317A, as Amended Apr. 1, 1946]

COTTON FABRIC DISTRIBUTION

Section 3290.116 *Supplementary Order M-317A* is amended to read as follows:

§ 3290.116 *Supplementary Order M-317A*—(a) *What this order does.* This order states the special rules for distribution of cotton fabrics, particularly with respect to set-asides for certain purposes, the certificates of use which must be filed with orders in order to obtain set-aside fabrics, and the effect and use of preference ratings. The set-aside percentage figures are shown in the tables at the end of this order.

(b) *Definitions.* (1) "Cotton fabric" means any fabric 12" or more in width woven or braided from cotton yarn which contains 50% or more by weight of cotton or cotton waste or any combination of the two. The term includes not only fabrics in the gray and yarn dyed fabrics, original mill or regular finish, but also fabrics which have been bleached, Sanforized, dyed or printed; and includes shorts, seconds, remnants or mill ends. The term does not include blankets or blanketing containing 25% or more by weight of wool; or fabrics (other than blankets or blanketing) containing wool produced on the woolen or worsted system.

(2) "Producer" means any manufacturer who makes any cotton fabric in the forty-eight States or the District of Columbia.

(3) "Industrial and agricultural purposes" means any of the following purposes for which cotton fabric may be used, whether directly or as a component in the manufacture of items required for the purpose:

(i) Maintenance, repair, and operating supplies or capital equipment for any manufacturing, extractive (including mining and commercial fishing), agricultural, public utility or public transportation operation, or for any laundry or dry-cleaning establishment (not including items supplied on a return basis by a "linen service" agency or similar organization).

(ii) Medical, surgical, or hospital equipment and supplies (except clothing); and other equipment and supplies (except clothing) required for the protection of public health or safety.

(iii) Special occupational and safety clothing and gloves (but not including ordinary work clothing and work gloves, or uniforms, or sports equipment).

(iv) Production materials to be used in the manufacture of vehicles; building materials; construction machinery; mechanical household or office equipment; tires; rubber hose and belts; footwear; friction tape and pressure-sensitive tape; burial caskets; electrical, industrial, agricultural, food processing or transportation equipment; furniture; mattresses; box springs; and dual (purpose) sleeping equipment.

(v) Book binding.

(4) "Coated fabrics" means cotton fabrics coated, impregnated or otherwise treated with the following coatings, continuous from selvage to selvage, provided that such treatment is not merely a part of the normal operation of bleaching, dyeing, printing or other finishing:

Clay filled coatings
Lacquers
Ethylcellulose
Nitrocellulose
Oil coatings
Oleoresinous coatings
Paints
Pyroxylin
Starch filled coatings
Varnishes
Resins, natural or synthetic
Rubber, natural, synthetic or reclaim

"Coated fabrics" include but are not limited to such products as oil cloth, artificial leather, book binding cloth, Holland cloth and varnished cambric.

(c) *Set-aside of cotton fabrics for industrial and agricultural purposes.* During each calendar quarter after March 31, 1946 each producer shall set aside from his production of each cotton fabric, for delivery only on orders certified for "industrial and agricultural purposes" as defined in paragraph (b) (3) above, an amount not less than the percentage specified for that purpose in the attached tables (column 4). Cotton fabrics set aside under this paragraph may not be delivered on orders certified for the making of bags controlled by Order M-221, except when expressly permitted by the attached tables.

(d) *Set-aside of cotton fabrics for bags under M-221.* During each calendar quarter after March 31, 1946, each producer shall set aside from his production of each cotton fabric, for delivery only on orders certified for the manufacture of bags controlled by Order M-221, an amount not less than the percentage specified for that purpose in the attached tables (column 5).

(e) *Gray goods minimum ratio in set-asides for industrial, agricultural and bag making purposes.* (1) From the total amount of each group of cotton fabrics having the same reference number which are set aside after March 31, 1946 for "industrial and agricultural purposes" and for bags controlled by Order M-221, the producer shall deliver not less than the percentage specified in the attached tables (column 12) on orders certified for use in the gray or for use in the manufacture of varnished cambric for electrical insulation.

(2) Manufacturers of coated fabrics may certify that the fabrics which they order for coating will be used in the gray only if the fabrics are to be coated without being bleached, dyed, printed, sized or otherwise finished.

(f) *Set-aside of cotton fabrics for M-328B programs.* The provisions of Order M-328B and its schedules and directions provide for set-asides of certain fabrics for apparel and piece goods. The percentages shown for these set-asides in the attached tables (columns 6 and 7) are included only for purposes of explanation and are not controlling.

(g) *Exports of cotton fabrics*—(1) *Set-aside for general export.* During each calendar quarter after March 31, 1946 each producer shall set aside from his production of each cotton fabric, for delivery only on orders certified for export (including export to Canada), an amount not less than the percentage specified for that purpose by the attached tables (column 8). Fabrics set aside under this paragraph shall not be delivered on orders for eventual export by the United States Army, Navy, Maritime Commission, War Shipping Administration, American Red Cross, or any U. S. Military, Naval or Maritime Post Exchange, Ship's Service Store or other equivalent service department.

(2) *Sub-set-aside for export to Canada.* During each calendar quarter after March 31, 1946 each producer shall set aside from his production of each cotton fabric, for delivery only on orders certified for export to the Dominion of Canada, an amount not less than the percentage specified for that purpose by the attached tables (column 9). Deliveries on certified Canadian export orders within this minimum percentage are chargeable, and in excess of it are not chargeable, against the general export set-aside of paragraph (g) (1) above. In the absence of a specific percentage in column 9 of the attached tables for any fabric, any deliveries of that fabric on certified Canadian export orders may be charged against the general export set-aside of paragraph (g) (1) above.

(3) *Scope of export set-aside.* The export set-asides are for cotton fabrics to be exported in the gray, in the finished state, as piece goods, or in any of the following forms: bedsheets, pillow cases, blankets, towels, diapers, face cloths, table "linen", or clothing.

(4) *Special export rules for wide cotton fabrics.* In calculating export-set-asides the producer may exclude his production of cotton fabrics wider than 42½". However, deliveries on certified export orders of cotton fabrics wider than 42½" may be credited against the producer's export set-aside of cotton fabrics less than 42½" wide within the same reference number in column 1 of the attached tables (or, in the case of drills, twills and sateens, deliveries on certified export orders of any of these fabrics wider than 42½" may be credited against the producer's export set-aside of any drill, twill or sateen less than 42½" wide).

(5) *Certifying orders for replacement of exported cotton fabrics.* Purchase orders may be certified "for export" under this order when the cotton fabrics (or other items listed in paragraph (g) (3) above) being ordered either will be exported as certified, or else will replace in inventory other cotton fabrics (or items) of like description which have been exported as certified within the previous 90 days.

(h) *General provisions for set-asides*—(1) *Quantities to be set-aside and carry-overs from previous quarters.* The undelivered balance of the total quantity required to be set aside for any purpose during any quarter (including the first quarter of 1946 with respect to exports and bags controlled by Order M-221), shall be added to the percentage of production during the next quarter which must be set aside for that purpose. The sum of the carry-over plus the required percentage of current production constitute the total quantity of each set-aside during each quarter. For the purpose of determining set-aside quantities during any quarter, production during that quarter must be estimated as being at least equal to the previous quarter's production. However, carry-overs must be computed on the basis of actual production and deliveries.

(2) *Deliveries in excess of required set-asides.* Deliveries in excess of the quantity required to be set aside for any purpose may not be credited against the set-aside for any other purpose, nor against the next quarter's set-aside for the same purpose. The set-aside for each purpose is a minimum required quantity, and does not prevent additional quantities being delivered from production which has not been set aside for other purposes.

(3) *Shorts, seconds, remnants and mill ends.* Shorts, seconds, remnants and mill ends must be included in total production for the purpose of determining set-asides only to the extent that these items exceed 10 percent of the total production (including these items). Deliveries of shorts, seconds, remnants and mill ends may not be credited as deliveries against the set-asides.

(4) *Cotton fabric products.* A producer may charge against the applicable set-aside the cotton fabric which he uses to make cotton fabric products (such as sheets, towels, diapers, etc.), if he delivers the products on orders which meet the terms of the set-aside. However, in the case of export set-asides the permitted products are limited by paragraph (g) (3).

(i) *Purchase order certificates for cotton fabrics*—(1) *When certificate required, and restrictions on use or resale of fabric received on certification.* No producer may deliver cotton fabrics which he is required to set aside under this order except on purchase orders with certificates stating that the fabrics ordered will be used or resold for purposes meeting the set-aside provisions. A person who has obtained cotton fabrics on certification may use them only as certified, and may resell them only on orders similarly certified. However, he may resell at retail without certification from the buyer unless he knows or has reason to believe that the buyer will not use the fabric for the certified purpose.

Delivery shall not be made on any order which the seller knows or has reason to believe is falsely certified, or on any uncertified order which is required to be certified, even though the order is rated MM or CC.

(2) *Content and form of certificate.* The purchase order certificate must state the ultimate use of the cotton fabric ordered and must be certified and signed, as follows:

For use or resale for industrial or agricultural purposes under CPA Order M-317A (if applicable, add "for use in the gray without any finishing", or "for varnished cambric for electrical insulation")—or

For use or resale for making bags controlled by CPA Order M-221 (if applicable, add "for use in the gray without any finishing")—or

For export (and state the governing export license number and date of validation, or the United States Treasury Procurement Division contract number and date; or if the export is to Canada, so state and add the Canadian Cotton Administrator's Serial Number and date).

The above statements of use must be followed by the following standard form of certification, signed manually or as provided in Priorities Regulation 7:

The undersigned purchaser certifies, subject to the penalties of section 35 (a) of the United States Criminal Code, to the seller and to the Civilian Production Administration, that, to the best of his knowledge and belief, the undersigned is authorized under applicable Civilian Production Administration regulations and orders to place this delivery order, to receive the item(s) ordered for the purpose for which ordered, and to use any preference rating which the undersigned has placed on this order.

---------- ----------
(Authorized Signature) (Date)

(3) *Addition of rating.* In addition to the above statement of ultimate use, the applicable rating (if any) and the statement of the source of the rating (required by paragraph (c) of Order M-317) may be inserted in the above certificate instead of being certified separately.

(j) *Preference ratings.* (1) Orders which are duly certified for any set-aside purpose and also bear preference ratings and the statement of source of rating required by Order M-317, must be accepted and filled from the applicable set-aside in accordance with the provisions of Priorities Regulation No. 1. On the other hand, delivery may not be made of any set-aside cotton fabrics on any rated order which is not certified as required by paragraph (i) above.

(2) During each quarter after March 31, 1946 no producer need accept rated orders which would cause him to deliver, more of any cotton fabric from the balance of his production not subject to set-asides, than the percentage of his production of that fabric specified in the attached tables (column 11). Deliveries on rated certified orders which have been credited against any set-aside may not also be credited against the rating ceiling of this paragraph.

(3) Paragraph (j) (1) and (2) above refer to MM and CC rated orders. Orders rated AAA must be accepted and filled regardless of the set-aside or rating ceiling provisions of this order.

(4) No producer of cotton fabric shall use any preference rating to obtain cotton fabric from another producer, except to the extent authorized by the Civilian Production Administration, upon his showing on Form CPA-2842, that his own production is insufficient or unsuitable. This does not apply to orders accepted before April 1, 1946.

(5) Preference ratings assigned for the export of cotton fabric expire if they are not applied or extended to an order accepted by a producer within six months of the date the rating was assigned.

(6) No person is required to accept any rated order for cotton fabrics calling for delivery more than 90 days after the receipt of the order, except from the United States Army, Navy, Maritime Commission or War Shipping Administration.

(k) *Integrated mills.* Requisitions for intra-company deliveries of cotton fabrics from the producing mill shall be treated as if they were purchase orders, for the purpose of the set-aside and certification requirements and the other provisions of this order.

(l) *Reports.* Each producer of cotton fabrics shall file a report with the Civilian Production Administration on Forms CPA-658B and C at the time and in the manner prescribed in these forms. These reports on requirements have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(m) *Communications.* All reports, appeals and other communications concerning this order shall be addressed to: Civilian Production Administration, Textile Division, Washington 25, D. C. Ref: M-317A.

Issued this 1st day of April 1946.

§ 3290.120 *Conservation Order M-328B*—(a) *Explanation.* This order (including the schedules and supplements)

states the rules under which apparel and other textile end-product manufacturers may get preference ratings to make listed essential items under special programs. It also provides a method for retail sellers of over-the-counter piece goods to get certain fabrics. Set-asides are also established on producers of certain cotton, rayon and wool fabrics to channel them to the above uses. This Order M–328B states the general rules including those relating to the obtaining of priorities assistance and the use of such priorities assistance after it has been obtained. Other rules may be specified for a special program in a schedule of this order. If the rules set forth in a schedule differ from those specified in this order the provisions of the schedule govern.

(b) *Definitions.* For the purpose of this order and its schedules.

(1) "Special program" means a program approved by the Civilian Production Administration for the production with priorities assistance and the distribution of any item on a schedule of this order.

(2) "Priorities assistance" includes preference ratings, allocations and directions.

(3) "Manufacturer" means any person engaged in the United States in manufacturing for sale any item listed in a schedule of this order from material which has not been supplied directly or indirectly by the person acquiring the item.

A person is also deemed a "manufacturer" for the purpose of using a preference rating under this order, if he is engaged in the business of selling and having manufactured in the United States for his account an item listed in a schedule of this order from material which he owns or material which he directly or indirectly supplies to a contractor or contractors. In no event shall more than one person be deemed a "manufacturer" of the same units which one person fabricates in whole or in part and for which another person supplies the material.

(4) "Base period" means the past period of production which a manufacturer uses as a base in applying for priorities assistance under this order.

(5) "Base period manufacturer" means a manufacturer who applies for priorities assistance to make an item of the same class of material (cotton, rayon or wool) of which he was a manufacturer in the base period for sale at or below any price specified in the applicable schedule of this order.

(6) "Price", unless otherwise stated, means the list price of the manufacturer to an unaffiliated purchaser. A purchaser is deemed affiliated with a manufacturer if he is an owned or controlled outlet, or is an outlet which owns, controls or is subject to common control with the manufacturer. A manufacturer who sells directly to consumers or to an affiliated purchaser may use two-thirds of the retail selling price as a manufacturer's equivalent selling price in applying for priorities assistance.

(7) "Item", unless otherwise designated, means the article produced for civilian sale, of the type, size and other description listed in a schedule.

(8) The terms "orders" or "purchase orders" include orders between branches or divisions of a company as well as orders from other companies.

(9) "Veteran" means any person who was in the Army, Navy, Marine Corps, Coast Guard or Merchant Marine on or after September 16, 1940, and was discharged or released under conditions other than dishonorable after active service of 90 days or more, or by reason of an injury or disability incurred in service in line of duty.

(c) *How to apply for priorities assistance.* (1) Applications for the second quarter of 1946 must be filed on Form CPA–3732 with the Textile Division, Civilian Production Administration, Washington 25, D. C. and should be postmarked not later than April 23, 1946, except that a veteran who was discharged from the military service on or after March 1, 1946, may file his application at any time before June 1, 1946. Also, if any item is added to a schedule during that quarter, applications for that item may be filed within 20 days after the item is added. Copies of the application form CPA–3732 and other CPA forms used under this order may be procured by writing to the Civilian Production Administration, Washington 25, D. C.

(2) Each applicant must show on Form CPA–3732 his base period and base period production of an item under the following rules:

(i) If he was in business during at least 6 months of 1943 or 1944, he may apply for the items of which he was a manufacturer in any calendar quarter of either year, but must use the same quarter as his base period for all items under a single schedule to this order.

(ii) If he entered business after July 1, 1944, he may apply for the items of which he was a manufacturer in any calendar quarter after that, but must use the same quarter as his base period for all items under a single schedule to this order.

(iii) If he is a veteran who closed his business when he entered the military service, he may use as his base period the last full calendar quarter in which he was a manufacturer of the items before his entry into military service.

(3) An applicant who produced on his own facilities in 1943, 1944 or 1945 textile products for the military services and who before then produced on his own facilities items listed on a schedule to this order may use as his base period the better of the two calendar quarters preceding the quarter when he started military production. If such a manufacturer increased his own facilities to produce military textile products, he may be eligible for a military credit, and should therefore attach a letter to his application on Form CPA–3732 showing all the following:

(i) The quantity of each textile product which he made for his own account in the better of the two calendar quarters preceding the quarter in which he first made textile products for the military services;

(ii) The average number of sewing machines he used in making each textile product reported under (i) above; and

(iii) The total number of sewing machines he operated in his best quarter during which he made textile products for the military services.

(4) An applicant who did not make an item applied for before the fourth quarter of 1945 must send with his application on Form CPA–3732 a certified or photostatic copy of the document furnished to him by the Office of Price Administration establishing his maximum average price for the category which includes that item, or his ceiling price. For items not covered by any price regulation which requires specific applications for a ceiling price or highest price line, the following certificate (signed as provided in Priorities Regulation 7) must be furnished instead:

> The undersigned certifies, subject to the criminal penalties of section 35 (A) of the United States Criminal Code, that he has met all the requirements of the Office of Price Administration for establishing ceiling prices for the items listed on the accompanying application.

(5) An applicant who does not own or control the facilities on which it is proposed to manufacture items applied for, must submit with his application form a signed statement from each person who owns or controls the facilities on which the items are to be produced. This statement must contain the following information:

(i) Each operation to be performed for the applicant.

(ii) The maximum quantity of each item applied for which he has agreed to produce for the applicant.

(iii) That he in fact owns the facilities or controls them under a rental or lease contract.

(6) A veteran should submit with his application a certified or photostatic copy of his discharge papers or other written evidence of his military service.

(d) *Policy in granting priorities assistance.* Within the available supply of materials for which ratings may be assigned, the following policy will apply:

(1) Base period manufacturers will generally be granted priorities assistance in proportion to their base period production of an item. Where an applicant is eligible for military credit under paragraph (c) (3), priorities assistance to him may be increased up to or above his base period production, in proportion to any additional facilities he acquired for the purpose of producing textile products for the military services. However, a manufacturer who qualifies under paragraph (d) (3) below may be granted priorities assistance for additional yardage to give him sufficient material to operate at a minimum economic rate.

(2) Applications from persons who are not base period manufacturers of an item will be denied, except where the applicant qualifies under paragraph (d) (3) below. Applicants (including Veterans) who do so qualify, may be given priorities assistance for sufficient material to enable them to operate at a minimum economic rate.

(3) To qualify under paragraph (d) (1) or (d) (2) above for priorities assistance to operate at a minimum economic rate, an applicant must meet both the following conditions:

(i) His total proposed production of all textile products (including items under M–328B programs) does not exceed an annual rate, based on sales, of $250,000 and

(ii) The facilities with which the items will be produced are owned by the applicant, or are leased to him and the facilities are operated by the applicant and the employees are paid by him; provided that in any case the facilities were not used during any quarter beginning with the 4th quarter of 1945 more than 10% for the account of persons who supplied the applicant with materials.

(e) *Advance use of CC ratings for second quarter of 1946.* A manufacturer may apply a CC rating for the second quarter of 1946 before the Civilian Production Administration assigns him a CC rating for that quarter only under the following rules:

(1) A manufacturer who received an allocation for the first quarter of 1946 for an item which is also on the preference rating schedule for the second quarter of 1946 in Schedules C, F, J or K, may immediately apply a CC rating for fabrics specified for that item under the following rules:

(i) He must file his application on Form CPA–3732 for that item by April 23, 1946.

(ii) He must not use this advance CC rating for more than 70% of the yardage of body fabric he was authorized under Directions 9 or 10 to M–328B to receive on CC rated orders in the first quarter of 1946 for an item on Schedule C, J or K. For an item on Schedule F he may not use this advance CC rating for more than 70% of the yardage for which he was assigned CC ratings on Form CPA–3732.

(iii) In placing orders under this advance authorization, a manufacturer must show on Form CPA–4412 (which he must file in accordance with paragraph (g) below) the case number which he was assigned for the first quarter of 1946, unless otherwise directed in writing by the Civilian Production Administration.

(2) A base period manufacturer who did not receive an allocation for the first quarter of 1946 for an item may apply a CC rating for the purchase of fabrics in the second quarter of 1946 for that item as soon as the Civilian Production Administration assigns him a case number in writing after receipt of his application on Form CPA–3732 for that item. He may apply this advance CC rating only for fabrics for which he makes application. He may not use this rating for a total yardage of fabrics of more than 50% of the total yardage of fabric he used in making that item in the base period. He must apply this advance CC rating to each fabric in the proportion that the yardage of that fabric applied for bears to the total yardage applied for.

(3) Fabrics purchased on an advance authorization under paragraphs (e) (1) or (e) (2) above shall be deducted by the manufacturer from the total quantity for which priorities assistance is granted pursuant to his application on Form CPA–3732. If the applicant does not receive a grant for the entire quantity thus rated, he shall upon notification of his grant by the Civilian Production Administration immediately unrate or cancel orders for any undelivered quantities which are in excess of his grant.

(f) *Rules applicable to manufacturers granted priorities assistance.* (1) A manufacturer who is assigned a preference rating under a schedule of this order may use that rating only to get the fabrics specified and may not use the fabrics for any purpose except to make the item for which the rating was assigned.

(2) All persons receiving priorities assistance for any quarter under a schedule of this order must as far as practicable complete in that quarter all the items for which assistance was given. A manufacturer may, however, use valid CC ratings to get in the second quarter of 1946 any undelivered cotton, rayon, or wool fabric for which he was assigned a CC rating under this order and for which he was unable to get delivery in the first quarter of 1946.

(3) All items produced from material obtained with a rating assigned under a special program shall meet the same basic specifications, including standards of quality and workmanship, used by the applicant during the base period in producing such items for sale at the same prices, taking into account any subsequent adjustments by the Office of Price Administration.

(4) No manufacturer who uses a rating assigned under a schedule of this order may accept delivery of any finished material which is suitable for an item for which priorities assistance has been granted whether rated or unrated if together with material on hand it will give him more than the smaller of the following:

(i) A practicable minimum working inventory, or

(ii) The quantity required by him during the next 45 days on the basis of his current or scheduled rate of production. Such material on hand includes material wherever located if title has passed to the manufacturer except material in transit to him from his supplier.

No manufacturer who uses a rating assigned under a schedule of this order may make an item if his inventory of the item in the form in which he sells it is or will be more than a practicable minimum working inventory or the quantity which he produced during the previous 21 working days, whichever is less.

(5) Items produced from material procured with priorities assistance shall, to the extent called for by the customers' orders, be made in the same size ranges and in the same proportion of size ranges and assortment of sizes as the manufacturer produced in the base period. If he did not produce the item in the base period, he must comply with the size ranges and assortments of sizes which the Civilian Production Administration may specify for the particular item.

(6) Every manufacturer who is entitled to use a CC rating under this order to get fabric in any quarter must apply this rating to orders already placed before he places any additional rated orders for that fabric. If he is unable to use all his CC ratings on outstanding orders he must place rated orders for the balance before he places any unrated orders for that fabric.

(7) Whenever a Preference Rating Schedule is deleted, fabric obtained with CC ratings to make an item on that schedule must be used to make the item as shown on the Preference Rating Schedule before it was deleted.

(g) *Application and extension of preference ratings.* The preference ratings assigned under this order shall be applied and extended in accordance with the provisions of Priorities Regulation No. 3 but subject to the limitations stated below:

(1) No person may use, apply or extend any CC rating, or accept any CC rated order, if he knows or has reason to believe the rating was assigned under Order M–328B unless the purchase order is accompanied by Form CPA–4382 or Form CPA–4412 (Rating Extension Form). In executing this form a manufacturer certifies as follows:

> The undersigned purchaser hereby represents to the seller and to the Civilian Production Administration, subject to the criminal

penalties of section 35 (A) of the U. S. Criminal Code, that he is entitled to apply the CC preference rating indicated opposite items shown on the attached purchase order for the yardage specified above; and that such application is in accordance with Priorities Regulation 3 as amended, with the terms of which he is familiar; that the total of all textiles ordered by him under the above number does not exceed his assigned quota under M-328B; (that he has applied CC ratings to all his unfilled orders for this fabric)[1]; and that the textiles will be incorporated into an item for which authorization is given.

(2) A supplier of fabric who does not extend the rating must complete Form CPA-4382 or Form CPA-4412 in accordance with its instructions and forward one copy immediately to the Textile Division, Civilian Production Administration, Washington 25, D. C.

(3) [Deleted Apr. 3, 1946.]

(h) *Set-asides and certificates.* (1) Some of the schedules of this order have set-asides which apply to producers and suppliers of fabric. These set-asides are of two kinds, one for orders rated CC under this order or for orders certifying the fabrics will be used in a program under this order, and one for piece goods for over-the-counter sale at retail. Every producer and supplier of fabrics subject to these set-asides must deliver his fabrics in accordance with the provisions of the applicable schedule to persons who furnish the rating or certificate specified, even though he may have higher rated orders for other purposes.

(2) Any producer accepting an order accompanied by a certificate on Form CPA-4381, CPA-4382, CPA-4412 or CPA-4413 (for M-328B programs) or Form CPA-4380 or CPA-4414 (for over-the-counter sales as piece goods) must fill out a copy of that form in accordance with its instructions and send it to the Textile Division, Civilian Production Administration, Washington 25, D. C.

(3) Each producer of fabric who is required by a schedule of this order to set aside fabrics shall file a report on Form CPA-658B (for cotton), CPA-658C (for cotton and rayon), or CPA-1420 (for wool), in accordance with its instructions. The yardage reported on that Form as the calculated set-aside shall be deemed the yardage he is required to set-aside under the applicable schedule of this order unless otherwise directed by the Civilian Production Administration.

(4) No finished goods supplier may sell from his set-aside obligation for over-the-counter sales as piece goods to any one person who certifies that he will sell fabric as piece goods on over-the-counter retail sales more yardage of any fabric than 10% of the total yardage of his set-aside obligation of that fabric for these sales.

(5) After a producer has accepted any order accompanied by Form CPA-4381 or CPA 4380, or for the second quarter of 1946, Form CPA-4413 or CPA-4414 he may schedule it for delivery as if it bore a CC rating, and charge it against his set-aside.

(6) No person may deliver or accept any fabric on an order accompanied by a Form or certificate prescribed by this order or its schedules if he knows or has reason to believe that the fabric will not be used for the purpose specified on the Form or certificate.

(7) Suppliers of fabric may apply to the Textile Division, Civilian Production Administration, Washington 25, D. C., on Form CPA-4351 for relief from the set-aside requirements for fabrics if:

(i) A fabric which they are required to set-aside is unsuitable because of construction or price for the purpose for which it is set aside, or

(ii) If its inclusion in the set-aside would work an unreasonable hardship on manufacturers of an item not included in a schedule of Order M-328B.

Applications for such exemption must be filed not later than April 25, 1946 for exemptions from the set-aside for the second quarter of 1946. Whenever an application is made to exempt a fabric because of its unsuitability for any item in the program a small sample of each type and construction bearing the OPA ceiling price must be attached to the application form. When permission for a change in the yardage to be delivered under a set-aside is given to a person who has purchased material on a certification, the Civilian Production Administration may notify the person who filled the certified order of the exemption and direct him to reinstate the exempted yardage in his set-aside.

(8) Each producer of fabric who is required to set aside fabrics under the provisions of a schedule of this order shall, to the extent orders chargeable to the set-aside are offered, accept them by April 30, 1946. To the extent that customers' orders permit, supplies of grey fabric and finished fabric shall schedule and make deliveries so that at least two-thirds of the quantity to be delivered during any quarter on M-328B CC rated orders and certificates (including piece goods certificates) will be delivered by the end of the second month of the quarter.

(9) Whenever a Fabric Set-aside Table is deleted, each producer of fabric who is required to set aside fabrics under that table must comply with the provisions of this order and its schedules and the provisions of the Fabric Set-aside Table as shown before it was deleted.

(10) At the end of each month a producer of fabric (or his selling agent acting in his behalf) who, during that month, has accepted certified retailers' orders for such fabric for ultimate sale as piece goods, for delivery during the second quarter of 1946, must report such orders by letter to the Civilian Production Administration, Washington 25, D. C. Attention: Textile Division, Ref. M-328B, not later than the 10th of the following month. The total yardage accepted during the month must be reported separately for each fabric listed on the fabric set-aside tables.

(i) *Equitable distribution by manufacturers.* All items made with material obtained with a preference rating assigned under this order or a certificate specified in a schedule of this order must be distributed without regard to any preference ratings and each manufacturer must distribute his production of the item (including any production of the same item which he may have made without rating) as follows:

(1) Up to 90 percent of sales of each item in each calendar quarter must be made to customers who purchased that item or any other textile product for civilian sale, from the manufacturer during the base period, to the extent that orders are received from such customers. However, the manufacturer need not sell any customer an amount which will be a greater percentage of the manufacturer's total sales for the period than the percentage of the manufacturer's total sales which were made to the same customer in the calendar year which includes the base period.

(2) As between such customers, each customer shall be entitled to a dollar share of the sales referred to in (1) above up to the percentage which the customer's total purchases from the manufacturer in the base period was of the manufacturer's total sales in that quarter.

(3) Any manufacturer may base his distribution under this paragraph on his style seasons instead of calendar quarters, but must treat all customers on the same basis. A manufacturer shall not be required to sell smaller than commercial quantities. The manufacturer may not discriminate against any of his customers in notifying the trade that he has the items available for sale or in making deliveries or allocating his production. If the manufacturer was not, in the base period, in the business of manufacturing an item for which a preference rating is assigned under this order, he shall not sell to any one purchaser more than 10 percent of his total production of any item he produces with a rating (including any part of his production of the same item which he may have made without the rating). Purchasers who are subject to common control shall be deemed one purchaser. Further specific directions may be issued as to the distribution of items.

(4) [Deleted Jan. 3, 1946]

(j) *Records and reports.* (1) Each person who uses a preference rating assigned under this order shall maintain at his regular place of business, accurate records of the quantities of material for which he is authorized under this order to apply preference ratings, the quantities ordered with the use of such ratings, the quantities received and the quantities put into process. He shall also maintain records of the quantities of each item manufactured from the material obtained with the rating. All these records shall be preserved for a period of not less than two years and shall, upon request, be submitted to audit and inspection by duly authorized representatives of the Civilian Production Administration.

(2) The reporting and application requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Subject to the approval of the Bureau of the Budget under this act, all persons affected by this order shall execute and file with the Civilian Production Administration such other reports as the Civilian Production Administration shall from time to time require.

(k) *Applicability of regulations.* Except as otherwise provided in this order, this order and all transactions affected thereby are subject to all applicable regulations of the Civilian Production Administration as amended from time to time.

(l) *Appeals.* Any person who considers that compliance with any restriction of this order or its schedules, would work an exceptional and unreasonable hardship, may appeal for relief. The appeal shall be made by filing a letter in triplicate with the Textile Division, Civilian Production Administration, Washington 25, D. C., referring to the particular provision appealed from, and stating fully the grounds of the appeal.

(m) *Violations.* Any person who wilfully violates any provisions of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priority assistance.

(n) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: Textile Division, Civilian Production Administration, Washington 25, D. C., Reference M-328B.

Issued this 3d day of April 1946.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Order M-328B, Interpretation 1, as Amended Apr. 3, 1946]

ACCEPTANCE AND FILLING OF RATED ORDERS, AND COMPLETION AND DELIVERIES OF APPAREL

The following amended interpretation is issued with respect to M-328B:

(a) *Purpose.* This interpretation calls particular attention to certain rules concerning the acceptance and filling of rated orders, and their application to orders for textiles assigned CC preference ratings under several schedules to Order M-328B; and also to certain rules requiring apparel manufacturers to complete their operations as rapidly as practicable.

To insure the success of the low price civilian apparel programs provided by the schedules, these rules must be observed. Any person who wilfully violates them, or who, in connection with the rules, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is subject to administrative action and the penalties referred to in § 944.18 of Priorities Regulation 1 and paragraph (m) of Order M-328B.

Any supplier who has inadvertently failed to comply with these and other applicable Civilian Production Administration rules should immediately take any steps necessary to make his operations conform to them.

(b) *Compulsory acceptance of rated orders.* The rules concerning compulsory acceptance of rated orders (that is, orders carrying an AAA, MM, or CC preference rating) are stated in § 944.2 of Priorities Regulation 1. It must be noted that a rated order which meets the supplier's regularly established prices and terms of sale or payment may not be rejected merely because he would prefer to hold back his goods from sale until a later date when he may hope that tax laws, his OPA ceiling prices, or other factors will change so as to enable him to make a larger profit.

(c) *Offering of goods.* A supplier may not evade the acceptance and filling of rated orders by withholding his production or offerings of low cost goods suitable for low cost apparel.

In addition, when a person who has a rating asks a supplier of textiles to quote his regularly established prices and terms of sale or payment, or the earliest date on which he could make delivery on that rating, the supplier must do so; he may refuse to quote only if he would have the right under the applicable rules, to reject the rated orders and also knows that he will do so if he receives it.

(d) *Rated orders must be given priority over unrated ones.* A rated order must be accepted and filled regardless of existing contracts and orders, in accordance with the rules in § 944.2 of Priorities Regulation 1. For example, if a supplier has accepted an unrated order for fabric and has a rated order served upon him, he may not reject the rated order merely because filling it would require him to use some or all of the fabric which he planned to use to fill the unrated order.

(e) *Customer's required delivery date must be met, if possible.* A supplier must schedule his operations, if possible, so as to fill each rated order by the required delivery or performance date, as explained in § 944.7 of Priorities Regulation 1. He must also accept orders and schedule and make deliveries in accordance with paragraph (h) (8) of M-328B. If he cannot fill all rated and unrated orders, he must give preference to the rated ones.

(f) *Operations of apparel manufacturers; inventories of manufacturers, mills, converters, and other suppliers.* The attention of apparel manufacturers using ratings under M-328B Schedules is particularly called to the production preference and inventory rules in paragraphs (f) (2) and (f) (4) of M-328B, and in Priorities Regulation 32. A manufacturer of items within the programs provided for by these schedules must purchase materials for these programs for delivery before materials to be used for items not within the programs, to the full extent necessary to comply with the rule in (f) (2) of M-328B; and must complete the items within the programs in accordance with that rule, even if this results in postponing or delaying production of items not within the programs. A delay in processing material or in making deliveries of completed apparel may involve a violation of Priorities Regulation 32 and of paragraph (f) (4) of M-328B prohibiting the receipt or accumulation of excessive inventories. Priorities Regulation 32 applies equally to suppliers of gray or finished fabrics and manufacturers of apparel not within these programs.

(g) *Other rules.* All of the rules concerning the acceptance and filling of rated orders and the accumulation of excessive inventories, are, of course, not referred to above, and reference must be made to the Priorities Regulations, orders in the M-328 series, and other orders such as L-99, and M-317. The rules specifically referred to are those to which attention is particularly called at this time, in view of their important current application to orders rated CC under the M-328B programs. Some of these rules are qualified to the extent that a special rule, such as those in Schedule C, J, or K of Order M-328B, may permit a supplier to reject rated orders in excess of a specified quantity of his receipts or production.

Issued this 3d day of April 1946.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule F, as Amended, Apr. 3, 1946]

SPECIAL PROGRAM FOR WORK GLOVES

§ 3290.120f *Schedule F to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of work gloves to get preference ratings for fabric to make the items listed in this schedule.

(b) *Definitions.* For the purpose of this schedule:

(1) "Work gloves" means any gloves or mittens of the types and meeting the specifications listed in Schedules A and B of Order M-375 and designed for wear by men, women or children while engaged in their occupations, and customarily sold as work gloves.

NOTE: Paragraphs (c), (d), and (e), formerly (e), (f) and (g), redesignated, Apr. 3, 1946. Former paragraphs (b) (2), (c) and (d) deleted Apr. 3, 1946.

(c) *Special rule for components.* A work glove manufacturer who manufactures his own cuffing materials may apply for the basic fabrics. Such applications must show that the materials applied for will be used by the applicant in the manufacture of his own components and that such components are not sold as such, but are used as components on gloves of his own manufacture. Manufacturers not producing their own cuffing materials and components must show in the Remarks Section of Form CPA-3732 the quantity of basic fabrics which will be required to manufacture the cuffs which they will need to purchase, together with a statement of the suppliers from whom he expects to purchase such cuffs. Persons producing cuffing materials and components for

[1] The words in parenthesis shall merely be deemed a statement that he has complied with paragraph (f) (6) above.

manufacturers of work gloves under this schedule who need priorities assistance to obtain the fabrics for such cuffing materials and components are governed by the provisions of Priorities Regulation 28A.

(d) *Style provisions for base period manufacturers.* Base period manufacturers who are granted ratings under this schedule must make (subject to Order M-375) each style of work glove that they made in the base period under the following rule: The production of each style of each item made in any quarter must not vary more or less than 10 percent from the proportion of that style of work glove to the total quantity of all styles of work gloves made in the base period. This rule does not apply to hot mill and 2-thumb husking gloves and mittens, which may be made to the full extent of a manufacturer's capacity. These styles should also be excluded in making the computations stated above for other styles.

(e) *Special inventory rule.* Manufacturers who use ratings assigned under this schedule are subject to the inventory provisions of paragraph (f) (4) of Order M-328B except that a 60-day inventory limit applies instead of a 45-day one.

Issued this 3d day of April 1946.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule K, as Amended Apr. 3, 1946]

SPECIAL PROGRAM FOR WOOL CIVILIAN ITEMS

§ 3290.120k *Schedule K to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in M-328B for manufacturers of civilian items manufactured from wool fabric to get preference ratings for wool fabric and for rayon and cotton component fabrics to make the items listed in this schedule. It also establishes set-asides for certain wool fabrics for these items.

(b) *Definitions.* For the purpose of this schedule:

(1) "Fabric" unless otherwise designated, means a woven or knitted fabric 12 inches or more in width.

(2) "Wool fabric" means any fabric incorporating 25% or more by weight of new, re-processed or re-used wool fiber except upholstery pile fabrics and floor coverings and blankets and felt. The term includes woolen and worsted fabrics.

(3) "Wool item" means an item of which 50% or more of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is made of woolen or worsted fabrics.

(4) "Tailor-to-the-trade" means a manufacturer who makes items to the individual measurements of the ultimate consumer, and who sells them to a distributor at a wholesale price.

(c) [Deleted Jan. 3, 1946.]

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get wool fabrics listed on a Fabric Set-Aside Table to make the wool items specified in the preference rating schedule.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration.

(ii) The price specified in the maximum price column.

(3) [Deleted Apr. 3, 1946.]

(4) A manufacturer who did not manufacture an item on the base period must state his proposed production by size assortment per dozen in the "Remarks" section of Form CPA-3732. If his application is granted, he must comply with these size assortments.

(5) Priorities assistance will be given for the procurement of rayon and cotton broad woven fabrics for linings, facings, bindings, stays, pockets and other components made of broad woven fabric for incorporation into the number of units for which priorities assistance is granted. Requests for this assistance shall be made on Form CPA-3732 in accordance with the instructions applicable to filling out that form. Manufacturers who are authorized to apply a CC rating to get wool fabrics for items under this schedule may immediately apply a CC rating to get the above components for those items, under the following rules. Applications for CC ratings for the second quarter of 1946 must include these components and must be filed by April 23, 1946. This advance CC rating may only be used to get the yardage of component fabrics needed to produce the number of units of the item which can be made from the yardage of body fabric for which the manufacturer is entitled to use CC ratings assigned under M-328B. In placing CC rated orders for component fabric under this paragraph (d) (5) for delivery in the second quarter of 1946, manufacturers must file Form CPA-4412 with their purchase orders. Component fabrics purchased under this advance authorization, shall be deducted by the manufacturer from the total quantity for which priorities assistance for component fabrics is granted on Form CPA-3732. If the applicant does not receive a grant for the entire quantity thus rated he shall upon notification of his grant by the Civilian Production Administration immediately unrate or cancel orders for any undelivered quantities which are in excess of his grant.

(6) Producers of wool woven fabric shall file Form CPA-1420 by April 10, 1946. Producers of wool knitted fabric need not file Form CPA-1420 but must report to the Textile Division, Civilian Production Administration, Washington 25, D. C. by letter on or before April 10, 1946. This letter must state the yardage of each fabric listed on Fabric Set-aside Table No. II required to be set-aside to fill rated or certified orders under the provisions of paragraph (e) (1) below.

(7) [Deleted Apr. 3, 1946.]

(e) *Set-asides of wool fabrics to fill rated or certified orders.* (1) Every producer of wool fabric listed in a Fabric Set-aside Table, whether he sells it or uses it to manufacture civilian items, shall set aside during the quarter stated, for ultimate delivery on M-328B CC rated orders, a yardage of that fabric equal to at least the percentage shown in Column IV of the yardage he produced during the preceding quarter or of his estimated production in that quarter, whichever is greater. Any producer who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of wool fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. No fabrics sold at more than the price specified in Column III may be charged to this set-aside.

(2) Only orders accompanied by Form CPA-4381 or Form CPA-4382 may be charged to the set-aside in Column IV of Fabric Set-aside Table No. I or by Form CPA-4413 or Form CPA-4412 to the set-aside in Column IV of Fabric Set-aside Table No. II. No producer need deliver or use to fill these orders (i) any wool fabric not listed on a Fabric Set-Aside Table; (ii) more of any fabric listed on a Fabric Set-Aside Table than his set-aside for that fabric.

(3) When a producer has accepted orders accompanied by the applicable CPA forms to the extent of a set-aside for any fabric he may not require any customer to furnish any of these forms as a condition of filling additional orders for that fabric.

(4) Any person giving a certificate under this schedule, including the certificates on the applicable CPA forms, must use or dispose of fabric he gets with that certificate in accordance with its terms.

(f) *Deliveries by wool jobbers to fill rated orders.* (1) Every wool jobber making the certification on Form CPA-4381 for the first quarter of 1946, or on Form CPA-4413 for the second quarter of 1946 must if possible deliver during the applicable quarter wool fabric of the type covered by his order in a yardage at least equal to the yardage which he orders for delivery in that quarter on orders bearing that certificate. A wool jobber who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of wool fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. In the first twenty calendar days of that next quarter he must give preference, to the extent of this undelivered yardage for M-328B ratings, to orders bearing CC ratings assigned under the program for the previous quarter over orders rated CC for the then current quarter's program. For example, from April 1 to April 20, 1946, inclusive, orders bearing valid first quarter 1946 CC ratings assigned under M-328B must be filled, from such undelivered first quarter yardage, in preference to orders bearing second quarter ratings.

(2) No wool jobber is required to accept or fill M-328B CC rated orders for a greater yardage of any type of wool fabric listed on a Fabric Set-aside Table for delivery in the applicable quarter than a yardage equal to all wool fabric of that type which he orders for delivery during that period on orders bearing the certificate on Form CPA-4381 or on Form CPA-4413.

(3) Any wool jobber who does not use the certification in Form CPA-4381 or Form CPA-4413 for a fabric must accept M-328B CC rated orders for that fabric in accordance with the provisions of Priorities Regulation No. 1. After a wool jobber uses Form CPA-4381 or Form CPA-4413 on any of his purchase orders for a fabric he must not extend to any supplier on orders for that fabric for delivery in the applicable quarter any CC ratings which he knows or has reason to believe were assigned under Order M-328B.

(4) A wool jobber may not use the certification on Form CPA-4381 to order for delivery in the second quarter of 1946 a yardage of wool fabric of any type listed on Fabric Set-aside Table No. II greater than the yardage of that fabric ordered by him on Form CPA-4381 in the first quarter of 1946.

(g) [Deleted Apr. 3, 1946.]

(h) *Acceptance of rated orders.*—(1) If a supplier of wool fabric receives orders bearing CC ratings (assigned under this schedule) calling for delivery during the second quarter of 1946, he may hold them until April 15, 1946, before determining whether he is required to accept them. However, he must not actually reject any such CC rated orders for any fabric until such time as he has accepted CC rated orders for the yardage of that fabric he is required to set-aside.

(2) [Deleted Mar. 12, 1946]

(i) *Special provisions for tailors-to-the-trade.* The Civilian Production Administration will grant priorities assistance to manufacturers who are tailors-to-the-trade to get wool fabrics listed under Reference Nos. 2 and 2a on Fabric Set-Aside Table No. I and Reference No. 2 on Fabric Set-Aside Table No. II to make Item No. 1a on Preference Rating Schedule No. 2.

Issued this 3d day of April 1946.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule J, as Amended Apr. 3, 1946]

SPECIAL PROGRAM FOR RAYON CIVILIAN ITEMS

§ 3290.120j *Schedule J to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian items manufactured from rayon fabric to get preference ratings for rayon fabric for delivery beginning in the fourth quarter of 1945 to make the items listed in this schedule. It also establishes set-asides for rayon fabrics other than marquisettes for these items and for over-the-counter sale as piece goods.

(b) *Definitions.* For the purpose of this schedule:

(1) "Fabric," unless otherwise designated, means a woven fabric 12 inches or more in width.

(2) "Rayon fabric" means any fabric containing less than 25% wool by weight but of which the remaining fibers are more than 50% of synthetic fiber (staple or continuous filament) by weight. For example, a fabric containing 20% wool, 41% rayon, and 39% cotton is rayon.

(3) "Rayon item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is made of rayon fabric.

(c) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get rayon fabrics to make the rayon items specified in the preference rating schedule.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price Column.

(3) [Deleted Apr. 3, 1946.]

(4) A manufacturer who did not manufacture an item in the base period must state his proposed production by size assortment per dozen in the "Remarks" section of Form CPA-3732. If his application is granted, he must comply with these size assortments.

(d) *Set-asides of rayon fabrics to fill rated or certified orders.* (1) Every producer of rayon fabric listed in a Fabric Set-aside Table whether he sells it in the grey or in the finished state or uses it to manufacture civilian items shall set aside during the quarter stated for the purpose shown in Columns III and IV yardages of that fabric equal to at least the percentage shown of the yardage he produced during the preceding quarter or of his estimated production in that quarter, whichever is greater. Any producer who does not deliver the full yardages required during the applicable quarter must deliver in the next quarter a yardage of rayon fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter.

(2) *Set-asides for civilian apparel.* Only orders accompanied by Form CPA-4381 or Form CPA-4382 may be charged to the set-aside in Column III of Fabric Set-aside Table No. 1 or by Form CPA-4413 or Form CPA-4412, to the set-aside in Column III of Fabric Set-aside Table No. II. No producer need deliver or use to fill these orders more rayon fabric than his set-aside for that fabric.

(3) *Set-asides for piece goods for over-the-counter sale.* Only orders accompanied by Form CPA-4380 (for Fabric Set-aside Table No. I) or Form CPA-4414 (for Fabric Set-aside Table No. II) or the following certificate may be charged to the set-aside in column IV:

The undersigned certifies subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code that in the ------ quarter of 1946 (insert applicable quarter) he will deliver at retail as over-the-counter piece goods at not more than $1.25 a yard or his OPA ceiling price, whichever is lower, a yardage of rayon fabric at least equal to the yardage he orders for delivery in that quarter on orders bearing this certificate.

In addition the certificate must contain one of the following sentences:

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more than 300 yards of rayon fabric.

or;

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more rayon fabric than 50% of the yardage he purchased for over-the-counter piece goods sale in the first quarter of 1943 (or 1944).

or (for the second quarter of 1946 only);

He will not place orders bearing this certificate calling for delivery in this quarter of a total of more rayon fabric than the greatest yardage he purchased for over-the-counter piece goods sales in any quarter of 1945.

(4) When a producer has accepted orders accompanied by the applicable CPA forms to the extent of a set-aside for rayon fabric he may not require any customer to furnish any of these forms as a condition of filling additional orders for that fabric.

(5) Any person giving a certificate under this schedule, including the certificate set forth in paragraph (d) (3) above and the certificates on the applicable CPA forms must use or dispose of fabric he gets with that certificate in accordance with its terms.

(e) *Deliveries by finished goods suppliers to fill rated or certified orders.* (1) Every supplier of finished rayon fabric making the certification on Form CPA-4381 or CPA-4413 must, if possible, deliver during the applicable quarter on M-328B CC rated orders finished rayon fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in that quarter on orders accompanied by Form CPA-4381 or CPA-4413. Every supplier of finished rayon fabric making the certification on Form CPA-4380 or Form CPA-4414 must, if possible deliver during the applicable quarter to persons who furnish the certificate set forth in paragraph (d) (3) above, or to persons who certify that they will sell only on orders bearing that certificate, finished rayon fabric of the type covered by his purchase order in a yardage at least equal to the yardage which he orders for delivery in that quarter on orders accompanied by Form CPA-4380 or Form CPA-4414. In calculating the yardage of a particular fabric which he is required to deliver, the supplier of finished fabric may take into consideration actual processing loss in finishing the fabric. Any supplier who does not deliver the full yardage required during the applicable quarter must deliver in the next quarter a yardage of finished rayon fabric equal to the undelivered yardage, in addition to the yardage which he is required to deliver in that next quarter. In the first twenty calendar days of that next quarter he must give preference, to the extent of this undelivered yardage for M-328B ratings, to orders bearing CC ratings assigned under the program for the previous quarter over orders rated CC for the then current quarter's program. For example, from April 1 to April 20, 1946, inclusive, orders bearing valid first quarter 1946 CC ratings assigned under M-328B must be filled, from such undelivered first quarter yardage, in preference to orders bearing second quarter ratings.

(2) No supplier of finished rayon fabric is required to accept or fill M-328B CC rated or over-the-counter piece goods certified orders for a greater yardage of any type of finished rayon fabric listed on a Fabric Set-aside Table than the yardage he is required to deliver on those orders under paragraph (e) (1) above.

(3) Any supplier of finished fabric who does not use the certification in Forms CPA-4381 or CPA-4413 for rayon fabric must accept M-328B CC rated orders for that fabric in accordance with the provisions of Priorities Regulation No. 1. After a supplier of finished fabric uses Form CPA-4381 or Form CPA-4413 on any of his purchase orders for rayon fabric he must not extend to any supplier on orders for that fabric for delivery in the applicable quarter any CC ratings which he knows or has reason to believe were assigned under Order M-328B.

(4) Any finished goods supplier granted an authorization by the Civilian Production Administration under paragraph (i) of this schedule as amended January 18, 1946, may sell the yardage exempted by that authorization only to persons who give the following certification:

The undersigned certifies to the seller and to the Civilian Production Administration, subject to the criminal penalties of section 35(a) o. the United State. Criminal Code, that he will use the material covered by this purchase order only as linings for garments, or will deliver it only to persons who give this certificate.

Issued this 3d day of April 1946.

(b) *Restrictions on production of lead chemicals.* No person shall put into process in any calendar quarter for the production of the lead chemicals specified in paragraphs (a) (3) through (a) (20) an aggregate quantity of lead in excess of 38½% of the aggregate quantity of lead he put into process for the production of these lead chemicals during the first six months of 1944, or 5,000 pounds, whichever is the greater.

(c) *Restrictions on production of insecticides.* No person shall put into process in any calendar quarter for production of insecticides an aggregate quantity of lead in excess of 45% aggregate quantity of lead he put into process for the production of insecticides during the first six months of 1944 or 1,000 pounds, whichever is greater.

(d) *Method of computing lead content of lead chemicals.* This order limits the amount of lead which a person may put into process in any calendar quarter for the production of certain products to a percentage of the lead which he put into process during the first six months of 1944. In order to determine this percentage of lead in lead chemicals, during the base period, the following table should be used:

Pounds of lead per 100 pounds of lead chemicals

Lead chemicals:	
Lead acetate (basic)	60
Lead acetate (normal)	55
Lead antimonate	63
Lead arsenate	60
Lead arsenite	50
Lead chloride	75
Lead dioxide	87

Lead silicate (di)	61
Litharge	93
Red lead	91
Basic carbonate of white lead	80
Basic sulphate of white lead	75
Sodium plumbite	73

(e) *Inventory restrictions.* Lead chemicals appear in Table 1 of Priorities Regulation 32. Inventories of these chemicals are subject to all provisions of that regulation.

(f) *Applications for quotas for lead chemicals.* (1) Any person who does not have a quota for putting lead into process for the production of lead chemicals and who wishes to use more than 5,000 pounds of lead a quarter, may apply for a quota by filing a letter with the Civilian Production Administration, Chemicals Division, Washington 25, D. C. Ref: L-354. The letter should state in addition to any other pertinent information what lead chemicals the applicant wishes to make, what facilities he has for this purpose and the amount of lead he will need for this purpose per quarter.

[Limitation Order L-355]

ETHYL FLUID

The fulfilment of requirements for the defense of the United States has created a shortage in the supply of lead and tetraethyl lead, both imported and domestic, for defense, for private account and for export; and the following order is deemed necessary and appropriate to the public interest and to promote the national defense:

§ 3293.662 *Limitation Order L-355*—(a) *Definitions.* For the purposes of this order:

(1) "Ethyl fluid" is a mixture of tetraethyl lead and other ingredients designed to raise the octane number of gasoline. It includes: (i) "Motor ethyl fluid" which is ethyl fluid containing organic chlorides and bromides designed for use in motor gasoline for land- and sea-going engines; and (ii) "Aviation ethyl fluid" which is ethyl fluid without organic chlorides designed for use in aviation gasoline.

(2) "Use" means to blend ethyl fluid with gasoline or any component of gasoline or with any other material that can be blended with gasoline.

(b) *Restrictions on delivery.* (1) No producer of ethyl fluid shall deliver to any person in any calendar month more than 27% of the aggregate quantity of ethyl fluid delivered to such person in the months of November, December, 1945 and January, 1946, except that when a person certifies to a producer that he used more ethyl fluid than the quantity he received in the base period, the producer may deliver to such person in any month a quantity not in excess of 27% of the quantity of ethyl fluid certified to have been used in the base period.

(2) No producer of ethyl fluid may export outside the United States, its territories or possessions, more ethyl fluid than 27% of the aggregate quantity exported in the months of November, December, 1945 and January, 1946 except on special authorization by the Civilian Production Administration.

(3) No person shall accept delivery of ethyl fluid at any one blending point if his inventory of ethyl fluid at that point is or will by virtue of such delivery become more than he needs in the succeeding 30 days on the basis of his current or scheduled rate of operations. Persons normally receiving deliveries of ethyl fluid by tank car or tank truck shall not maintain any inventory except in scale tanks for blending ethyl fluid with gasoline.

(4) Nothing in this paragraph shall prevent the delivery and receipt of a minimum tank car, tank wagon or drum carload by any person whose inventory of ethyl fluid is less than 30-days' supply.

(c) *Restrictions on use.* (1) No person shall in any month beginning with April, 1946 use more than 27 percent of the aggregate quantity of motor ethyl fluid which he used in the production of motor gasoline in the three months of November, December, 1945 and January, 1946.

(2) No person shall use aviation ethyl fluid in the production of motor gasoline or any component thereof, or use any gasoline component containing aviation ethyl fluid in the production of motor gasoline.

(3) No person shall use ethyl fluid to produce motor gasoline having higher than 80 octane (ASTM-D-357-45) for use in motor-propelled vehicles, trucks, tractors or boats or to produce aviation gasoline of 100 octane (A&N grade 100-130) or higher, except on special authorization from the Civilian Production Administration.

(d) *Exceptions.* Nothing in this order shall prevent the delivery, receipt and use for laboratory purposes of ethyl fluid in containers of one litre or less.

(e) *Newcomer's quota.* Any person who was not a user of ethyl fluid in November or December, 1945 or January, 1946 and who wishes to have a quota established for him to receive or use ethyl fluid in any calendar month, may apply by letter to the Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref.: L-355.

(f) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the Civilian Production Administration, as amended from time to time.

(2) *Appeals.* Any appeals from the provisions of this order shall be made by filing with the Civilian Production Administration, Chemical Division, Washington 25, D. C., Ref.: L-355, a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(3) *Violations.* A person who wilfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment.

(4) *Communications to Civilian Production Administration.* Communications concerning this order, shall, unless otherwise directed, be addressed to: Civilian Production Administration, Chemicals Division, Washington 25, D. C., Ref.: L-355.

PART 1499—COMMODITIES AND SERVICES

[2d Rev. SR 14, Amdt. 21]

MAHOGANY LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Second Revised Supplementary Regulation 14 to the General Maximum Price Regulation is amended, as follows:

In section 3.1 (a) a new subparagraph (4) is added to read as follows:

(4) If a seller who made sales of the grades of mahogany lumber listed in subparagraph (1) in the period March 1942 through August 1945 can not determine a maximum price under subparagraph (1) for an item of mahogany lumber of one of the grades listed in that subparagraph, the seller, making a sale of such item (referred to below as special item), shall apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C. for approval of a maximum price. In his application, the seller shall show the maximum price which he can establish under subparagraph (1) above of the item most nearly comparable to the special item and also the price differential between that comparable item and the special item which he maintained in March 1942, or in the month most nearly preceding March 1942 when he had sales of both of those items, or, if the seller did not make sales of these items in March 1942 or in any month prior to that month, he must show the price differential which he would have maintained between the two items in March 1942 if he had made such sales.

The seller shall report his requested price in his application, together with an explanation of how he has determined the price. The price shall be one which is in appropriate relationship to the most comparable standard item determined from an examination of the data submitted by the seller and from such other data as may be available to the Office of Price Administration. A maximum price duly approved by the Office of Price Administration for a seller for a special item shall apply to subsequent sales by that seller of the indentical item of mahogany lumber, unless the Office of Price Administration limits the applicability of the approved price in some manner.

If, within 30 days of the receipt of the application by the Lumber Branch of the Office of Price Administration, that Office does not transmit a disapproval of the price requested by the seller on the application, that requested price may be deemed approved, but such approval shall be applicable only to the one specific order and only to the quantity of the special item contained in that order on the date of the application.

Prior to the approval of the Office of Price Administration of the maximum price for the special item covered by this subparagraph, the seller shall not make any collections on account of the sales price of the special item. However, the seller may proceed with the delivery of the special item using the requested price as a tentative maximum price, but all quotations, contracts and invoices must notify the buyer that the price is subject to approval by the Office of Price Administration within the 30 day period described above.

This amendment becomes effective April 8, 1946.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 3d day of April 1946.

PAUL A. PORTER,
Administrator.

(b) *Relation to other regulations*—(1) *General Maximum Price Regulation.* This regulation supersedes the General Maximum Price Regulation for sales covered by this regulation.

(2) *Exports.* The Second Revised Maximum Export Price Regulation covers export sales and sales to exporters.

(3) *Imports.* The Maximum Import Price Regulation covers purchases, sales or deliveries, if they originate outside of the continental United States.

(c) *Geographical applicability.* This regulation applies in the forty-eight States of the United States and the District of Columbia.

SEC. 2. *Prohibition against dealing at prices higher than the maximum.* On and after the effective date of this regulation, no person in the course of trade or business shall buy or receive any special millwork covered by this regulation at prices higher than the maximum prices established by this regulation, and no person shall agree, offer or attempt to do any of these things.

Prices lower than the maximum prices may of course be charged and paid.

SEC. 3. *Maximum prices*—(a) *Sellers who sold special millwork in March 1942.* (1) The maximum price for a seller who sold special millwork during March 1942, and who files the report required under subparagraph (2) of this paragraph shall be determined as follows:

(i) The seller shall compute a price based on his March 1942 costs and the pricing method he used during March 1942.

(ii) To the price computed under subdivision (i), the seller may add his dollar and cents increases in direct labor and direct material costs resulting from legal increases in wage rates and materials prices from March 1942 to December 31, 1945. Increases in labor costs may not be based on wage rates higher than those approved by the appropriate wage stabilization agency. Overhead and profit margins shall not be applied to the dollar and cents increase in material and labor costs.

(2) *Filing pricing method.* Every seller who is required to determine maximum prices for special millwork under subparagraph (1) shall, within 30 days after the issuance of this regulation, file with the Building Materials and Construction Price Branch, Office of Price Administration, Washington 25, D. C., a report, in duplicate, setting forth:

(i) A complete description of the method and costs actually used in March 1942 for pricing special millwork outlining any of the following costs contained in the pricing method:

Machine burden (or overhead)
Bench burden (or overhead)
Yard burden (or overhead)
Kiln drying costs
Waste factor
Commercial and administrative expense in percentage
Profit in percentage

(ii) His March 1942 materials costs and his legal December 1945 materials costs;

(iii) His March 1942 wage rates and his December 1945 wage rates, as approved by the appropriate wage stabilization agency if different from March 1942 wage rates;

(iv) The amounts or percentages allowed for concessions and discount for quantity sales, cash or prompt payments and for any other special type of sale or credit practice.

(b) *Sellers who did not sell special millwork in March 1942.* A seller who did not sell special millwork in March 1942 shall apply to the Building Materials and Construction Price Branch, Office of Price Administration, Washington 25, D. C., for approval of his maximum prices or his pricing method. The application shall be filed in duplicate setting forth a complete description of the method he proposes to use for pricing special millwork, the pricing method which he used in December 1945, if he was in business at that time, and the names and addresses of his nearest most comparable competitors.

The pricing method shall be deemed to be approved automatically upon expiration of thirty days after mailing the report by registered mail (or upon expiration of thirty days after mailing all additional information which may have been requested) unless within that time the Office of Price Administration notifies the seller that his proposed pricing method has not been approved or that action has been deferred pending receipt of further information. The Administrator shall approve for each seller a pricing method in line with those established by the seller's most comparable competitors.

(c) *Maximum prices for sellers who fail to file report of pricing method or whose pricing method has not been approved.* The maximum prices for a seller who fails to file his price determining method with the Building Materials and Construction Price Branch, Office of Price Administration, Washington 25, D. C., shall be his legal cost of materials used for the special millwork sold.

(d) *Revision of a seller's pricing method.* The Administrator may revise the pricing method of any seller in order to bring the seller's maximum prices in line with the generally prevailing maximum prices in his area.

SEC. 4. *Discounts, allowances and differentials.* Every seller who sold special millwork in March 1942 shall continue discounts, allowances, including transportation allowances, and other price differentials at least as favorable as those in effect during March 1942.

SEC. 5. *Invoicing.* On each sale of special millwork the seller shall give to the buyer an invoice or other statement containing the following:

(a) Names and addresses of the seller and buyer and the date of the sale.

(b) All factors which enter into the determination of the selling price of each item sold and a sufficiently complete description of each item so that the sale may be identified in the records the seller is required to maintain under section 9, or in lieu of the above a symbol or number which coincides with a detailed estimate which is on file at the seller's office.

(c) The total price of the sale.

SEC. 6. *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in cash discount practices and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

SEC. 7. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price. The authorization will be given by order.

SEC. 8. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

SEC. 9. *Records.* Each seller must preserve for examination by representatives of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect the following:

(a) All records he was required to preserve under the General Maximum Price Regulation.

(b) A copy of the report filed with the Office of Price Administration under Section 3 and a copy of the pricing method approved for him by the Office of Price Administration.

(c) Records relating to each sale of special millwork made after the effective date of this regulation showing for each such sale: (1) The name and address of the purchaser, (2) the date of the sale, (3) the price charged, (4) a complete description of the special millwork sold which may be in the form of architect's or purchaser's plans, specifications or details or a copy of the detailed estimate pertaining to a particular contract.

SEC. 10. *Enforcement.* Any person who violates any provision of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 11. *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price regulations.

This regulation shall become effective May 3, 1946.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 3d day of April 1946.

MANUFACTURERS' MAXIMUM AVERAGE PRICES FOR CERTAIN ITEMS OF APPAREL AND APPAREL ACCESSORIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 108 is amended in the following respects:

1. Section 22 (a) (1) is amended to delete the words "state or municipal governments" and to substitute the words "federal, state or municipal governments within the United States" in their place.

2. Section 22 (a) (9) is added to read as follows:

(9) Items made wholly (except for lining, binding or trimmings) of a combination of two or more of the fabrics or yarns named in paragraphs (4) through (8) above.

3. Section 22 (a) (10) is added to read as follows:

(10) Items included in categories B-41 through B-47 if all non-elastic material used is made of the yarns or fabrics named in paragraphs (4) through (8) and such elastic materials comprise 40% or less of the total yardage used in the item.

4. Section 22 (a) (11) is added to read as follows:

(11) Hosiery in which the entire leg is made of 100% nylon yarn and the foot or top or both are made of cotton yarn or mixed cotton and nylon yarn.

5. Section 22 is amended by adding paragraph (d) to read as follows:

(d) *Special provision for persons who exclude items added after January 1, 1946*—(1) *When you may exclude deliveries of items which are added to the list in paragraph (a) after January 1, 1946.* All deliveries of such items made during the period covered by your next report after the effective date of the amendment making such addition may be excluded in calculating your weighted average price for that period. (For example, if you are reporting deliveries for a quarter, you may exclude deliveries, made at any time during that quarter, of items added during that quarter in figuring your weighted average price. If you are reporting deliveries for a month under section 7 (b) you may exclude deliveries, made at any time during that month, of items added during that month.)

(2) *When you must file under (b) and (c).* If you wish to exclude items added to paragraph (a) after January 1, 1946, you must observe the requirements of paragraph (b) which are applicable to you, on or before 45 days from the effective date of the amendment adding such item, or on or before the date on which you first deliver an item you wish to exclude, whichever is later.

6. Section 22 is amended by adding paragraph (e) to read as follows:

(e) *Effect of election to exclude items.* If you elect to exclude, under this section, deliveries of any items from the total number of units delivered in any category, you must exclude from that category all deliveries of such items for the quarter in which you first elect to exclude the items and for all subsequent quarters.

This amendment shall become effective as of March 29, 1946.

NOTE: All record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1380—HOME AND SERVICE INDUSTRY MACHINE

[RMPR 86, Amdt. 1]

DOMESTIC LAUNDRY MACHINES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 86 is amended in the following respects:

1. Section 5. *Reconversion adjustment of certain ceiling prices* is amended to read as follows:

SEC. 5. *Reconversion adjustment of certain ceiling prices.* This section authorizes reconversion adjustments by manufacturers of certain ceiling prices. Unless a manufacturer is otherwise directed by an order issued by the Office of Price Administration under this section, every manufacturer of washing or ironing machines may adjust any ceiling price which he fixed for sales to purchasers for resale and to the United States and Allied Government in accordance with section 3 of this regulation, by adding to that price an amount equal to 9.5% of that price. Orders will be issued under this section denying a manufacturer permission to adjust his ceiling prices by all or part of this increase when it appears to the Price Administrator, on the basis of the manufacturer's production plans as previously filed with the War Production Board and other information available to the Office of Price Administration, that the manufacturer has discontinued production of his low-end model or has decreased the proportion of low prices to high priced models which he manufactures so that his present or prospective production is not representative of his production in that respect of those machines during the year July 1, 1940 to June 30, 1941. The average price at which the manufacturer's production of each type of machine will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

Manufacturers who, before April 2, 1946, have established ceiling prices for their sales of washing or ironing machines under any section other than section 3 of this regulation or under an order under this regulation may increase their ceiling prices so established by 1.67% of that price.

2. Section 15. *Distributors' ceiling prices* is amended to read as follows:

SEC. 15. *Distributors' ceiling prices.* A distributor's ceiling price for sales of a particular model of washing or ironing machine or drier to a particular class of purchaser is that established for his sales by an order issued under section 14. If, however, a distributor's ceiling price for a washing or ironing machine was established by an order issued under that section before April 2, 1946 or if the distributor determined his ceiling price for a washing or ironing machine under this regulation before that date he shall recompute his ceiling price in accordance with Rule 5 of this section. A distributor recomputing his prices in this manner may, in computing his percentage of the total dollar margin, use the manufacturer's ceiling price to him in effect on April 1, 1946 for the same model, his own ceiling price on that date for sales of the same model to dealers and the retail ceiling price under this regulation in effect on that date for the same model instead of the corresponding October 1–15, 1941 prices.

Rule 5. A distributor's ceiling price for sales in each zone of each model to each class of purchaser shall be the price which will yield the distributor the same percentage of the total dollar margin between the manufacturer's price to him (not exceeding the manufacturer's ceiling price to him exclusive of an adjustment other than that allowed by Section 5 of this regulation) and the dealer's price for resales to ultimate consumers in that zone (exclusive of any increases pursuant to an individual adjustment granted to the manufacturer) as he received during the period October 1–15, 1941, in connection with the sale of the most "comparable" model sold by him to the same class of purchaser. To be "comparable" a model must be one produced by the same manufacturer.

Example: Distributor who sold Model X produced by manufacturer A during October 1–15, 1941, determines his ceiling price for Model Y produced by the same manufacturer and most comparable to Model X, as follows:

He determines for Model X the manufacturer's price to him in October 1941 as $34.00. His price for sales to servicing dealers was $41 and the dealer's retail sales price was $69. The total dollar margin between the manufacturer's price to him and the retail price was $35 ($69 minus $34) and he received 20% of that spread (his dollar markup was $7.00 and this is 20% of $35). The manufacturer's ceiling price to him under Revised Maximum Price Regulation No. 86 for Model Y is $45 and the retail price is $79. The total dollar margin is $34. 20% of $34 is $6.80. He adds this amount to the manufacturer's price to him ($45 plus $6.80) and the result, $51.80, is his ceiling price to the same class of dealer for Model Y.

Rule 6. If a distributor cannot determine his ceiling price for sales of a particular model to a particular class of dealer under Rule 5, his ceiling price for that sale is the ceiling price established under Rule 5 for the same sale by the "closest seller of the same class" who has so determined a ceiling price. A distributor's "closest seller of the same class" is a distributor who (a) has established a ceiling price for sales of the identical model of washing or ironing machine or drier to the same class of purchaser, and (b) is the same general type of seller, and (c) is located in the same zone and is nearer to the seller than any other seller who meets requirements (a) and (b) of this rule. The area included in each zone is set forth in section 17, unless an order issued under section 14 specifies other zones for the particular make of machine.

Rule 7. If the distributor cannot otherwise find his ceiling price for a particular sale, his ceiling price for that sale is the price established by the Office of Price Administration in an order under this section.

An application under this rule shall state the name of the manufacturer of the machine being priced, its model designation, the classes of purchaser to whom the applicant proposes to sell the machine, the ceiling prices he proposes for such sales, and a statement of the reasons he cannot use the other rules in this section.

This amendment shall become effective on the 2d day of April 1946.

Issued this 2d day of April 1946.

PAUL A. PORTER,
Administrator.

FEDERAL TRADE COMMISSION.

[Docket No. 5428]

HIGH SEAS TUNA PACKING COMPANY, INC.

NOTICE OF HEARING

Complaint. The Federal Trade Commission, having reason to believe that the party respondent named in the caption hereof and hereinafter more particularly designated and described, since June 11, 1941, has violated and is now violating the provisions of subsection (c) of section 2 of the Clayton Act (U.S.C. Title 15, Sec. 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondent High Seas Tuna Packing Company, Inc., is a corporation, organized and existing under the laws of the State of California, with

its principal office and place of business located at 2802 Canon St., Point Loma, San Diego, California.

PAR. 2. Respondent is now engaged and since 1941 has been engaged in the business of buying, packing, selling and distributing fish, particularly tuna and mackerel, and fish products in its own name and for its own account. Respondent sells and distributes these products principally through brokers or intermediaries who act as respondent's agents in finding buyers for respondent's products, in negotiating their sale at respondent's prices and for such services respondent pays such brokers or intermediaries commissions or brokerage fees. Such transactions are not challenged by this complaint. Respondent, however, also sells its products directly to other buyers, involving shipments in commerce, particularly the French Sardine Co. of Terminal Island, California, and Lang & Stroh Company, 204 Davis St., San Francisco, California, and on such sales, respondent pays to such buyers, directly or indirectly, commissions or brokerage fees.

PAR. 3. Respondent in the course and conduct of its business as described has sold, distributed and transported, and generally does sell, distribute and transport, its fish products in commerce between the State of California and other states of the United States.

PAR. 4. Respondent since 1941 in connection with the interstate sale, distribution and shipment of its fish products has been and is now paying or granting, directly or indirectly, commissions, brokerage or other compensation, allowances or discounts in lieu thereof to French Sardine Co. and Lang & Stroh Company, each of which purchased said fish products from respondent in its own name and for its own account, taking title thereto and assuming all rights and risks of ownership thereafter and in the resale of such products.

PAR. 5. The aforesaid acts and practices of respondent in paying or granting to purchasers of its products, directly or indirectly, commissions, brokerage or other compensation and allowances or discounts in lieu thereof, as set out hereinabove, are in violation of subsection (c) of section 2 of the Clayton Act, as amended

Wherefore, the premises considered, the Federal Trade Commission on this 27th day of March, A. D. 1946, issues its complaint against said respondent.

Notice. Notice is hereby given you, High Seas Tuna Packing Company, Inc., a corporation, that the 3d day of May, A. D. 1946, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The rules of practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

> In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.
>
> * * * * *
>
> Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.
>
> If respondent desires to waive hearings on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact chrged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.
>
> Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 27th day of March A. D. 1946.

RB 15	79.89	75.81
RB 17	121.32	110.02
RC 8	160.87	151.31

A wholesale distributor shall determine his maximum prices for sales to a non-servicing retail dealer by adding to the maximum prices, listed above, the same differential which he had in effect during March 1942, between sales to servicing and non-servicing retail dealers. If a particular wholesale distributor was not in business during March, 1942, he shall apply the differential which his closest competitor had in effect during that time.

These maximum prices are f. o. b. seller's city. However, when shipment is made directly from the factory to the retail dealer, pursuant to the wholesale distributor's order, the above maximum prices are f. o. b. the retail dealer's city.

For the purposes of this order, the following terms shall have the following meanings:

(i) "Servicing retail dealer" means a retail dealer who delivers the range to the ultimate consumer, and provides all necessary services, in connection with delivery, installation and the furnishing of a one year warranty.

(ii) "Non-servicing retail dealer" means a retail dealer who sells a range, delivery of which is made directly to the ultimate consumer by the wholesale distributor, the latter providing all necessary services in connection with delivery, installation and the furnishing of a one year warranty.

This amendment shall become effective April 2, 1946.

Issued this 2d day of April 1946.

WESTINGHOUSE ELECTRIC CO.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Section 11 of Maximum Price Regulation No. 64, *It is ordered:*

(a) That Order 255 under Maximum Price Regulation No. 64 is amended in the following respect:

1. Paragraph (a) (1) is amended to read as follows:

(1) For sales by wholesale distributors to retail dealers the ceiling prices, including the Federal excise tax, are those set forth below:

Model:	*Ceiling prices for sales to retail dealers (each)*
B-64-46	$161.26
D-64-46	106.32
E-64-46	83.93

These ceiling prices are for sales to the class of retail dealers to whom the wholesale distributor customarily sold at his highest price. The wholesale distributor shall determine his ceiling prices to other classes of retail dealers by applying to the above ceiling prices his customary discounts, allowances and other price differentials in effect on sales to the particular class of dealer. These ceiling prices are f. o. b. seller's city. When, however shipment is made directly from the factory to the retail dealer pursuant to the wholesale distributor's order, the above prices are freight prepaid. A wholesale distributor who, at the request of the dealer, provides the consumer with delivery, installation, and any service necessary in connection with the sale of the range may make an additional charge per range (which must be separately stated) no greater than the differential he had in effect during March 1942 for similar sale on a similar basis of, if he had no such differential in March 1942, no greater than the differential charged for such servicing by his closest seller of the same class who had such a differential. In all other respects these ceiling prices are subject to each seller's customary terms, discounts, allowances, and other price differentials in effect on sales of similar articles.

This amendment shall become effective on the 2d day of April 1946.

Issued this 2d day of April 1946.

The report must be filed by every manufacturer whose maximum price has been established under Maximum Price Regulation No. 188, or under Supplementary Order No. 118; or has been adjusted under Revised Supplementary Order No. 119, or under Supplementary Orders Nos. 118 or 133, or under Order No. A-2 under Maximum Price Regulation No. 118, or under this order.

NOTE: Section 9 sets forth additional information required with respect to "branded articles."

(b) No manufacturer may sell an article covered by this order at a price higher than 89% of his adjusted maximum price for the particular sale, (as defined in section 2), unless the report specified in (a) has been filed.

SEC. 5. *Maximum prices for sales at wholesale: or to commercial and institutional users.*—(a) *Sales covered by Maximum Price Regulation No. 590.* This paragraph (a) modifies the pricing provisions of Maximum Price Regulation No. 590 with respect to articles covered by this order. Unless the context otherwise requires, the definitions in Maximum Price Regulation No. 590 apply to the terms used in this paragraph.

(1) *"Adjusted maximum price."* The "adjusted maximum price" of a wholesaler whose sales are covered by Maximum Price Regulation No. 590, for sales to each class of purchaser of an article covered by this order is the "net cost" of the article (based on his supplier's unadjusted maximum price) plus 80 percent of the dollar-and-cent difference between his supplier's unadjusted maximum price and the wholesaler's actual invoice cost, multiplied by the wholesaler's appropriate "category markup." For the purposes of this subparagraph (1) "supplier's unadjusted maximum price" and "wholesaler's actual invoice cost" refer to those amounts as they appear on his supplier's invoice after all discounts except cash discounts.

(2) *"Unadjusted maximum price."* The "unadjusted maximum price" of a wholesaler whose sales are covered by Maximum Price Regulation No. 590 is the price determined by multiplying the "net cost" of the article (based on his supplier's unadjusted maximum price) by the wholesaler's appropriate "category markup."

However, if the wholesaler's selling price for the article is below the "unadjusted maximum price" computed in this way, the "unadjusted maximum price" which must appear on the wholesaler's invoices for that article is the same as the wholesaler's selling price.

If, in accordance with section 4 or 7 of Maximum Price Regulation No. 590 a wholesaler elects to sell an article at his "highest price charged during March 1942," instead of at the price found by applying his "category markup" to his "net cost," the "unadjusted maximum price" which must appear on the wholesaler's invoice for that article is the same as his selling price.

If, in accordance with section 3a of Maximum Price Regulation No. 590 a wholesaler adopts as his own the manufacturer's ceiling prices to a particular class of purchaser, the "unadjusted maximum price" which must appear on his invoice for the article is the same as the manufacturer's "unadjusted maximum price" for sales of that article to the same class of purchaser.

(b) *Sales not covered by Maximum Price Regulation No. 590; and sales to commercial and institutional users.* This paragraph (b) sets forth the methods by which persons making sales at wholesale, which are not covered by Maximum Price Regulation No. 590, shall determine their maximum prices. A person who purchases a soft mattress from the manufacturer, and resells it to a hospital, hotel, or any other commercial or institutional user, shall also determine his maximum price under this paragraph.

(1) *Adjusted maximum prices.* (i) A seller who must determine his maximum price under this paragraph (b), who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall find his adjusted maximum price according to the method and procedure set forth in that section by adding the same markup which he had on that comparable article to the total of:

His supplier's unadjusted maximum price, as it appears on his purchase invoice; and

80 percent of the dollar-and-cent difference between his supplier's unadjusted maximum price and the seller's actual invoice cost.

The seller may make sales covered by the General Maximum Price Regulation, at prices at or below his adjusted maximum price computed in this way.

The determination of a maximum resale price in this way need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620-759, with regard to how he determines his maximum resale price. These records shall be kept available for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(ii) If the seller cannot determine his adjusted maximum price under (i), he shall apply to the Office of Price Administration for the establishment of his adjusted maximum price under § 1499.3 (c) of the General Maximum Price Regulation. The application shall, in addition to the information specifically required by that section also give the following information.

(*a*) His supplier's unadjusted maximum price as it appears on his purchase invoice.

(*b*) His actual invoice cost.

An adjusted maximum price established in this way will be in line with adjusted maximum prices established generally under section 6 of this order.

(2) *"Unadjusted maximum prices."* (i) A seller who must determine his maximum price under this paragraph (b), who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall find his "unadjusted maximum price" according to the method, and procedure set forth in that section by adding the same markup which he had on that comparable article to his supplier's unadjusted maximum price as it appears on his purchase invoice.

(ii) If the seller cannot determine his unadjusted maximum price under (i), he shall, at the time he applies for an adjusted maximum price to the Office of Price Administration under paragraph (b) (1) (ii) of this section also apply for the establishment of an unadjusted maximum price. Unless such an unadjusted maximum price is established, he may not make sales of the article even though his adjusted maximum price is properly established.

SEC. 6. *Invoices to purchasers for resale.* (a) Every person who delivers an article covered by this order to a purchaser for resale (except a retailer making a "cross-stream sale" covered by section 9 (b) of Maximum Price Regulation No. 580), shall furnish to the purchaser an invoice or other written evidence of sale, containing the following:

(1) The name and address of both the seller and purchaser, and the date of sale.
(2) The name, number, or other identification of each article sold.
(3) The quantity of each article sold.
(4) The seller's unadjusted maximum price for each article sold.
(5) The actual selling price of each article sold.
(6) The nature and amount of any additional charges.
(7) The terms of sale.

(b) No article covered by this order may be sold at a price higher than 89 percent of the seller's unadjusted maximum price for the particular sale, unless the information specified in items (4) and (5) of the preceding paragraph is separately stated on the invoice or other written evidence of sale, and unless the seller's unadjusted maximum price is so identified.

(c) The seller shall retain a copy of such invoice or other written evidence of sale, for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended remains in effect.

(d) A retailer making a cross-stream sale to another retailer must furnish the purchaser with the proper invoice required by section 9 (b) of Maximum Price Regulation No. 580. If the cross-stream sale is made in accordance with section 9 (b) (1) of Maximum Price Regulation No. 580, the seller must also state on his sales invoice his supplier's unadjusted maximum price for each article

covered by this order, which appears on the invoice.

NOTE: The provisions of this section are modified by section 9 with respect to transactions involving "branded articles".

SEC. 7. *Notification to purchasers for resale.* At the time of, or prior to, the first invoice to each purchaser for resale showing a maximum price adjusted in accordance with this order the seller shall notify the purchaser in writing, that:

(a) If he is a wholesaler, or if the article is sold to a commercial or institutional user, he must determine his maximum resale prices under section 5 of Order No. ——— under § 1499.159b of Maximum Price Regulation No. 188.

(b) If he is a retailer he must determine his maximum resale price under section 8 of Order No. ——— § 1499.159b of Maximum Price Regulation No. 188; or if the article is a "branded article", under section 9 of that order.

SEC. 8. *Retailers' maximum prices—(a) Retailers whose sales are covered by Maximum Price Regulation No. 580.* If the retailer determines his maximum price under Maximum Price Regulation No. 580, he shall calculate his maximum price following the rules set forth in that regulation.

(b) *Retailers whose sales are covered by the General Maximum Price Regulation.* If the retailer determines his maximum prices under the General Maximum Price Regulation, his maximum price for sales of an article covered by this order shall be computed as follows:

(1) A retailer who delivered or offered for delivery during March 1942 an article which meets the definition of "most comparable commodity" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, shall determine his maximum resale price by adding to his supplier's unadjusted maximum price (as it appears on his purchase invoice) the same mark-up which he had on that comparable article, according to the method and procedure set forth in that section.

(2) The determination of a maximum resale price under (1) need not be reported to the Office of Price Administration. However, each seller must keep complete records showing all the information called for on OPA Form 620–759, with regard to how he determines his maximum resale price. These records shall be kept available for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(3) If a retailer cannot determine his maximum resale price under (1), he shall apply to the Office of Price Administration for the establishment of his maximum resale price under § 1499.3 (c) of the General Maximum Price Regulation. The retailer's application shall, in addition to the information specifically required by that section also give the following information:

(i) His supplier's unadjusted maximum price.

(ii) His actual invoice cost.

A retailer's maximum price established under this subparagraph (3) will be in line with retailers' maximum prices established generally under this order.

NOTE: If the article being priced is a "branded article" its retail ceiling price is fixed by section 9.

SEC. 9. *"Branded articles."* This section sets forth the changes and additions to the other provisions of this order, applicable to transactions involving "branded articles."

(a) *Definition.* An article covered by this order is a "branded article" if:

(1) It was advertised at a uniform retail price, during or prior to March 1946, and

(2) It is identified by a brand or company name; and

(3) During or prior to March 1945, it generally was sold at retail at the advertised uniform retail price.

(b) *Retail ceiling price.* (1) The maximum price for sales of a branded article by a retailer to an ultimate consumer is the retail ceiling price which the manufacturer has calculated, and has properly stated on the tag attached to the article.

(2) Each manufacturer shall calculate the retail ceiling price of his branded article in the following manner: He shall multiply by 172 percent his highest f. o. b. factory or f. o. b. warehouse l. c. l. maximum price for sales of the particular article to retailers after deducting the cash discount, rounding the result to the nearest twenty-five cents.

(c) *Manufacturers' reports.* Before first offering a branded article covered by this order, for sale after the effective date of this order, each manufacturer shall file a report with the Office of Price Administration, Washington 25, D. C., which report shall set forth the information specified in section 4 (a) and also:

(1) The brand name of the article.

(2) The retail ceiling price of the article.

(d) *Invoices to purchasers for resale.* (1) If the branded article is sold by a manufacturer to a retailer, the invoice required by section 6 (a) of this order shall set forth all the information required by that section, except that it shall not set forth the manufacturer's unadjusted maximum price but shall instead state the retail ceiling price of the article in the following form (with the blank properly filled in):

OPA Retail Ceiling Price—$———

(2) If the branded article is sold to a wholesaler, the invoice required by section 6 (a) of this order shall, in addition to the information set forth in that section, also state the retail ceiling price in the following form (with the blank properly filled in):

OPA Retail Selling Price—$———

(3) If the branded article is sold by a wholesaler to a retailer the invoice required by section 6 (a) of this order shall set forth all the information required by that section, except that it shall not set forth the seller's unadjusted maximum price.

(4) If the branded article is sold by a retailer to another retailer (cross-stream sale) the seller shall furnish the purchaser only with the proper invoice required by section 9 (b) of Maximum Price Regulation No. 580.

(e) *Tagging by manufacturers.* On and after March 29, 1946, no manufacturer shall deliver any branded article unless it has attached to it a durable tag or label which shall state in clearly readable print, the brand name of the article, and the following statement with the amount properly filled in:

OPA Retail Ceiling Price—$———

This Tag May Not Be Detached Until After Delivery to the Consumer

SEC. 10. *Terms of sale.* Every seller of an article covered by this order must maintain all terms, discounts, allowances, and other price differentials (including PMs—premium money payments), in effect during March 1942, or which have been subsequently properly established under Office of Price Administration regulations or orders.

SEC. 11. *Credit charges.* Charges for the extension of credit may be added to the maximum retail prices established by this order only to the extent permitted by this section.

(a) Sellers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of articles covered by this order, or similar types of articles may collect a charge for the extension of credit on sales under this order, not exceeding such charge in March 1942 on a similar sale on similar terms to the same class of purchaser. Sellers who did not so state and collect an additional charge may collect a charge for the extension of credit only on instalment-plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale on similar terms to the same class of purchaser in March 1942 by the seller's closest competitor who made such a separately stated charge.

An instalment-plan sale, as used in the above paragraph, means a sale where the unpaid balance is to be paid in instalments over a period of either (1) six weeks or more from the date of sale in the case of weekly instalments, or (2) eight weeks or more in the case of other than weekly instalments.

(b) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately, or which otherwise does not conform to this section, shall for the purpose of this order, be considered to be part of the price charged for the article sold.

(c) No seller may require as a condition of sale that the purchaser must buy on credit.

SEC. 12. *Relationship of this order to other orders or regulations—(a) Maximum Price Regulation Nos. 188, 580 and 590.* The provisions of this order supersede the provisions of Maximum Price Regulation Nos. 188, 580 and 590, only to the extent that they are inconsistent with the provisions of those regulations.

(b) *Revised Supplementary Order No. 119, Supplementary Orders Nos. 118, and 133, or Order A–2 under Maximum Price Regulation No. 188.* Manufacturers may continue to adjust their maximum prices in accordance with the increase permitted under Revised Supplementary Order No. 119, Supplementary Orders Nos. 118 and 133, or Order No. A–2 under Maximum Price Regulation No. 188, instead of the increase factor specified in section 2.

If a seller's maximum prices are adjusted under one of those orders, instead of under this order, he must nevertheless comply with the invoicing, reporting, tagging, and notification provisions of this order. These provisions supersede any contrary provisions contained in any individual order issued to any seller.

SEC. 13. *Revision of maximum prices.* Any maximum price adjusted under this order may be revised by the Price Administrator whenever he determines that such adjusted maximum price is not in line with the level of October 1941 prices increased by 15 percent, giving due consideration to the manufacturer's customary price relation to other manufacturers in the industry.

SEC. 14. *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

Effective date. This order shall become effective on March 29, 1946.

NOTE: The reporting and record keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942, as amended.

Issued this 29th day of March 1946.

PAUL A. PORTER,
Administrator.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 under section 22 of Maximum Price Regulation No. 591 is amended by adding Article IX, section 9.1 to read as follows:

ARTICLE—CAST-IRON BOILERS

SEC. 9.1 *Cast-iron gas fired heating boilers—(a) Scope of this section.* This section applies to all manufacturers and resellers of cast-iron gas fired heating boilers.

(b) *Manufacturers' maximum prices.* Manufacturers of cast-iron gas fired heating boilers may increase their maximum net prices to each class of purchaser as established under Maximum Price Regulation No. 591 by 10½ percent.

(c) *Resellers' maximum prices.* The maximum price for sale by any reseller of cast-iron gas fired heating boilers shall be his new cost resulting from the adjustment granted manufacturers in (b) above, and of which he is notified by the manufacturer, plus the same percentage mark-up over cost as he had in effect on April 1, 1946.

To the extent that this section modifies resellers' maximum prices, this section supersedes the provisions of the General Maximum Price Regulation.

(a) *Maximum Prices for the Belknap Manufacturing Company of Bridgeport, Connecticut.* (1) The above manufacturer may determine his maximum prices for his line of brass radiator supply valves, elbows, boiler drains, sill faucets, low pressure stops and stop and waste valves by increasing by 14 percent his prices on these items in effect on October 1, 1941, to each class of purchaser.

(b) *Resellers' maximum prices.* All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their properly established maximum prices the actual dollars-and-cents increase in acquisition cost resulting from the adjustment granted the manufacturer by this order.

Order No. 139 under Revised Supplementary Order No. 119 authorizes a 14 percent increase in October 1, 1941 net prices for sales of brass radiator supply valves, elbows, boiler drains, sill faucets, low pressure stops and stop and waste valves manufactured by this company.

[Procurement Reg. 1]

PART 801—GENERAL INSTRUCTIONS

SUBPART A—INTRODUCTION

1. Section 801.101–1 is added as follows:

§ 801.101–1 Suggestions for simplification or improvement. Suggestions for the simplification or improvement of procurement regulations and for the consolidation or elimination of sections thereof are invited, and may be forwarded directly to the Procurement Judge Advocate, Office of Director of Procurement, Headquarters, Army Service Forces, Room 3E–479, The Pentagon, Washington 25, D. C. All suggestions should be accompanied with reasons therefor.

2. Paragraph (b) of § 801.105a is amended to read as follows:

§ 801.105a Reference to units the designation of which has since been

[1] See also 10 F.R. 10449, 11418, 13171; 11 F.R. 5, 1701.

changed, or which have been abolished and their functions transferred to other units. • • •

(b) Among such changes, particular attention is directed to the following, affecting the units named in italics below:

(1) *Services of Supply.* Section I of General Orders No. 14, W. D., dated 12 March 1943, provides that "The name of Services of Supply is changed to Army Service Forces"; and ASF Circular No. 30, dated May 15, 1943 provides in part that "The services heretofore designated as 'supply services' will hereafter be known as 'technical services' ".

(2) *War Food Administration.* Executive Order 9577, dated June 29, 1945 and effective at the close of business on June 30, 1945, terminated the War Food Administration, and transferred the functions, duties and powers of the War Food Administrator to the Secretary of Agriculture.

(3) *Defense Plant Corporation; Metals Reserve Company; Rubber Reserve Company; Defense Supplies Corporation.* By Joint Resolution of Congress (Public Law 109—79th Congress), approved June 30, 1945, and effective on July 1, 1945, Defense Plant Corporation, Metals Reserve Company, Rubber Reserve Company and Defense Supplies Corporation were dissolved, and their assets and liabilities were transferred to Reconstruction Finance Corporation, of which they had been subsidiaries. By General Amendment dated January 5, 1946 (11 F.R. 408), effective as of the close of business on January 15, 1946, the Surplus Property Administration transferred to War Assets Corporation all of the functions, duties and responsibilities heretofore assigned to the Reconstruction Finance Corporation with respect to the disposal of property. (See subparagraph (6) of this paragraph.)

(4) *Production Division; Purchases Division.* ASF Circular No. 329, dated August 31, 1945, provides in part that "Effective September 1, 1945, the Production and Purchases Division is established under the jurisdiction of the Director of Matériel to consist of the former Production Division and the former Purchases Division"; and the authority previously granted to the Director, Purchases Division, has been delegated to the Director, Production and Purchases Division (See § 801.107–6). ASF Circular No. 453, dated December 27, 1945, redesignated the Production and Purchases Division of the Director of Material as the Procurement Division, and amended ASF Circular No. 329, above referred to, accordingly. (See subparagraph (7) of this paragraph.)

(5) *Legal Branch, Office of the Director of Matériel.* War Department Circular No. 273, dated September 10, 1945, establishes the office of Procurement Judge Advocate, and prescribes his authority and duties; and Section III of ASF Circular No. 345, 1945, dated September 13, 1945, provides in part that "The staff of the Legal Branch, Office of the Director of Matériel, is transferred to the Office of the Procurement Judge Advocate, and the positions of Legal Assistant to the Director of Matériel, Chief, Legal Branch, Office of the Director of Matériel, and of Legal Adviser to the Readjustment and Renegotiation Divisions, and the Legal Branch, Office of the Director of Matériel, are abolished.

(6) *Surplus Property Board; Surplus Property Administration.* By Public Law 181—79th Congress, approved September 18, 1945, and effective October 1, 1945, there was established in the Office of War Mobilization and Reconversion a Surplus Property Administration to be headed by a Surplus Property Administrator; and the Surplus Property Board was abolished and all of its functions transferred to the Surplus Property Administrator. By Executive Order 9689, January 31, 1946 (11 F.R. 1265), the functions of the Surplus Property Administrator and of the Surplus Property Administration were transferred to the chairman of the board of directors of the War Assets Corporation and to the War Assets Corporation, respectively, and the Surplus Property Administration was merged into and consolidated with the War Assets Corporation. By the same Executive order, the War Assets Corporation, effective March 25, 1946, became the War Assets Administration headed by a War Assets Administrator.

(7) *War Production Board.* By Executive Order 9638, dated October 4, 1945, and effective as of the close of business on November 3, 1945, all functions and powers of the War Production Board were transferred to the Civilian Production Administration established by that order in the Office of Emergency Management of the Executive Office of the President, and the War Production Board was terminated.

(8) *Office of the Director of Matériel.* ASF Circulars Nos. 52 and 53, dated March 2, 1946, effective March 11, 1946, abolished the Office of the Director of Matériel and the Staff Divisions therein and replaced them by the Office of the Director of Procurement consisting of the Purchases, Production, Renegotiation, Readjustment, International, and Research and Development Branches.

The former Director, Procurement Division, Office of the Director of Matériel (see subparagraph (4) of this paragraph) is now the Chief of the Purchases Branch, and also the Chief of the Production Branch, Office of the Director of Procurement.

Functions in connection with surplus property were transferred from the former Readjustment Division as follows:

(i) Disposal of surplus military property to the Supply Control Branch, Office of the Director of Supply;

(ii) Disposal of surplus command installations to the Installations Branch, Office of the Director of Services; and

(iii) Coordination and liaison on all types of surplus property to the Assistant Director (Surplus Disposals), Office of the Director of Plans and Policy.

The position of Fiscal Director was abolished and the functions, responsibilities and authority of that position were transferred to the Chief of Finance. The Chief of Finance was also designated as a technical service.

Labor relations and labor supply functions of the Industrial Personnel Division were transferred to the Production Branch.

SUBPART C—AUTHORITY FOR AND APPLICABILITY OF REGULATIONS

1. In § 801.108–4 paragraphs (b) and (c) are amended to read as follows:

§ 801.108–4 *Army Air Forces.* • • •

(b) Whenever used herein, unless otherwise specifically indicated, the term "technical services" shall be deemed to include the Army Air Forces, and the term "chiefs of the technical services" shall be deemed to include the Commanding General, Army Air Forces. Likewise, the terms "Director, Production and Purchases Division, Headquarters, Army Service Forces", "Director, Procurement Division, Headquarters, Army Service Forces", "Chief, Purchases Branch, Headquarters, Army Service Forces", and "Director, Readjustment Division, Headquarters, Army Service Forces", when used in connection with action to be taken in respect of the Army Air Forces, shall, unless otherwise specifically indicated, be deemed to refer to the Special Representative of the Under Secretary of War designated for that purpose.

(c) Except as specifically otherwise provided, all communications to the Army Air Forces or to the Commanding General, Army Air Forces, relating to procurement, should be addressed to the attention of the Readjustment and Procurement Division, AC/AS–4.

2. Sections 801.108–5 to 801.108–7, inclusive, are amended to read as follows:

§ 801.108–5 *Service commands.* The regulations in this subchapter are applicable to the procurement activities of the service commands. Where procurement is accomplished by a service command at the direction of the chief of a technical service or his duly authorized representative, the directions will contain references to the applicable sections of this chapter and will also contain supplementary instructions where appropriate. In such a case, for the purposes of this subchapter, the procurement shall be regarded as procurement by the technical service concerned and the contract will be regarded as a contract of that technical service. In all other cases, except as provided in § 803.318c–2 of this subchapter, the service command accomplishing the procurement shall act independently of any technical service and the term "technical service" and the term "service," as used in this subchapter, shall be deemed to refer to the service commands and the term "chiefs of technical services" and "chiefs of services" shall be deemed to refer to the commanding generals of the service commands.

§ 801.108–6 *Procurement, contracting, termination and renegotiation authority of commanding officers outside continental United States.* (a) In general, each commanding officer in charge of United States armed forces outside the continental United States and its territories and possessions, including Alaska, who is responsible direct to the War Department, in connection with the procurement of supplies and facilities which he may deem necessary or appropriate to facilitate the prosecution of the war effort and to accomplish the mission confided in him or to protect the health, safety and welfare of the forces under his command, may disregard the provisions of this chapter, Army Regulations and other regulations, circulars, or instructions, and any provisions or restrictions of the laws of the United States which may be applicable within the United States or any territory or possession thereof. This matter is more fully treated in Section I, Circular No. 53, War Department, 1946.

(b) Each commanding officer referred to in paragraph (a) of this section is authorized to exercise, within the limit of his command, subject to any applicable regulations or instructions of the Director of Contract Settlement, or of the War Department, any authority and discretion granted to the War Department under the Contract Settlement Act of 1944. (The chiefs of the several technical services, subject to any such applicable regulations or instructions, are also authorized by Subchapter C of this chapter (Joint Termination Regulation (PR 15)), to exercise with respect to any contracts or class of contracts being administered under their direction, and made or performed outside of the continental limits of the United States or in Alaska, any such authority and discretion granted by that act.) The procedures applicable to the termination of contracts set out in Subchapter C of this chapter (Joint Termination Regulation (PR 15)), are not applicable outside the continental United States or in Alaska, but may furnish useful suggestions as to procedures appropriately to be followed in such areas. This matter is more fully treated in Section II, Circular No. 53, War Department, 1946.

(3) Authority and discretion under the Renegotiation Act of 1943 and under the Renegotiation Act of 1942 have been delegated to each commanding officer in charge of United States armed forces in Alaska or outside the continental United States, who is responsible direct to the War Department, as more fully set forth in Section III, Circular No. 53, War Department, 1946.

§ 801.108–7 *Procurement within the United States for armed forces abroad.* It is to be noted that the provisions of Circular No. 53, War Department, 1946, referred to in § 801.108–6, have no application to procurement within the United States for armed forces abroad.

SUBPART D—MISCELLANEOUS PROHIBITIONS

1. Sections 801.109 and 801.109–1 are amended and §§ 801.109–2 and 801.109–3 are added as follows:

§ 801.109 *Prohibition against acceptance of voluntary service.*

§ 801.109–1 "• • • Nor shall any department or any officer of the Government accept voluntary service for the Government • • • except in cases of sudden emergency involving the loss of human life or the destruction of property. • • • Any person violating any provision of this section shall be summarily removed from office and may also be punished by a fine of not less than one hundred dollars or by imprisonment for not less than one month". R. S. 3679, as amended by sec. 3, act 27 February 1906 (34 Stat. 49); 31 U. S. C. 665; M. L., 1939, sec. 699.

§ 801.109–2 The acceptance of "voluntary service" under R. S. 3679, as amended, means that the service is rendered under an agreement whereby a claim for payment may subsequently be made against the Government. Voluntary service may be accepted if a written statement is obtained that the service rendered will not be made the basis of a future claim against the Government for compensation.

§ 801.109–3 Title XI of the Second War Powers Act of March 27, 1942 (56 Stat. 183), as amended (50 U. S. C., App. 641–641f), authorizes the acceptance of voluntary services for particular war purposes. See AR 35–190.

2. Paragraph (b) of § 801.110–2 is amended to read as follows:

§ 801.110–2 • • •

(b) A report enumerating in detail the service rendered will be forwarded to the Commanding General, Army Service Forces, Attention of Production Branch.

[Procurement Reg. 2]

PART 802—GENERAL PROCUREMENT POLICIES AND PROCEDURES

SUBPART C—POLICIES AND FORMS

1. Paragraphs (e) and (f) of § 802.217–5 are amended to read as follows:

§ 802.217–5 *Time and material or labor-hour contracts.* • • •

(e) *Definite hourly rate.* A definite hourly labor rate must be stated at the time of issuance in all orders intended to be priced on a time and material or labor-hour basis. In the exceptional emergency cases where work must be started before the rate is agreed upon, the complete confirming order must be issued as soon as possible and in any event prior to completion of a substantial portion of the work.

(f) *Audit manual.* Reference to the Manual for Administrative Audit of Time and Material Vendors' Charges, prepared by the Office of the Chief of Finance, will be helpful in the consideration of effective control measures in particular cases. Copies of this Manual may be obtained by addressing a request to the Publication Section, Office of the Chief of Finance, Headquarters, Army Service Forces, Washington 25, D. C.

2. Section 802.217–6 is added as follows:

§ 802.217–6 *Research and development contracts.* In a research and development contract, including supply contracts within the definition of § 811.1116–1 of this subchapter, the patent rights which the Government is to receive shall be determined in accordance with the policies stated in § 811.1116 of this subchapter. It is essential that contracting officers pay only for the work to be performed and the patent rights acquired under the terms of the contract and that they employ every safeguard to assure that the pricing of research and development contracts shall be such as not to make payment for any patent rights not so acquired. The following paragraphs will be observed in pricing such a contract or in revising the prices under any price revision article of such a contract (see for example §§ 803.375 and 803.376 of this subchapter):

(a) *License under foreground patents.* If under § 811.1116 of this subchapter it is determined that the Government is to receive only a royalty-free license under inventions conceived or first actually reduced to practice in the performance of the contract (hereinafter called "foreground patents"), the price to be paid by the Government will be limited to the reasonably estimated current costs of performance of the work and a reasonable profit thereon. In no event may there be included as an element of cost (1) expenses incurred by the contractor for establishing, developing or maintaining a research organization during any period prior to the placement of the contract (including any preliminary instrument), or (2) compensation for contractor's know-how acquired prior to the date of the contract.

(b) *License under background patents accompanied by a license under, or acquisition of title to, foreground patents.* If under § 811.1116 it is determined to be desirable for the Government to acquire a royalty-free license under patents owned by a prospective contractor (hereinafter called "background patents"), efforts will be made during the negotiations to include in the contract a provision for such a license in order to avoid the payment of royalties or damages should the items thereafter be produced by or for the Government. In no event, however, shall more than a nominal amount be paid for the license under background patents. In acquiring such a license for the Government upon the payment of no more than a nominal amount therefor, competition among qualified contractors should be sought. In determining whether the Government is entitled to a license under background patents for a nominal payment the following advantages to the contractor should be taken into account, bearing in mind that the value of such advantages varies according to the facts and circumstances of each case and that they are in addition to the payments referred to in paragraph (a) of this section:

(1) A new research objective or idea;

(2) Possibility of exploring fields too speculative, in many cases, to be undertaken commercially;

(3) Access to the knowledge and experience of Government personnel in connection with the experiments or tests required by the contract, and frequently the direct aid and assistance of Government personnel furnished to the contractor;

(4) Use of or access to Government facilities for testing new developments in connection with the contract;

(5) Immunity from risk of patent infringement in performance of the contract to the extent authorized by § 811.1117 of this subchapter. Such protection may open to the contractor a valuable opportunity for the acquisition

by him of the experience of others without risk of patent infringement;

(6) Except in cases referred to in § 811.1116–11 of this subchapter retention of title to any foreground patents, subject only to a royalty-free license to the Government.

(c) *Title to foreground patents.* In the limited class of cases where title to foreground patents must be acquired by the Government (§ 811.1116–11) the price to be paid should ordinarily be that described in paragraph (a) of this section. Where a contract cannot be placed upon such a basis, before any work is started under the proposed contract the proposal must be approved by the Chief, Purchases Branch. The differential in price, if any, should be held to a minimum, and in the negotiations the benefits recited in subparagraphs (1), (2), (3), (4) and (5) of paragraph (b) of this section should be pointed out to keep the cost of acquiring title to a minimum. In cases where it is not required but where it is merely considered desirable to acquire title to the foreground patents under the provisions of a research and development contract, no more than nominal amount shall be included in the contract price for the acquisition of title.

(d) *Acquisition of rights to known inventions under § 811.1115 of this section.* Nothing contained herein shall preclude the acquisition of licenses, releases or assignments pursuant to the provisions of § 811.1115 of this section, or limit the prices to be paid therefor.

3. The last paragraph of § 802.221–4 is amended to read as follows:

§ 802.221–4 *War Department Standard Procurement Form No. 106 and related forms.* • • •

One copy of the "Instructions for Completing War Department Standard Procurement Form No. 106" should be sent to each contractor along with the necessary number of counterparts of Standard Procurement Form No. 106.

SUBPART D—PROCUREMENT BY FORMAL ADVERTISING

1. Section 802.230–7 is amended to read as follows:

§ 802.230–7 *Reports of procurement by formal advertising.* The chiefs of the technical services shall report to the Chief, Purchases Branch, all classes of supplies directed by them to be procured by formal advertising.

2. Section 802.233 is amended to read as follows:

§ 802.233 *Numbering of invitations.* Every invitation for bids will be assigned and will contain in the upper right corner a number consisting of the station number of the office issuing it if one has been assigned, followed by a dash, the last two numerals of the fiscal year in which the invitation is issued, a dash, and the serial number of the invitation. Only one series will be used under any one station number for any technical service for each fiscal year, and the first invitation issued in each fiscal year will bear 1 as its serial number. A serial number once assigned to an invitation which has been distributed will not be used in the same fiscal year for any other invitation. Other numbers or letters may be prefixed to this number if such action is desired by the chief of a technical service or commanding general of a service command.

3. In § 802.234 the introductory text of paragraph (b) is amended to read as follows:

§ 802.234 *Date specified for opening of bids.* • • •

(b) When such emergency will not permit 10 days to intervene, the copy of the invitation furnished Purchases Branch, Headquarters, Army Service Forces, will bear on its face the following certificate and appropriate reasons signed by the contracting officer:

4. Paragraph (a) of § 802.235–2 is amended to read as follows:

§ 802.235–2 *Distribution to bidders.* (a) Copies of the invitation will be distributed to producers and regular dealers in the supplies required or to those in a position to render the services necessary. The extent of distribution will be determined by the contracting officer, but must be wide enough to assure real competition on all items. Each contracting officer will maintain a bidders' list, subdivided according to types of supplies or services, containing the names and addresses of those persons, firms and corporations to whom invitations should be distributed. Contracting officers will, upon request, add to such lists the names and addresses of potential bidders desirous of receiving copies of invitations for bids. Periodically, those who habitually fail to submit bids after such distribution will be removed from the bidders' list. Invitations for bids under formal advertising will not be sent to debarred bidders or persons, firms or corporations not potential bidders. Persons, firms or corporations who are not potential bidders will be informed, when requesting to be placed on the distribution list that the sending of copies to non-bidders is not authorized. They may be informed that a copy of the invitations for bids under formal advertising is publicly displayed in the purchasing office and in the Purchase Information Section, Procurement Division, Headquarters, Army Service Forces, The Pentagon, Washington, D. C., for their inspection and for their extracting such information desired.

5. In § 802.236–3 paragraphs (a) and (c) are amended to read as follows:

§ 802.236–3 *Request for authority to advertise.* (a) Requests for authority to advertise in newspapers will be made upon War Department Form No. 1 (Request for authority to advertise) in triplicate and forwarded to the chief of the technical service concerned or the Chief, Purchases Branch, Headquarters, Army Service Forces, except that in case of great emergency, the nature of which will be stated, authority to advertise may be requested by telegraph. In making application for authority to advertise, officers will specify the newspapers in which it is deemed advantageous to advertise. Due economy both as to the number of newspapers and as to the number of insertions will be observed by all officers whether advertising under special or general authority, no greater number being used in any case than may be necessary to give proper and sufficient public notice.

• • • • •

(c) The chiefs of the technical services and the Chief, Purchases Branch are hereby delegated the authority to authorize the advertising of invitations for bids in newspapers. This authority may be exercised by the chiefs of the technical services or by one or more employees or officers designated by them within their headquarters office, or in the case of the Army Air Forces by the Commanding General, Army Air Forces or any employee or officer designated by him within his headquarters office or the headquarters office of a major component command.

6. Paragraph (a) of § 802.236–9 is amended to read as follows:

§ 802.236–9 *Payment of accounts.* (a) Accounts presented to officers for advertisements which they did not order but which are shown to have been ordered to be published in the newspaper presenting the accounts for payment will be prepared upon the official forms and transmitted through channels, to the Chief, Purchases Branch, Headquarters, Army Service Forces. The following form of certificate will be used in such cases:

I certify that the annexed advertisement was cut from the newspaper named in the above account, and that it was inserted in that newspaper for the period stated.

7. Paragraph (a) of § 802.237 is amended to read as follows:

§ 802.237 *Information to be furnished prospective bidders.* (a) Information in regard to supplies or services for which bids have been invited will be furnished on application to all potential bidders desiring it, except that information concerning classified projects will be furnished only as authorized in AR 380–5.

8. In § 802.242–2 paragraph (j) (2) is amended to read as follows:

§ 802.242–2 *How prepared.* • • •

(j) • • •

(2) If an entire bid or the bid on any item is rejected and one at a higher price is accepted, the award will be indicated as in subparagraph (1) of this paragraph, such rejected bid or part thereof will be similarly indicated in a different color, and the reason for the rejection, in sufficient detail to permit of intelligent action by higher authority, will be written on the abstract or furnished in the form of a certificate attached thereto. Since the copy of the abstract furnished to the Purchases Branch, Headquarters, Army Service Forces, is exhibited to the public, care will be exercised in making such explanations on that copy. Information such as debarment, irresponsibility, or apparent collusion of bidders, which might embarrass the War Department if publicized, will always be entered on a separate paper which may be detached in that office.

9. Section 802.242–4 is revoked as follows:

§ 802.242–4 *Bids to be forwarded.* [Revoked]

10. In § 802.245 the second sentence of paragraph (a) and the last sentence of paragraph (d) are amended to read as follows:

§ 802.245 *Mistakes in bids*—(a) *When the prices as entered on the bid are the lowest received but as clearly intended are not the lowest received.* • • • In such cases the matter will be forwarded to the chief of the technical service concerned, except that when there is either an emergency requiring that the contract be awarded immediately, or circumstances (such as the limited time allowed for acceptance of the erroneous bid or of the next low bid) which does not permit of sufficient delay to submit the case to the chief of the service, if there is no room for doubt as to the price intended in the bid in which the mistake occurred, such bid will be entered on the abstract of bids at the prices clearly intended and the award will be made to the bidder who is then the lowest. • • •

(d) • • • When such action appears desirable, the chief of the technical service will forward such papers with his recommendation to the Purchases Branch, Headquarters, Army Service Forces, for appropriate action.

11. Section 802.248–1 is amended to read as follows:

§ 802.248–1 *Contracting officer.* (a) The original of all rejected bids and a copy of the abstract of bids will be retained by the contracting officer.

(b) The original of the accepted bid will be attached to the signed number of the contract or purchase order intended for the General Accounting Office.

12. In § 802.248–3 paragraphs (a) and (c) are amended and paragraph (e) is revoked, as follows:

§ 802.248–3 *General Accounting Office.* (a) Where the lowest bid as to price is accepted, i. e., where the lowest bidder is determined from the price alone, no offsetting or equalizing elements being for consideration, and when a certificate (on reverse of Standard Form No. 1034, or Standard Form No. 1036, as the case may be) to that effect is furnished by a responsible administrative officer having personal knowledge of the facts, neither the rejected bids nor an abstract of the bids need be forwarded to the General Accounting Office with the contract. When the abstract of bids is not furnished to that office, the items accepted on any particular bid will be indicated on the original number of the bid which is to be furnished to that office.

• • • • •

(c) All rejected bids will be retained by the contracting officer and kept available for inspection by fully authorized representatives of the General Accounting Office, and will be forwarded to the latter office upon request therefor when required in individual cases.

13. Section 802.248–4 is revoked as follows:

§ 802.248–4 *Disbursing officer.* [Revoked]

14. Section 802.248–5 is amended to read as follows:

§ 802.248–5 *Procurement Division.* (a) Within three days after bids have been opened and final action taken thereon, or after it is decided to cancel the invitation before opening of bids, a copy of the abstract of bids will be mailed to the Purchases Branch, Headquarters, Army Service Forces.

15. In § 802.250 (b) subparagraph (3) is amended to read as follows:

§ 802.250 *Correspondence and contact with bidders.* • • •

(b) *Furnishing of information as to awards made.* • • •

(3) In cases where requests require a large amount of work, the inquirer should be informed that a copy of the abstract of bids is on file in the office of the contracting officer and in the office of the Purchases Branch, where it may be seen by a representative of his office, if he wishes to call.

SUBPART E—PROCUREMENT BY NEGOTIATION

1. The headnote of § 802.263–2 is amended to read: *"Incentive article."*

2. In § 802.276–1 (d) subparagraphs (1) and (3) are amended to read as follows:

§ 802.276–1 *Functions.* • • •

(d) • • •

(1) Although the preparation of price indexes is discontinued, it is important to maintain a uniform system of price records covering War Department purchases. Each technical service will prepare reports of contract prices of each of a list of selected items procured by the service. These reports need not be submitted to the Purchases Branch, Headquarters, Army Service Forces.

• • • • •

(3) The report will be prepared on the Price Data Report form heretofore used in connection with the preparation of price indexes, or on such other modified price reporting forms as have been approved by the Chief, Purchases Branch, Hqs., ASF. In order to obtain uniformity in the price records kept throughout the department, the technical services will use the same Price Data Report form (Reports Control Symbol PDL–9) for all procurement items for which the individual services consider price history records desirable in the interest of sound procurement.

3. In § 802.279–3 (b) the reference to § 802.264–2 is amended to read "§ 802.279–2".

4. Sections 802.280 and 802.281 are amended to read as follows:

§ 802.280 *Reports of excessive prices.* Where in the opinion of the contracting officer or price analysis personnel prices reflect an unwarranted increase over those at which the same or similar supplies have been procured in the past, or where for other reasons it is believed that an investigation as to whether prices comply with OPA regulations is desirable, a report containing all pertinent information shall be submitted, through channels, to the Chief, Purchases Branch, Headquarters, Army Service Forces.

§ 802.281 *Coordination.* Each technical service may determine the form of organization necessary to perform the foregoing functions within its service and to obtain their essential coordination and their integration with procurement. Thus, in its discretion, a technical service may combine these functions in a single agency or assign them to several separate agencies. Because these various price functions are so closely related, however, it is recommended that even where they are performed by several agencies in any service, all of them should be coordinated and integrated under a single head. Such an agency should supervise within the service all functions relating to contract clearance, negotiation aids, price analysis and supervision, liaison with the Office of Price Administration, renegotiation and price adjustment and price research. This policy has been followed in Headquarters, Army Service Forces, by the creation within the Purchases Branch of an Assistant Chief for Price responsible for supervising all of these functions. Creation of a similar agency in each service will facilitate coordination and cooperation between Headquarters and the services.

SUBPART F—CONTRACTING POLICY REGARDING CONSTRUCTION AND MAINTENANCE WORK

In § 802.285–2 the reference to § 802.270 is amended to read "§ 802.285".

SUBPART G—PURCHASE ACTION REPORTS

1. Section 802.290 is amended to read as follows:

§ 802.290 *General.* (a) This subpart establishes procedures for reporting to the Department of Labor and to the Congress the placement of War Department contracts.

(b) The Purchases Branch, Headquarters, Army Service Forces, retains authority over reporting procedures established by this subpart, despite decentralization of some of the operating functions.

(c) Reports to the Department of Labor are required by the Walsh-Healey Act (Act of June 30, 1936; 49 Stat. 2036; 41 U.S.C. 35–45). Reports to the Congress are required by sec. 2, Act Aug. 25, 1941 (55 Stat. 686) as amended by sec. 401, Act Apr. 28, 1942 (56 Stat. 244; 5 U.S.C. 219a).

2. In § 802.291 (d) subparagraph (4) is amended to read as follows:

§ 802.291 *Definitions.* • • •

(d) *Purchase action.* • • •

(4) Open-end contracts for services which are subject to open allotment as enumerated in Circular 178 WD 1945 and open-end contracts for the rental or lease of communications services or facilities;

3. Section 802.292–4 is amended to read as follows:

§ 802.292–4 *Station procedure for Monthly Summary Report of purchase actions.* Stations which have submitted Purchase Action Reports to chiefs of

technical services and directors of functional staff divisions will summarize these reports monthly. Stations which have submitted Purchase Action Reports to commanding generals of service commands will not summarize them. Monthly Summary Reports to the chiefs of technical services and directors of functional staff divisions (Reports Control Symbol PDS–18, see § 802.296–2) will be submitted within five days after the close of each calendar month. Only one copy will be submitted, unless more are required by appropriate authority. Each Monthly Summary Report will reflect all Purchase Action Reports submitted during the preceding calendar month to the chief of the technical service or the director of the functional staff division, classified by month of award.

4. In § 802.293–1 paragraph (c) is amended to read as follows:

§ 802.293–1 *Responsibilities of reporting headquarters.* • • •

(c) Responsibility for promptly obtaining and submitting to the Purchases Branch, Headquarters, Army Service Forces, upon request, detailed information on specific transactions.

5. Paragraph (b) of § 802.293–2 is amended to read as follows:

§ 802.293–2 *Headquarters procedure for purchase action reports.* • • •

(b) Purchase Action Reports bearing on mandatory orders and requisitions pursuant to Part 814 of this subchapter will not be forwarded to the above address. Instead, chiefs of technical services, directors of functional staff divisions; and commanding generals of service commands will file all four copies with the Chief, Purchases Branch, Headquarters, Army Service Forces.

6. Sections 802.293–3 and 802.293–4 are amended to read as follows:

§ 802.293–3 *Headquarters procedure for Monthly Summary Reports.* Chiefs of technical services and directors of functional staff divisions will submit one copy of the Monthly Summary Report (Reports Control Symbol PDS–18, see § 802.296–2) within ten calendar days after the close of each calendar month to the Commanding General, Army Service Forces, Attention, Chief, Purchases Branch. Commanding generals of service commands will not submit such reports. Each Monthly Summary Report submitted by the chief of a technical service or the director of a functional staff division will be reconciled with the Monthly Summary Report submitted by stations reporting to him for that month. (See § 802.292–4.) The purpose of the Monthly Summary Report is to enable the Purchases Branch, Headquarters, Army Service Forces, to control purchase action reporting, and to maintain a record of the total value of reported purchase actions as of the month in which they took place, regardless of the month in which they were reported. It is therefore essential to classify purchase actions by month of award.

§ 802.293–4 *Headquarters procedure for Quarterly Report on Procurement.* Within twenty days from the close of each quarter of each fiscal year, chiefs of technical services, directors of functional staff divisions, and commanding generals of service commands will submit to the Commanding General, Army Service Forces, Attention, Chief, Purchases Branch, one copy of the Quarterly Report on Procurement (Reports Control Symbol PDS–19) (see § 802.296–3). Purchases Branch will assemble the Quarterly reports submitted into one report and submit it to Congress pursuant to sec. 2, Act Aug. 25, 1941 (55 Stat. 686) as amended by sec. 401, Act Apr. 28, 1942 (56 Stat. 244; 5 U.S.C. 219a).

7. In § 802.293–5 the last sentence of the introductory text preceding paragraph (a) is amended to read as follows:

§ 802.293–5 *Special exemptions from purchase action reporting requirements.* • • • Such exemptions may be granted by the Chief, Purchases Branch, Headquarters, Army Service Forces, upon request, if the following facts are presented in writing:

8. Paragraph (b) of § 802.294–1 is amended to read as follows:

§ 802.294–1 *Preliminary contractual agreements.* • • •

(b) If the undertaking of the Government under the preliminary contractual agreement is conditioned upon funds becoming available (see, for example, the Letter of Intent which was the subject of the decision of the Comptroller General, issued under date of December 22, 1941; 21 Comp. Gen. 605), a Purchase Action Report will be filed when either the expenditures of the Government under such agreement total in excess of $10,000 or a final definitive contract (involving an actual or estimated cost in excess of $10,000) is executed, whichever shall first occur.

9. Paragraph (b) of § 802.294–3 is amended to read as follows:

§ 802.294–3 *Indefinite quantity contracts.* • • •

(b) Those which are for the use of more than one technical service or service command. (Examples listed in § 806.605d of this subchapter). A contract falling within this class is not regarded as a purchase action and will not be reported. However, a Purchase Action Report will be submitted for each purchase or delivery order executed under such an indefinite quantity contract and involving a total cost (actual or estimated) in excess of $10,000 (see § 802.291 (a) (5)). Each such purchase or delivery order will be regarded as a separate purchase action and therefore will be reported on a non-cumulative basis without regard to any other such purchase or delivery order issued under the basic contract. For reference purposes, reports of such purchase or delivery orders should always indicate (in space 34) the full contract number of the basic contract.

10. In § 802.295 (a) subparagraphs (3) and (4) are amended to read as follows:

§ 802.295 *Other instructions on reports*—(a) *Supply of forms.* • • •

(3) Forms for the quarterly report on Procurement will be distributed by the Chief, Purchases Branch, Headquarters, Army Service Forces. These forms include blank strips for individual contract reports; header strips for land acquisition; and regular header strips. (See § 802.296–3a.) Additional forms are available on request.

(4) Special purchase action report forms. The Chief, Purchases Branch, Headquarters, Army Service Forces, has authorized the Quartermaster Corps and the Ordnance Department to use special forms of Purchase Action Reports, deviating slightly from the standard WD AGO Form No. 375, set forth in § 802.296–1. Stations under the jurisdiction of The Quartermaster General and those under the Chief of Ordnance will obtain supplies of these special forms as directed by the chief of their respective services. The special forms used in place of WD AGO Form 375 will bear the same Reports Control Symbol, PDS–21.

11. Paragraph (m) is added to § 802.296–1a, as follows:

§ 802.296–1a *Instructions for preparation of Purchase Action Report (WD AGO Form No. 375; Reports Control Symbol PDS–21).* • • •

(m) *Completion date.* This will normally be the date specified in the contract for the completion of deliveries. In some cases it may be the same as the starting date or the date of award. If the date is dependent upon the receipt of material, an estimated date may be used but should be so indicated.

[Procurement Reg. 3]

PART 803—CONTRACTS

SUBPART A—GENERAL

1. Sections 803.303–2 and 803.303–3 are amended to read as follows:

§ 803.303–2 *Formal contracts; when required.* A formal contract is one which is contained in one instrument executed by both parties. Examples are W. D. Contract Forms Nos. 1 (§ 813.1301 of this subchapter), 5 (§ 813.1317d of this subchapter) and 47 (§ 813.1317c of this subchapter). Formal contracts may be used for any purchase transaction, regardless of amount and will be used for all purchase transactions, the contract price of which exceeds $100,000.

§ 803.303–3 *Informal contracts; when permitted.* For any purchase transaction, the contract price of which does not exceed $100,000, an informal contract consisting of two separate instruments, one signed by the contractor and the other signed by the contracting officer on behalf of the United States, may be used.

2. Paragraph (a) of § 803.303–4 is amended to read as follows:

§ 803.303–4 *Purchase orders; when used.* (a) When a purchase order is preceded by a written quotation or is followed by a written evidence of acceptance executed by the contractor, it is to be regarded as an informal contract consisting of two instruments; and accordingly, may be used, in accordance with § 803.303–3, for any purchase transaction the contract price of which does not exceed $100,000. If the contractor's assent is not evidenced either by a written quotation or by acceptance of the purchase order in writing, the purchase order may nevertheless be used for any purchase transaction the contract price of which does not exceed $100,000 provided that the purchase order is preceded by an oral quotation or is based upon a price list.

SUBPART B—AUTHORITY TO MAKE AWARDS, CONTRACTS, AND MODIFICATIONS THEREOF; REQUIRED APPROVALS

1. In the list in § 803.304–1 (c) the last paragraph under the heading "Service Commands" is amended to read as follows:

(1) Awards of contracts (other than Architect-Engineer, Management or similar contracts) involving a price of $100,000 or more, and awards of supplemental agreements and change orders which have the effect of increasing the price of contracts (other than Architect-Engineer, Management or similar contracts) by $100,000 or more.

(2) Awards of Architect-Engineer, Management or similar contracts when the construction contracts to which they relate involve a price of $100,000 or more, and awards of supplemental agreements and change orders affecting Architect-Engineer, Management or similar contracts when the changes being concurrently made in the construction contracts to which they relate have the effect of increasing the price of the construction contracts by $100,000 or more.

(b) Neither preliminary contractual agreements, such as letters of intent, letter orders and letter purchase orders, nor letters of commitment are required to be submitted to the Chief, Purchases Branch, for approval pursuant to the provisions of paragraph (a) of this section, regardless of the amount of funds obligated thereunder or the estimated cost of the proposed procurement. However, approval of the award of a final definitive contract, involving conversion of a preliminary contractual agreement or the use of materials or components acquired pursuant to a letter of commitment, will be obtained if required by paragraph (a) of this section.

§ 803.305–3 *Submission of contract, supplemental agreement or change order in lieu of award.* In lieu of submitting an award for approval under § 803.305–2, the contract, supplemental agreement or change order may itself be submitted for approval and manual execution by the Chief, Purchases Branch, Headquarters, Army Service Forces.

SUBPART E—CONTRACT PROCEDURE WITHIN THE SERVICE COMMANDS

In the case of such contracts to or from or in the vicinity of Class III installations or private war material plants at which the Army Air Forces have a predominant interest, such contracts will be numbered as Army Air Forces contracts.

(b) In case of doubt as to whether a particular contract should be numbered and distributed as a service command contract an inquiry should be addressed to the Commanding General, Army Service Forces, Attention: Procurement Judge Advocate, Office of the Director of Procurement. If time does not permit making such inquiry, the contract should be numbered as in the past, and an inquiry should be addressed to the Commanding General, Army Service Forces, Attention: Procurement Judge Advocate, Office of the Director of Procurement, for advice as to how that type of contract should be numbered in the future.

SUBPART H—MANDATORY AND OPTIONAL CONTRACT PROVISIONS

Subchapter B—Disposition of Property

[Procurement Reg. 7]

PART 821—GENERAL DISPOSITION OF PERSONAL PROPERTY

In § 821.102 the paragraph defining "Readjustment Division" is amended to read as follows:

§ 821.102 *Definitions.* * * *

"Readjustment Division" means the Deputy Director (P&P) for Terminations and Surplus Disposals, Headquarters, Army Service Forces.

PART 823—DISPOSITION OF PERSONAL PROPERTY FOR PURPOSES DIRECTLY RELATED TO THE PROSECUTION OF THE WAR

1. Section 823.302a is added as follows:

§ 823.302a *Donations to American National Red Cross.* Any property which was processed, produced, or donated by the American National Red Cross for a Government agency, now in the possession of the War Department or the Army, may be donated to the American National Red Cross upon its request, solely for charitable purposes. No such property shall be disposed of either under the Surplus Property Act of 1944 or under any other law except after a notice to and consultation with the American National Red Cross. The American National Red Cross shall pay all costs of packing and shipping property donated to it.

2. Section 823.307–2 is amended to read as follows:

§ 823.307–2 *Transfer without reimbursement under certain statutes.* (a) When transfers are made to the Navy Department (10 U.S.C. 1274), or to the Veterans' Administration upon written request stating that the property is needed for authorized care for veterans (Title I, P.L. 346, 78th Cong.), or when transfers or loans are made to the Administrator of Civil Aeronautics upon his written request stating that the property will be used in carrying out the purposes of the Civilian Pilot Training Act of 1939 as amended (49 U.S.C. 756), or when aircraft is being acquired for replacement purposes by the Civil Aeronautics Administration (Title III, P.L. 61, 79th Cong.), or when property is transferred to the United States Soldiers' Home (Title I, P.L. 269, 79th Cong.) in accordance with paragraph (c) of this section, or when transfers are authorized under other statutes not requiring reimbursement, they will be effected without reimbursement of, or transfer or allotment of funds to, the transferor by the transferee for the cost of the property or of packaging, handling and shipment thereof, unless the property is procured by the transferor for the transferee:

(1) By assignment of sole purchase responsibility, or

(2) Under procurement pooling arrangements, or

(3) Under any arrangement for procurement by the transferor expressly upon the prior requisition of the transferee.

(b) Under paragraph (a) of this section, any civilian type items which may be excess to the needs and responsibilities of the War Department may be transferred to the Veterans' Administration, provided the representative of the Veterans' Administration making the request certifies that the property requested is needed for the authorized care for veterans.

(c) Transfers without reimbursement to the United States Soldiers' Home may be made only of personal property which has been determined to be surplus. If property requested by the United States Soldiers' Home has been declared surplus to a disposal agency, the request will be returned with appropriate information as to the disposal agency having jurisdiction over the property.

3. Section 823.316 is amended to read as follows:

§ 823.316 *Donations to schools engaged in preinduction or aeronautical industrial training.* Under the provisions of § 8319.5 of chapter XXIII of Title 32, (Surplus Property Administration Regulation 19), owning agencies are authorized to continue donations under laws other than the Surplus Property Act of 1944 provided that donations under the act of February 28, 1936 (49 Stat. 1147, 10 U.S.C. 1258) may be made only with the approval of the Federal Security Agency. The War Department has received from the Federal Security Agency authority to continue donations under the procedure established in this paragraph for an indefinite period of time. Accordingly, under the authority conferred upon the Secretary of War by the act of May 26, 1928 (45 Stat. 753, 20 U.S.C. 94) and the act of February 28, 1936 (49 Stat. 1147, 10 U.S.C. 1258), the chiefs of the technical services are authorized to donate property of the classes

specified in paragraph (f) of this section to educational institutions under the following conditions:

(a) To be eligible for donations, an institution must:

(1) Be operated by a State or political subdivision thereof, or must be certified by a State department of education, State board for vocational education, or a similar State authority responsible for the supervision of education, to be an institution not operated for profit and having a standard curriculum in the fields for which it offers training and such State department, board, or similar State authority must certify that the request is reasonable and proper in view of the training to be given;

(2) Provide a regular course of instruction which will require the use of the property;

(3) Use the property in an aeronautical industrial training program recommended by the Assistant Chief, Air Staff-3, Headquarters Army Air Forces; or use the property in a preinduction training program as defined prior to November 1, 1945 by the Director of Military Training, Army Service Forces; and

(4) Provide adequate facilities to maintain the property.

(b) Requests for the donation of property to educational institutions will be forwarded, in the case of property to be used in preinduction training, to the commanding general of the service command in which the institution is located and, in the case of property to be used in aeronautical industrial training, to the commanding general of the Air Technical Service Command in which the institution is located. The commanding general of the service command or the Air Technical Service Command may approve the request if he determines that:

(1) All efforts to supply the property from salvage have been exhausted;

(2) The request is reasonable and proper in view of the training to be given;

(3) In the case of requests for numerous items, the quantity requested has been carefully reviewed with respect to the institution's ability to utilize the property in its training program; and

(4) The institution meets the standards set forth in paragraph (a) of this section.

(c) If the institution making the request for donation has previously received donations under the authority of this section, the institution must:

(1) List the property which the institution has previously received or which it knows to be en route as a result of a prior donation; and

(2) State whether the property previously received by donation is still in use in the training program for which it was requested; and

(3) State the specific purpose for which the property covered by this request will be used.

(d) If the commanding general of the service command or the Air Technical Service Command approves the request, he shall prepare the specific findings required by paragraph (b) of this section and shall forward them, together with his recommendation, to the chief of the technical service having control of the property to be donated (Attention: Redistribution and Salvage Officer), when such property is to be donated by the Army Service Forces, and to the Commanding General, Air Technical Service Command, Wright Field, Ohio, when such property is to be donated by the Army Air Forces. The commanding general of the service command or the Air Technical Service Command may not delegate this authority or transfer his responsibility to any other commanding general of a service command or Air Technical Service Command. The chief of the technical service or the commanding general, Air Technical Service Command, if the request is approved by him, will direct the appropriate installations to ship the property to the educational institution concerned and will include in such direction a citation of this section. Requests will be processed in the order in which they are received unless specific authority to deviate from this requirement is obtained from Readjustment Division.

(e) If the donee prior to placing the property in use determines that it does not need all or a part of the property received, the donee will communicate this fact to the commanding general of the service command in which the donee is located. Further, the donee must agree at the time it makes application for the donation, that it will, if requested, return at its own expense to the service command or technical service such property which it does not place in use.

(f) The following property may be donated under the authority of this section:

(1) Obsolete or excess machinery, mechanical equipment, and tools.

(2) Aircraft, aircraft parts, instruments, or engines which are obsolete or impaired to the extent that repair would not be economical. In determining the property which may be donated, responsible officers should bear in mind that the intent of the Congress was to make available the above categories of property as training aids in the instruction of vocational courses. The general rule should be, that property properly donable is that used for instruction in the trades as distinguished from the arts and professions. For example, instruction aids for courses in machine shop, metal working, carpentry, etc., are properly donable, whereas those for courses in medicine, surgery, art, and scientific research are not. Under no circumstances will donations be made which will result in current procurement to replace the property, nor will property be considered available for donation after it has been declared as surplus to a disposal agency, nor will property be considered available if a disposal agency has advised that any particular item is in short supply or has requested that items of a particular type be reported to it. Property located in an industrial installation as defined in § 830.102–6 of this subchapter will not be considered available while a decision by a disposal agency is pending as to the sale of the plant in its entirety and after decision may not be donated without advance approval by disposal agency. Maintenance or overhead property should not be donated, even though it may fall within the meaning of "machinery, mechanical equipment, and tools." Requests for donations of office furniture and equipment, laboratory equipment, and motor vehicles should be denied.

(g) No property will be shipped until receipt of payment by the donee of all expenses necessary for packing, handling, and delivery to the carrier. Property shipped by carrier will be on commercial bill of lading with transportation charges collect. Copies of shipping documents listing the property supported by shipping directions described in paragraph (d) of this section will constitute valid credit vouchers to the property accounts. No further accounting for the property will be required. Two lists of the property donated will be forwarded to the commanding general of the service command or the Air Technical Service Command who recommended the donation. In the event that the chief of the technical service determines that property of the type requested will not be available to fill the request within 90 days, the chief of the technical service will notify the institution making the request through the appropriate service command or Air Technical Service Command of this fact.

PART 827—DISPOSAL OF SURPLUS PERSONAL PROPERTY

1. Section 827.711–4 is amended to read as follows:

§ 827.711–4 *Classification by disposal agencies.* Under Part 8309 of Chapter XXIII of Title 32 (Surplus Property Administration Regulation No. 9), disposal agencies are authorized to certify in writing to the War Department that any given property or class of property is in its judgment scrap, regardless of its condition. That regulation provides that the disposal agency shall forward to the owning agency a memorandum listing and plainly identifying the items in question and containing the following statement:

> It is hereby certified that the within described property has been determined to be scrap and it is requested that sale be effected in accordance with the provisions of SPA Regulation No. 9 without further review of such determination.

The certification may be made at any time prior to the time that the property has been declared to the disposal agency but will not be made after declaration to the disposal agency. When property has been declared to the disposal agency, the owning agency will not accept a scrap certification and a return of the property.

2. In § 827.721–2 the item "O4–C" is added to the list in paragraph (b) as follows:

§ 827.721–2 *Aircraft and related property.* • • •

(b) • • •

O4–C	Aircraft tires and tubes.

3. Paragraph (a) of § 827.723 is amended to read follows:

§ 827.723 *Withdrawal, and adjustments of declarations.* (a) Property which has been declared to a disposal agency may be withdrawn by the declaring office for further use by the technical service of origin, with the consent of the Disposal Agency to which the property was declared. See § 827.724 for special procedures on contractor inventory. Property will be withdrawn only for further use by the technical service of origin and will not be withdrawn for disposal purposes. It is no longer necessary to withdraw declarations for the purpose of transfer without reimbursement to another technical service or to another Government agency. Under § 8302.8 of Chapter XXIII of Title 32 (Revised Regulation 2 of the Surplus Property Board), disposal agencies are authorized to transfer property declared by one technical service to another technical service or to another Government agency, without reimbursement when transfer could have been made from the declaring technical service to the transferee service or agency without reimbursement under § 823.307 or § 823.308 of this subchapter.

4. Sections 827.725 and 827.725–1 are amended; § 827.725–2 is deleted; § 827.725–3 is redesignated § 827.725–2; §§ 827.725–3 to 827.725–7, inclusive, are added; former §§ 827.725–6 and 827.725–7 are redesignated §§ 827.725–8 and 827.725–9, respectively; § 827.725–10 is added, and former § 827.725–8 is redesignated § 827.725–11, as follows:

§ 827.725 *Care and handling.* The following sections will govern the storage, handling, care and preservation, repair, packaging and packing, and shipment of surplus property by all War Department agencies.

§ 827.725–1 *Storage of declared surpluses; general.* (a) The disposal agencies will dispose of all property declared surplus that is not withdrawn under § 827.723.

(b) War Department installations will continue to store and be responsible for property which has been declared surplus to a disposal agency until disposition instructions are received from the disposal agency.

(c) Disposal agencies may dispose of declared surpluses either directly from War Department storage or after removal to storage facilities of the disposal agencies.

(d) All War Department agencies concerned with the handling of surplus property will extend the fullest cooperation to the disposal agencies. Liaison will be promptly established and maintained between field establishments handling surplus property and field agencies of the disposal agencies. To the fullest extent practicable, provision will be made for furnishing additional information to disposal agencies and for exhibiting surplus property held in War Department storage to properly accredited prospective buyers and rerestentatives of disposal agencies.

• • • • • •

§ 827.725–3 *Warehousing.* Segregation of surpluses—that is, the physical movement or rewarehousing of surplus property to separate it from nonsurplus property—will be done only when it will aid disposal. Concentration of small lots in one place within an installation will be permitted, but large lots will normally be left where they are when declared surplus.

§ 827.725–4 *Earmarking.* (a) Precautions must be taken to insure that stocks of surplus property are not confused with current-issue stocks and erroneously issued to troops. Surpluses will therefore be physically earmarked as surplus property, except where surpluses are physically moved into an area set aside and used only for surplus property.

(b) Stacks of surplus property will be physically earmarked in two ways: First, by placarding or tagging and, second, by a tape or other visual aid to show the extent of each stack. When stacks of surplus property are adequately marked as surplus property, individual containers or pieces in each stack need not be so marked.

(c) For placarding, the following method is recommended: Prepare signs by painting or stenciling the word, Surplus, in red letters approximately 6 inches high on white cards. Date of declaration, name of disposal agency, and declaration number may also be shown in smaller letters. Place these signs in prominent positions on the stacks, the number of signs to be used being governed by the type of property and the size and shape of the storage area.

(d) Marking will not be made directly on surplus property unless the marking is capable of being easily obliterated or removed and is of such a nature as not to detract from the sale value of the property.

§ 827.725–5 *Locator records.* Locator records will be maintained for surplus property and will be kept accurate. They will be separate from, but may be similar to the locator records kept for other types of property.

§ 827.725–6 *Display and sale.* (a) Display and sale by disposal agencies of surplus property in WD installations will be permitted. Inspection of surplus by prospective buyers will be permitted during normal working hours, except that minor changes may be made in this schedule if it interferes with the proper functioning of the installation.

(b) If the physical lay-out of the installation permits and space is available, as determined by the installation commander, a separate building or part of a building may be used exclusively for the display and sale of surpluses. If possible, this space should be near the entrance of the installation.

(c) Samples of unsegregated surpluses (see § 827.725–3) will normally be made available in display rooms.

§ 827.725–7 *Care and preservation.* Care and preservation of surplus property are the responsibility of field establishments storing surplus property. Surplus property will be given the minimum amount of care and preservation necessary to keep it in the same general condition as it was when declared surplus.

• • • • • •

§ 827.725–10 *Shipments not directed by disposal agencies.* (a) Shipments of surplus property to or for a disposal agency—such as shipments to buyers, shipments to a disposal agency which is taking custody of property prior to disposal, and shipments to a new storage point for facilitating disposal—will be made only as and when directed by the disposal agency.

(b) Shipments which are made solely for the purpose of storing surplus property in a different location will not be made, except as follows:

(1) When it is necessary to move surplus property because of the sale, transfer, or demolition of the installation at which the property is stored; when movement of surplus property will permit release of leased space; or when space occupied by surplus property is needed for storage of active military supplies. In all such cases, except those relating to Army Air Forces property, approval of Headquarters Army Service Forces (Storage Division) will be obtained before the shipment is made, and paragraphs (c) and (d) of this section will be complied with. In case of Army Air Forces property the approval of Headquarters ATSC will be obtained and paragraph (c) of this section will be complied with.

(2) When the quantity of surplus property at a surplus installation is insufficient to warrant the establishment of a resident surplus property officer and it is not feasible to leave the property there. In all such cases, except those relating to Army Air Forces property, the commanding general of the service command may direct that such property be shipped to the surplus property officer at another installation within the command. This action may be taken without obtaining approval of Headquarters Army Service Forces (Storage Division), but paragraph (c) of this section will be complied with.

(c) Surplus property will not be shipped until a statement has been obtained from the disposal agency that the property cannot be immediately disposed of from its present location. Before approval for shipment is requested (see paragraph (b) (1) of this section) or shipment is directed (see paragraph (b) (2) of this section), the regional office of the appropriate disposal agency will be contacted to ascertain:

(1) Whether the property has been sold.

(2) Whether sales action has been initiated.

(3) Whether it will be possible to make spot sales of the property.

(4) Whether the property has been predetermined to be commercially unsalable.

(d) Each request for approval of Headquarters Army Service Forces (Storage Division) for movement of surplus property (see paragraph (b) (1) of this section) will include the following information:

(1) Present location of the property.

(2) Reason why it must be moved.

(3) Proposed new location at which the property will be stored.

(4) Nature or type of property.

(5) Amount of space presently occupied by the property, in square feet (state whether gross or net).

(6) Type of space presently occupied—that is, warehouse, shed, high-grade open, semi-finished open, or unimproved open.

with his recommendation, to the chief Maintenance or overhead property which has been declared to a disposal in one place within an installation will agency—such as shipments to buyers, open.

(7) Approximate tonnage of property to be moved.

(8) Estimated cost of shipment, including packaging, packing, loading, unloading, freight, and all other costs incident to shipment.

(9) Estimated cost of storage for 1 year at the present location, including rent, overhead, personnel, security, and all other costs incident to operation of the installation.

(10) Statement that the requirements of paragraph (c) of this section have been complied with and that the property cannot be immediately disposed of from its present location.

(e) Property which is surplus in effect but which has not yet been declared surplus will not be moved to another point for storage prior to its declaration, except in the following cases:

(1) When it is necessary to move the property because of the sale, transfer, or demolition of the installation at which the property is stored.

(2) When movement of the property will permit release of leased space.

(3) When space occupied by the property is needed for storage of active military supplies.

5. Section 827.727 is amended to read as follows:

§ 827.727 *Direct disposal by War Department after declaration.* Property will be disposed of directly by the War Department after declaration to a disposal agency only under the procedures set forth in the following sections.

6. Section 827.727–2 is revoked as follows:

§ 827.727–2 *Property determined scrap by a disposal agency after declaration.* [Revoked]

[Procurement Reg. 7–A]

PART 830—GENERAL DISPOSITION OF INDUSTRIAL INSTALLATIONS

1. Section 830.102–12 is added as follows:

§ 830.102–12 *"Readjustment Division".* "Readjustment Division" means the Deputy Director (P&P) for Terminations and Surplus Disposals, Headquarters, Army Service Forces.

2. In § 830.104 paragraphs (b) and (c) are amended to read as follows:

§ 830.104 *Disposals in advance of excess or surplus.* • • •

(b) The Readjustment Division, Army Service Forces, on request of the disposal agency to which a purchase inquiry has been referred, will ascertain, by coordination with the Production Branch, Army Service Forces (in the case of the Army Air Forces, the Assistant Chief of Air Staff-4, Readjustment and Procurement Division) and the using service, the need for continuing war production at the installation, the availability of the property for inspection, the terms of any options, and the probable date the installation will become surplus. If requested by the disposal agency, the Readjustment Division, Army Service Forces, will arrange, with consent of the using service, for field inspection of the installation by prospective buyers.

(c) When advised by the disposal agency that an advance disposal is ready to be made, the Readjustment Division, Army Service Forces, will request the using service to consent to disposal of the installation, subject to conditions determined by the using service to be necessary to protect the War Department's interest in continued production. When the using service consents to disposal of the installation, the using service will forward a statement to the Under Secretary of War stating the conditions on which the consent is given and will send copies of this statement to the Production Branch and the Readjustment Division, Army Service Forces. If the Under Secretary consents to the disposal, he will direct the Chief of Engineers to declare the installation surplus, subject to such conditions as the Under Secretary of War may determine.

PART 832—REPORTING AND DISPOSITION OF EXCESS AND STANDBY INSTALLATIONS; CUSTODY AND ACCOUNTABILITY

In § 832.200–2, the introductory text of paragraph (a), preceding subparagraph (1), and paragraph (b) are amended to read as follows:

§ 832.200–2 *Reporting of installations classified as standby.* (a) When an installation is classified as standby, the using service will submit a report to the Chief of Engineers through the Production Branch, Army Service Forces, or in the case of Army Air Forces, through the Assistant Chief of Air Staff-4, Readjustment and Procurement Division. The report will contain the following information:

• • • • •

(b) Upon receipt of a report of standby the Production Branch, Army Service Forces, or, in the case of the Army Air Forces, the Assistant Chief of Air Staff-4, Readjustment and Procurement Division, will recommend within ten (10) days whether the classification as standby should be approved or modified. If the classification is approved the respective staff divisions will forward a report to the Under Secretary of War; if the Under Secretary of War approves the classification he will forward a report to the Chief of Engineers.

Major General,
The Adjutant General.

PART 984—LEAD

[General Preference Order M–38, as Amended Apr. 2, 1946]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 984.1 *General Preference Order M–38*—(a) *Scope of the order.* This order controls generally the use of lead. Lead may be used only for the items and purposes set forth in the order. Other restrictions may also be found in other orders of the Civilian Production Administration relating to particular articles or parts. In such case the more restrictive provision governs. In no case shall any person use, purchase, sell, deliver or accept delivery of any lead in violation of this order.

(b) *Definitions.* For the purpose of this order:

(1) "Lead" means metallic lead, lead alloys, components or products (such as,

tion by prospective buyers.

ing particulars:

11:10 a. m.]

but not limited to, sheet, pipe, ingot, castings and foil), in any form containing 50% or more by weight of the element lead (Pb). It does not include lead chemicals.

(2) [Deleted Apr. 2, 1946.]

(3) "Refiner" means any person who produces lead in refinery shapes, and includes any person who has such lead produced for him under toll agreement.

(4) "Dealer" means any person who procures lead either by importing or from domestic sources for sale or resale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(5) "Military order" means a specific contract or sub-contract necessitating the use of lead in the manufacture of any product, or any component to be physically incorporated into such products, produced for or for the account of the Army or Navy of the United States, Maritime Commission, War Shipping Administration, Veterans' Administration or Office of Scientific Research and Development.

(6) "Implement of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) [Deleted Apr. 2, 1946.]

(8) "Item" means any article or component thereof.

(c) *Restrictions on use.* (1) No person may melt, form, alloy, or process any lead for use in any item or product, or in any process, not set forth in List I of this order. Lead may be used for the items and processes and subject to the restrictions set forth in List I only to the extent necessary to meet applicable specifications, or for the proper service performance of the end product, or where the use of any less critical material is impracticable or when satisfactory substitutes are prohibited in other Civilian Production Administration orders.

(2) No person shall use primary lead for any items or purpose set forth in List I if secondary lead is obtainable and usable for the item or purpose. "Primary lead" means metallic lead obtained mainly from mine ores and concentrates. "Secondary lead" means metallic lead obtained mainly from remelting or smelting of scrap materials.

(3) Manufacturing quotas are set in List I for certain of the items and processes in which lead may be used. If a quota is set for an item or process in List I, a manufacturer or processor must not use, in the manufacture of the item or in the process during the current calendar period listed, more lead than the specific percentage of the amount legally used for that purpose during the base period indicated. These quotas may not be transferred except in accordance with Priorities Regulation 7A. Manufacturers or processors who did not use lead during the period indicated as the base period in the manufacture of an item or in a process which is subject to a quota restriction (including persons who were not in business at that time) may nevertheless apply for a quota, and their applications will be considered on an equitable basis. Applications for quotas for the second quarter 1946 should be filed promptly with the Civilian Production Administration, Tin, Lead and Zinc Branch, Washington 25, D. C. Ref: M-38, or in any event not later than April 20, 1946.

(4) In some cases List I permits the use of lead in making a product only if the product is to be used for a particular purpose. No person may use any of these products for any purpose other than the purpose permitted by List I.

(d) *Special directions.* The Civilian Production Administration may at any time issue special directions to any person respecting the production, distribution, delivery, or acceptance of delivery of lead.

(e) *Lead from Office of Metals Reserve, Reconstruction Finance Corporation.* Any person who is unable to use secondary lead and who is unable to obtain primary lead from regular sources of supply may apply to the Civilian Production Administration to buy lead from the Office of Metals Reserve, Reconstruction Finance Corporation. Applications should be made on Form CPA-95 and should be filed with the Civilian Production Administration, Tin, Lead and Zinc Branch, Washington 25, D. C. not later than the 20th of the month preceding the month in which shipment is requested.

(f) *Inventory restrictions.* Lead appears on Table 1 of Priorities Regulation 32. Inventories of lead are subject to all provisions of that regulation. Inventories of scrap dealers are controlled by Direction 5 to Priorities Regulation 32. All inventory appeals from the provisions of paragraph (f) of M-38 granted before April 2, 1946 are hereby revoked.

(g) [Deleted May 1, 1945]

(h) *Restrictions on sales and deliveries of lead.* No person shall sell or deliver any lead to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(i) *Appeals.* Any appeal from the restrictions of this order must be by letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal and should be addressed to the Civilian Production Administration, Tin, Lead and Zinc Branch, Washington 25, D. C., reference M-38. The appeal should contain the following information:

(1) Product in which the lead will be used.

(2) Period of time, not exceeding one calendar quarter for which relief is requested.

(3) Monthly schedule of amount of lead to be used.

(4) Prime contract numbers on military orders.

(5) If the appeal is filed because the restrictions on use of lead will prevent the filling of non-military orders of extreme urgency, give exact information as to the use of the product in which the lead is used.

(6) Why other less critical materials cannot be used.

(7) Any other information pertinent to the appeal.

(j) [Deleted Oct. 3, 1945.]

(k) *Records.* All persons affected by this order must maintain accurate and complete records of all transactions as required by Priorities Regulation No. 1, 944.15. Such records must include complete statements of the amounts of lead consumed for the items specified in this order, and the amount of inventory on hand.

(l) *Required reports.* (1) On or before the 20th day of each calendar month each person who purchased or consumed 10 tons or more of metallic lead during the preceding calendar month, or had in his possession or under his control 20 tons or more of lead, shall report such purchases, consumption and stocks on hand at the end of the preceding month to the Civilian Production Administration on Form CPA-95.

(2) The Civilian Production Administration may from time to time issue special directions requiring any refiner or dealer to file a report showing a schedule of his proposed deliveries of lead.

(3) All persons affected by this order shall execute and file with the Civilian Production Administration such other reports as may be required subject to the approval of the Bureau of the Budget.

(4) The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Violations.* Any person, who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Communications.* All communications and reports dealing with this order shall be addressed to: Civilian Production Administration, Tin, Lead and Zinc Branch, Washington 25, D. C., Ref: M-38.

(o) [Deleted Apr. 2, 1946.]

Issued this 2d day of April 1946.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-889, Revocation]

SUSSMAN BROTHERS

Suspension Order No. S-889 was issued August 13, 1945, against Samuel Sussman doing business under the name of Sussman Brothers, Pittsburgh, Pennsylvania. An appeal was filed on February 13, 1946. The case has been reviewed by the Chief Compliance Commissioner who has found that satisfactory evidence has been presented to the Civilian Production Administration that the suspension order has served its purpose and the required compensation of 147 bales for the receipt and use of burlap since August 20, 1945 has been substantially made. The Chief Compliance Commissioner has, therefore, directed that Suspension Order No. S-889 be revoked effective April 1, 1946.

In view of the foregoing, it is hereby ordered, that: § 1010.889 *Suspension Order No. S-889* be revoked effective April 1, 1946.

Issued this 29th day of March 1946.

PART 1351—FOOD AND FOOD PRODUCTS

[RMPR 289,[1] Amdt. 51]

DAIRY PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 289 is amended in the following respects:

1. Section 1 (r) is added to read as follows:

(r) *Natural and processed cheese not subject to other sections.*

2. Section 36 is added to read as follows:

SEC. 36. *Maximum prices for all natural and processed cheese (except cottage cheese) not subject to other sections of this regulation*—(a) *Purposes of section 36*—(1) *Generally.* Section 36 establishes a method for placing all natural and processed cheese (excepting cottage cheese) not controlled elsewhere in this regulation, under dollar-and-cents ceiling prices at all levels except retail sales by retailers subject to Maximum Price Regulations 422 and 423. This, however, will not be accomplished automatically as maximum prices for products under this section will remain the same as they were under the previously applicable regulations superseded by this section until the Administrator issues under this section 36 individual authorizations for new maximum prices in line with the other prices established under this regulation.

(2) *Prior regulations, orders, letters and interpretations superseded.* This section supersedes all other maximum price regulations, orders, letters and interpretations and the maximum price established thereunder or thereby issued by the Office of Price Administration or any Regional or District Office thereof before April 3, 1946 with respect to sales of natural or processed cheese covered by this section, including the applicable provisions of Maximum Price Regulation No. 280: *Provided*, That the maximum prices determined or established under such regulations, orders, letters and interpretations shall remain in force with respect to a particular sale of a natural or processed cheese covered by this section until the Administrator of the Office of Price Administration specifically provides a new maximum price for the item by individual authorization.

(b) *Maximum prices.* The maximum price for any natural cheese or processed cheese (except cottage cheese) not subject to other sections of this regulation shall be the maximum price heretofore in effect under the previously applicable regulation unless and until the Administrator authorizes a new maximum price in line with the level of prices established under this Revised Maximum Price Regulation 289.

(1) *In line prices.* Upon finding that a manufacturer's maximum price for a natural or processed cheese subject to this section is either excessive or inadequate in the light of other prices under this regulation, the Administrator may establish a new maximum price in line with the level of maximum prices heretofore established under this regulation.

(c) *Information to be filed.* (1) Within 15 days from April 3, 1946, each manufacturer shall send by registered mail the following information to the Poultry, Eggs and Dairy Products Branch of the Office of Price Administration at Washington, D. C., for each natural or processed cheese manufactured by him and controlled by this section:

(i) Name of item and brand name.

(ii) Name and address of the manufacturing plant, or if more than one plant manufactures the item, then the names and addresses of all the plants where the item is manufactured.

(iii) Package or container size.

(iv) Type and shape of package or container.

(v) Information contained on label, if any, or attach label.

(vi) The maximum moisture and minimum butterfat content of the item.

(vii) The method of manufacturing the item.

(viii) An itemized current cost breakdown of the item, showing separately according to the manufacturer's own system of accounts, or regularly prepared operating statements, all major component cost factors (e. g., direct costs, such as processing costs, raw materials, packaging or container materials and direct labor; indirect costs, such as indirect labor, factory overhead, selling, advertising and administrative cost, together with an explanation showing the method of allocation of the indirect cost factors; and freight or other delivery costs if sold on a delivered basis) indicating whether each cost item is an actual or an estimated cost.

(ix) The manufacturer's maximum price for each class of customer under Maximum Price Regulation 280 or any other previously applicable regulation.

(2) Where a person manufactures natural or processed cheese in more than one plant, in determining his various costs he shall take the weighted averages of the costs determined at each of his plants.

(3) All filings shall be considered as confidential information and the contents thereof shall not be disclosed or divulged except on order of the Administrator upon a finding that such disclosure is necessary to effectuate the purposes of the Emergency Price Control Act, as amended and Executive Orders 9250 and 9328.

(d) *Prohibitions.* (1) No manufacturer shall sell any natural or processed cheese subject to this section after 15 days from April 3, 1946, until he has mailed the information required in paragraph (c).

(2) Notwithstanding any other provisions of this section no manufacturer shall sell or deliver a product subject to this section and manufactured by him for the first time after April 3, 1946, until a price for the product has been authorized by the Administrator.

(e) *Maximum prices for wholesalers.* (1) The maximum price for the sale of a product covered by this section, delivered at any place, by a primary wholesaler, secondary wholesaler, or service wholesaler, shall be the maximum price in effect on April 3, 1946, plus or minus (as the case may be) the amount by which the applicable maximum base price, or applicable maximum price for the appropriate type of sale to such wholesaler at that place has been increased or decreased since April 3, 1946.

If for any reason the provisions of this paragraph (e) are inapplicable, the Administrator of the Office of Price Administration may on his own motion, or upon application, establish maximum prices at any distributive level.

(2) *Definitions.* The definitions of "primary wholesaler," "secondary wholesaler" and "service wholesaler" shall be the definitions set out for these terms in section 35 (m) of this regulation.

This amendment shall become effective April 3, 1946.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SEC. 1.4 *Adjustments and appeals*—(a) *Adjustments on Board's or Director's own motion.* (1) In the event that the Director or the Board having jurisdiction over a registrant is of the opinion that the amount of sales, purchases, or consumption of such registrant as reported on the registration form is incorrect, or that the circumstances of the registrant have so changed that the amounts reported on the registration form no longer represent the proper base for computing quotas, the Board or the Director shall notify the registrant to appear and show cause why the base quantity reported should not be reduced.

(2) The notice of hearing shall be in letter form, shall state the date and purpose of the hearing and shall be served upon the respondent not less than seven days before the date set for the hearing.

The Board shall render a decision within three days after the application is received. The decision shall be in writing and a written copy thereof shall be delivered or mailed to the registrant and the Director. The Director may within thirty days modify or set aside such decision.

SEC. 3. *Persons affected.* (a) In effecting or executing a cotton futures transaction on any contract market for any other person a futures commission merchant shall, for that transaction, assure himself of the minimum initial margin specified in section 2 in the manner prescribed by the rules of said contract market in effect on March 1, 1946. The person for whom a cotton futures transaction is being executed shall deposit the minimum initial margin specified in section 2 in the manner prescribed by the rules of said market in effect on March 1, 1946.

(b) Each contract market shall promptly report to the Office of Price Administration, Enforcement Department, Washington 25, D. C., any knowledge it has concerning violation of the regulation by any person making use of its facilities: *Provided*, That a contract market may defer such a report until it has made such investigation of its information or knowledge as may be appropriate under its rules.

SEC. 4. *Validity of futures contracts.* This regulation shall not affect the validity or negotiability of a cotton futures contract traded in contravention of this regulation.

SEC. 5. *Enforcement.* Any person violating any provision of this regulation is subject to the criminal penalties and civil enforcement actions provided by the Emergency Price Control Act of 1942 as amended.

SEC. 6. *Definitions.* When used in this regulation the term—

PART 1499—COMMODITIES AND SERVICES

[2d Rev. SR 14,[1] Amdt. 23]

IMPORTS; LUMBER AND OTHER LUMBER PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Second Revised Supplementary Regulation 14 to the General Maximum Price Regulation is amended, as follows:

A new section to be designated as section 3.12 is added to read as follows:

SEC. 3.12 *Imports; lumber and other forest products.*—(a) *Coverage*—(1) *Items covered.* This section covers lumber and all other forest products which are either imported into the United States or produced in the United States from imported logs or imported flitches and which are subject to a transaction of a type described in subparagraph (2) below.

(2) *Transactions covered.* This section governs all sales which are made in the United States of items which were subject to the General Maximum Price Regulation or the Maximum Import Price Regulation prior to March 25, 1946.

Specifically but not exclusively, this section does not cover imported logs, mahogany lumber (see section 3.1, Amendment 14 of this regulation) or those items of balsa lumber covered by section 3.11 of this regulation (see Amendment 19).

(b) *Maximum prices* — (1) *Sellers who made sales in period September 1945 through February 1946.* On and after April 3, 1946, a seller's maximum price on a sale of an item subject to this section shall be the highest lawful price at which that seller sold the identical item on the same type of sale during the six (6) months period from September 1945 through February 1946.

The term, "type of sale" means one of the different classifications of sales such as distribution yard sale, direct mill sale, retail sale, carload sale or less than carload sale, or other classification of sale.

(2) *Sellers who can not price an item under subparagraph (1).* If a seller of an item covered by this section can not determine his maximum price from subparagraph (1) above, the seller making a sale of such item (referred to below as "special item") shall apply to the Lumber Branch of the Office of Price Administration, Washington, D. C., for approval of a maximum price. In his application, the seller shall show the maximum price which he can establish under subparagraph (1) above of the item most nearly comparable to the "special item" and also the price differential between that comparable item and the "special item" which he maintained in March 1942, or in the month most nearly preceding March 1942 when he had sales of both of those items. If the seller did not make sales of those items in March 1942, or in any month prior to that month, he must show the price differential which he would have maintained between the two items in March 1942 if he had made such sales.

The seller shall report his requested price in his application together with an explanation of how he has determined the price. The price approved shall be one which is in appropriate relationship to the most comparable item determined from an examination of the data submitted by the seller and from such other data as may be available to the Office of Price Administration. The maximum price duly approved by the Office of Price Administration for a seller for a special item shall apply to subsequent sales of that seller of the identical item unless the Office of Price Administration limits the applicability of the approved price in some manner.

[1] 10 F.R. 1154, 2026, 2161, 2432, 2618, 3551, 4107, 8620.

If within 30 days of the receipt of the application by the Lumber Branch of the Office of Price Administration that Office does not transmit a disapproval of the price requested by the seller on the application, that requested price may be deemed approved, but such approval shall be applicable only to the one specific order and only to the quantity of the special item contained in that order on the date of the application.

Prior to the approval of the Office of Price Administration of the maximum price for the special item, the seller shall not make any collections on account of the sales price of the special item. However, the seller may proceed with the delivery of the special item using the requested price as a tentative maximum price, but all quotations, contracts and invoices must notify the buyer that the price is subject to approval by the Office of Price Administration within the 30-day period described above.

(c) *Reports.* All sellers of the items covered by this regulation shall report to the Lumber Branch of the Office of Price Administration, Washington, D. C., the prices for items covered by this section which can be established under paragraph (b) (1) above. All sellers must file such reports within 30 days following April 3, 1946.

This amendment shall become effective April 3, 1946.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 3d day of April 1946.

3. Paragraph (d) of Rule 4 thereof, which reads:

(d) *Transmission by appellant to contracting agency of notice of appeal and documents in support of appeal.* Not later than the date on which the notice of appeal and the documents in support of the appeal are filed with the Board at its principal office in Washington, D. C., as provided in paragraphs (a) and (b) hereof, appellant shall send a copy of the notice and one complete set of the supporting documents to the office of the contracting agency which made the findings from which the appeal is taken, or upon which a demand for findings was made, if the appeal is taken because of the failure of the agency to make findings after appellant's written demand therefor.

C., as provided in paragraphs (a) and (b) hereof, appellant shall send a copy of the notice and one complete set of the supporting documents to the office of the contracting agency which made the findings from which the appeal is taken, or upon which a demand for findings was made, if the appeal is taken because of the failure of the agency to make findings after appellant's written demand therefor.

4. Rule 8 thereof, which reads: "From time to time, the Chairman may divide the Board into panels of one or more members, assign the members of the Board thereto, and in case of a panel of more than one member, designate the presiding officer thereof." is modified by adding the following sentences: "A majority of the members of any panel shall constitute a quorum and, if a quorum is present, action of a majority of those present shall constitute action of the panel. Action of a panel, the members of which are all the full-time members of the Board shall constitute action of the Board."

5. Rule 19 thereof, which reads:

RULE 19. *Award or decision.* Unless the case is remanded, as provided in Rule 17, the Board or any panel thereof shall enter the appropriate award or decision on the basis of the law and facts, and may increase or decrease the amount allowed by the findings of the contracting agency.

Immediately upon the entry of an award or decision in any proceeding, notice of the award or decision and the date thereof will be sent to the parties by registered mail.

is modified to read:

RULE 19. *Assignment of cases to panels; reports by panels; review of reports; entry of awards or decisions; date of awards or decisions*—(a) *Assignment of cases to panels.* Each case shall be assigned in accordance with section 13 (d) (2) of the Contract Settlement Act, by the Chairman, to a designated panel for hearing, and, subject to the review provisions of these rules, for disposition.

(b) *Reports by panels.* Each panel shall, as soon as practicable after hearing, prepare a report in the form of its proposed disposition of each case assigned to it and such report shall be submitted to the Chairman of the Board. Such report shall become the award or the decision of the panel only when entered as such award or decision upon direction of the Chairman or upon his omission to direct within 10 days after its submission to him that it be reviewed as hereinafter provided.

(c) *Review of reports.* In order to insure consistency in the application of the Act, panel reports shall upon direction of the Chairman be subject to review by a panel the members of which are all the full-time members of the Board. The panel report shall be given the benefit of every reasonable intendment in its favor so far as questions of fact and the proposed disposition of the case are concerned; and any part-time member of the Board acting as a member of the panel submitting the report shall be entitled to participate in the review, although the votes of the full-time members will be determinative. The reviewing panel may, where advisable, reopen the hearing or take such other action as it deems necessary to a just decision of the case. An award or decision entered upon such review shall constitute the award or decision of the Board.

(d) *Entry of awards or decisions.* As soon as the Chairman has directed the entry of the report of a panel as its award or decision or has omitted for 10 days to direct its review as hereinbefore provided, or as soon as the Board has made an award or decision, the award or decision of the panel or Board shall be entered in the Office of the Clerk of the Board as the award or decision of the Board. Upon such entry a certified copy of the award or decision with notice of the date of the entry thereof will be sent by registered mail to each of the parties to the case.

(e) *Date of awards or decisions.* The date of the award or decision of the Board or panel shall be the date of the entry thereof in the office of the Clerk of the Board.

6. There is added a new rule to be known as Rule 21, which reads as follows:

RULE 21. *Claims against contracting agencies not originally parties.* (a) Whenever it shall appear that a contracting agency other than the respondent may be concerned in the subject matter of an appeal, the Appeal Board may request the appellant to furnish to the Board for forwarding to such agency copies of the notice of appeal and of the claim, and such other documents or memoranda as the Appeal Board may determine, together with a notice substantially in the following form:

Pursuant to Rule 21 of the Rules of Practice and Procedure of the Appeal Board of the Office of Contract Settlement, and without waiving any rights against any other contracting agency, claim is hereby made against you for the relief specified in the accompanying claim, and demand is hereby made for findings thereon. Pursuant to said rule, said findings may be embodied in a response filed by you in the proceeding, and the filing of a response containing such finding shall constitute delivery of findings to the undersigned.

Appellant

(b) The notice of appeal with such accompanying papers when received by such agency shall be deemed for all purposes, including negotiation and settlement or appeal, to constitute a claim by appellant against such agency and a demand for findings thereon.

(c) Upon the filing with the Appeal Board of a response by such agency, or, if no response is filed by it, then at the expiration of 90 days from the receipt of copy of the notice of appeal by it, such agency shall be deemed a party to the appeal as fully as though the notice of appeal had been originally filed against it after submission to it by the appellant of a claim and a demand for findings. A response filed by such agency within the 90 days shall be considered by the Appeal Board as constituting both findings and response on appeal, and the failure of such agency to file a response within the 90 days shall be deemed by the Appeal Board to be both a failure of such agency to make the findings demanded and to respond to the notice of appeal.

(d) In the event that such agency considers that it is not a contracting agency responsible for settling appellant's claim or any part thereof within the meaning of section 13 (a), or of section 13 (a) as supplemented by section 17 (c), of the Contract Settlement Act of 1944, and consequently does not intend to negotiate with appellant, it is hereby required, pursuant to sections 4 (b) and 13 (a) (1) of the Act, that such agency expedite the proceedings before the Appeal Board by filing its written findings with the Appeal Board, in the form of a response, within 20 days from the receipt of a copy of the notice of appeal by such agency. Neither the filing of such a response nor the omission to do so, within such period, shall affect the determination of the question whether such contracting agency is the agency responsible for settling appellant's claim or any part thereof.

(e) Admission by such agency in its findings and response that it is an agency responsible for settling appellant's claim, or part thereof, shall not of itself deprive such agency of any defense on appeal other than a defense based upon the claim that the agency is not an agency so responsible.

(f) No proceedings pursuant to this regulation shall affect the authority of a contracting agency, which shall have received a copy of a notice of appeal forwarded to it pursuant to this regulation, to make a settlement of the claim by agreement with the appellant at any time before the proceedings before the Appeal Board are concluded.

MILK IN GREATER BOSTON, MASS. MARKETING AREA

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS

Notice of report and opportunity to file written exceptions with respect to a proposed marketing agreement and to a proposed amendment to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, Marketing Area.

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum., Supp., 900.1 et seq., 10 F.R. 11791), notice is hereby given of the filing with the hearing clerk of this report of the Assistant Administrator for Regulatory and Marketing Service matters, Production and Marketing Administration, United States Department of Agriculture, with respect to a marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). Interested parties may file exceptions to this report with the Hearing Clerk, Room 1331 South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the seventh day after publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

The proceeding was initiated by the Production and Marketing Administration as a result of requests received from co-operative associations of producers and from handlers of milk in the Boston milkshed. In a letter dated November 15, 1945, the Market Administrator of the Greater Boston marketing area notified all handlers, co-operative associations, and other interested persons that they should file not later than December 1, 1945, any proposals which they wished to make with respect to amendments to the order. Nearly 50 separate proposals were submitted by co-operative associations and handlers, and an additional 13 proposals were submitted by the Dairy Branch, Production and Marketing Administration. After consideration of these various proposals, it was concluded that a hearing should be held to accept evidence on 57 separate proposals, which appeared in the notice of hearing issued on January 14, 1946. The hearing was held at St. Johnsbury, Vermont, on February 1 and 2, 1946, and continued at Boston, Massachusetts, on February 4–9, February 15–16, and March 11–13, 1946.

The issues developed at the hearing concerned principally the following points:

(1) Increase in the Class I price.

(2) Broadening of the formula basis for the Class I price.

(3) Plans to encourage adjustment of seasonal milk production to meet market needs for Class I milk.

(4) Basis for inclusion of milk in the market pool and prevention of seasonal loading of the pool with surplus milk of other markets.

(5) Pricing of skim milk contained in Class II milk.

(6) Pricing basis for butterfat made into butter or Chedar-type cheese.

(7) Handling allowances on Class I milk and Class II milk.

(8) Transportation allowances on Class I milk and Class II milk received at country plants.

(9) Definition and assignment of classes of emergency milk, and incidence of extra costs on such milk.

(10) Assignment to classes of milk received from plants subject to Order 27, regulating the handling of milk in the New York metropolitan marketing area.

(11) Substitution of individual handler pools for market pool in September–February.

(12) Payments to co-operative associations.

(13) Creation of "fall and winter payment reserve" from the market pool in April–June, to be prorated to producers in November–January according to the proportion of their handlers' milk sold as Class I milk in the marketing area.

(14) Permissive variation in butterfat differentials.

(15) Prices to producers within the 80-mile zone.

(16) Location differentials to producers in Barnstable and Plymouth Counties, Massachusetts.

(17) Classification of milk moved to third persons and to plants not subject to the Boston Order.

(18) Time limit on re-audits and re-billings.

(19) Clarification of provision for "interest" on overdue accounts.

(20) Powers and duties of the Market Administrator.

(21) Establishment of an industry advisory committee.

(22) Responsibility of agents of handlers.

(23) Improvement in references to quotations for manufactured dairy products.

Some of the issues developed cannot be acted upon immediately. There is need for action on other points before the season of heaviest production this year, May and June.

Accordingly, this report recommends deferring any decision on a few issues and making amendments to the order promptly on the other matters. Those issues upon which action must be deferred are the Class 1 price, broadening of the formula basis for the Class 1 price, plans to encourage adjustment of seasonal milk production, transportation allowances on Class 1 milk, time limit on re-audits and re-billings, and payments to co-operative associations. With respect to all other issues developed at the hearing, conclusions as to what action should be taken by the Secretary are contained in the balance of this report. Some of the considerations leading to the conclusions are indicated.

(4) *Basis for inclusion of milk in the market pool and prevention of seasonal loading of the pool with surplus milk of other markets.* During the past few years a number of plants have been withdrawn from the pool on a temporary basis and groups of producers have been shifted between the Greater Boston market and other markets by handlers having operations in both the primary market and secondary markets. In general, plants and producers have tended to be shifted away from the Greater Boston market and out of the pool when the handler had an outlet for the milk as Class 1 milk in other markets. There is a larger outlet for such milk in other markets in the fall and winter months, when production is lowest in the region. These plants and groups of producers tend to be returned to the Boston market and included in the pool during the season of heavy production, when the milk is not needed as Class 1 milk in any of the markets. This shifting of milk between markets in this manner causes the market pool for the Greater Boston area to carry much of the seasonal surplus milk of other markets in the region.

Dairy farmers whose milk is delivered to other markets in the season of relatively short supplies are not really producing for the Greater Boston marketing area. Their milk should not participate in the Boston pool in the season of heavy production, simply because the milk is not then needed in the other markets.

In the amendments that became effective in February 1940, an attempt was made to deal with the problem of producers being shifted in and out of the market. The so-called "transfer" provisions which have been in effect since that time have permitted handlers with nonpool plants in secondary markets to transfer surplus milk from such plants to pool plants on a seasonal basis, with the producers regarded as producers for other markets and their milk allocated to Class 11 milk in the pool. However, this classification of the producers and the milk has depended upon the handler's exercising an option of reporting the producers as under contract to have their milk received and paid for as part of that handler's supply for the secondary market. The record in this hearing indicates that in the last three years substantial quantities of milk have been handled in this way, but on only a small proportion of such milk have the handlers exercised the option which would prevent this seasonal surplus of other markets from being loaded on the market pool for the Greater Boston area. Similarly, the so-called "transfer" provisions permitted a handler to transfer regular producers for the marketing area to a nonpool plant when the milk was needed there and to report the producers as under contract for Boston so that the milk would be included in the pool and charged to the handler as Class 1

milk. This option also has been exercised in a diminishing degree during recent years. In other words, these so-called "transfer" provisions have failed to prevent seasonal loading of the market pool with surplus milk of other markets.

Under the present provisions of the order it may be said in general that inclusion of a plant in the market pool in any given period is based on the actual shipment of Class 1 milk to the marketing area, or on the shipment of milk or cream to the marketing area accompanied by approval by health authorities of the plant as a source of fluid milk for the marketing area. In February 1940 the order was amended to include the so-called "10 per cent" provision. The primary purpose of this provision was to allow milk distributors who sell only a small part of their total supply as Class 1 milk in the marketing area to account to the Market Administrator only on their Class 1 milk sold in the marketing area. During the season of heaviest production in both of the past two years, this 10 percent provision has been suspended in order to enable handlers to utilize fully their manufacturing facilities. Repeated suspension of this provision indicates the need for its being modified so as not to apply in the season of heaviest production to country plant operators who have manufacturing facilities. Qualified cooperative associations have been exempted from the 10 percent provision, but from the record there appears to be no need on their part for such an exemption at the present time.

In the latest hearing there were several proposals designed to deal with this situation. Four large Boston handlers made four different proposals which were contained in the hearing notice, but which were considered together at the hearing. The specific remedy proposed at the hearing by these handlers was an elaborate plan for determinations by the Market Administrator as to what plants should be included in the pool. These determinations were to be based on the situation of the plant with respect to the pool in December 1945, or on the plant location, approval by health authorities, willingness of the operator to ship Class 1 milk to the marketing area at reasonable prices, and the absence of commitments for utilization of milk other than as Class 1 milk. Under this plan, plants would be excluded from the pool if the operators did not meet certain standards with respect to willingness and ability to supply Class 1 milk to the marketing area at reasonable prices in the fall and winter months. This plan aims at giving to the marketing area prior rights on the milk in the pool during a period of short supply.

The complexity of this proposed plan called forth extended evidence in the hearing in support of it and in opposition to it. Both the proponents and the opponents devoted major attention to it in their briefs. The plan does not address itself to the problem of groups of producers, rather than plants, being shifted in and out of the pool. Yet, it is apparent that there would be many administrative difficulties in putting the plan into operation. Wide discretionary power would be lodged with the Market Administrator. He would be burdened with the task of determining reasonable prices on interhandler sales and the costs of additional handling on certain types of sales. The evidence indicates that the plan might cause serious inequities as between handlers and as between milk distributors in other markets in the region. Obviously, there would be many difficulties in carrying out through this order a program designed to assure handlers in the Greater Boston marketing area of a full supply of milk at a time when dealers in other markets in the region were unable to obtain a sufficient supply. This is true because many of the other markets are located nearer than the marketing area to parts of the Boston milkshed.

It is believed that protection of the market pool from unwarranted surplus, at which this plan is aimed by its proponents, can be achieved more effectively by simpler means.

Three co-operative associations proposed another plan with essentially the same objective, except that it does not attempt to give priority to the marketing area on Class I milk. This proposal essentially is that plants participating in the pool in any April, May, or June cannot leave the pool until the following April. A corollary proposal would operate in the same manner with respect to producers who deliver to a handler's pool plant in the flush season and subsequently deliver to a nonpool plant of the same handler. In effect, this proposal would require participation in the pool by plants and such groups of producers on a year-round basis if their milk was included in the pool in April, May, or June. This general principle of year-round participation in the pool by plants and groups of producers is sound.

It is concluded that the best way to deal with this problem is to write into the order provisions having the effect that plants which are withdrawn from the pool and groups of producers that deliver to nonpool plants of handlers in the season of relatively short production should not have their milk participate in the pool in the following season of heavy production. More specifically, it is recommended that any farmer whose milk is received at a non-pool plant of a handler on more than three days in any month from August through January shall be considered as producing for that market and that his milk shall not participate in the pool on the regular basis during the following April, May, June, or July. The provisions recommended above would replace the so-called "transfer" provisions of the order. The "10 per cent" provision should be modified so that it applies equally to co-operative and to proprietary handlers but so that it does not apply in April, May, or June to any handler who receives milk from producers at a country plant.

After review of all of the evidence and the arguments on this issue, it is believed that the provisions recommended above will correct most of the present difficulties. They will provide standards regarding pool participation which will be clear, definite, and enforceable and which will leave the minimum of administrative discretion consistent with achieving the basic objectives. These changes should be put into effect not later than May 1, 1946, in order to prevent heavy loading of the market pool with seasonal surplus of other markets this year.

(5) *Pricing of skim milk contained in Class II milk.* Four large handlers proposed that the price of skim milk in Class II milk should be raised from August through February by giving increased weight to the quotations for human food powder and decreased weight to the quotations for animal feed powder. The handlers also proposed to lower the price for skim milk in May and June by shifting the weights given to the two quotations. The lowering effect on the price of skim in May and June from the heavier weight given to the animal feed quotation would be partly offset in the proposal by elimination of any differential for skim milk made into casein.

The proponents urged adoption of this proposal on the basis that it would encourage fall milk production, reflect the utilization of some of the skim milk in lower-value products in the flush season, encourage full utilization of skim in the season of heavy production, and make handlers more willing to sell Class I milk during the shortage season. Testimony was introduced to show that a single price for skim milk in all months would encourage handlers to risk the investment necessary to manufacture their skim milk into those products having the highest value. A higher price for skim in the fall months will make manufacturing operations less attractive as an alternative to sales of Class I milk. Handlers incur extra costs for manufacturing skim milk in the season of heaviest production because of the necessity for employing more men, paying extra wages for overtime hours, and transporting milk to manufacturing plants from the receiving stations to which it is delivered by producers.

It is evident that a higher price for skim milk in the periods of relatively short production will reflect more accurately the value of the products into which skim milk is made at those seasons, will discourage any tendency on the part of handlers to continue manufacturing when their milk is needed in the market as Class I milk, and will contribute to a small extent to a solution of the seasonal production problem. Accordingly, the portion of the proposal calling for changes in the formula for pricing skim milk contained in Class II milk for the months from August through February should be adopted.

The necessity for lowering the price of skim milk in May and June is not established by the evidence in the hearing record. The proponents argued that it had become difficult to find an outlet for all of the skim milk in the flush season and that some of it had been wasted. However, the statistics of the market show that receipts from producers in June 1945 reached an all-time high level and that in that month less than three-fourths of one per cent of the milk was dumped. No encouragement to the use

of skim milk in making casein will be afforded to handlers if the formula for the casein adjustment is kept on a basis which does not permit a profit from making casein. Approximately 5 per cent of the skim milk contained in Class II milk in May and June 1945 was made into casein. In recognition of the fact that under present circumstances it may be difficult for handlers to equip themselves to make other products, it is recommended that the provision for the casein adjustment be continued.

It is concluded that the price for skim milk in Class II milk from March through July should not be changed. An additional advantage resulting from no change in this price, which has not been mentioned above, is that it will keep the price for skim milk in the Boston milkshed on the same basis as the price in the New York milkshed. This point carries some weight because there is an overlapping of these two major milksheds at some points.

One co-operative association proposed that the formula for the pricing of skim milk in Class II milk should reflect the use made of the skim milk, by using appropriate quotations and giving a weight to each in proportion to the quantity of skim milk used in each product. In order to establish the proper basis for such a provision, it would be necessary to have evidence as to the availability of reliable quotations for each product, the cost of manufacture of the product, and the yield per hundredweight of skim milk. No evidence on these points was introduced at the hearing. Furthermore, it is not clear as to how it would be practicable to administer such a provision since the Class II price could not be determined until there was complete information as to the utilization of all of the skim milk in Class II milk. Accordingly, this proposal cannot be adopted.

Three co-operative associations proposed to change one of the factors in the formula for the casein differential from 6.6 cents to 13.1 cents. This factor is the one which is deducted from the market quotation for domestic casein. The evidence supporting this proposal described the problem as one of inadequate published price quotations for domestic casein. The proponents did not propose any other quotation to be substituted for the one now being used, neither did they submit any records of actual selling prices for their casein.

A comparison of the quotations for domestic casein in the "Oil, Paint and Drug Reporter," with information on prices for casein as published in the "Monthly Domestic Dairy Markets Review" issued by the United States Department of Agriculture, shows that the quotations contained in the trade journal apparently were on a conservative basis and did not overstate the actual market prices. Accordingly, it is recommended that this proposal should not be adopted. However, the present language with respect to the casein differential should be changed slightly so that the adjustment could never exceed the regular price of skim milk.

Two co-operative associations proposed that in the calculation of the pool in each month from October through January each handler should be charged the Class I price for any Class II milk in excess of 10 per cent of his receipts from producers. The proposal would allow handlers to recover in the payments to their own producers the difference between the Class I price and the Class II price on such milk. The proponents stated that this proposal would provide a greater incentive for handlers to get their milk to the market in the season of short supplies.

It was brought out that in only four months in the past three years has the percentage of Class II milk in the market pool been below 10 per cent. There was testimony to indicate that the proposal might be damaging to operating co-operatives who sell largely to other handlers. An increase in the price of skim milk in the fall and winter months, which has already been recommended above, should provide sufficient incentive for the shipment of Class I milk. That plan is considered preferable to the one proposed by the co-operatives. Accordingly, the latter should not be adopted.

One handler proposed that the price for Class II milk received from producers at city plants should be reduced 29 cents per hundredweight in May and June. The proponent stated that this reduction should be made in order to lower the cost of the skim milk in such Class II milk. There was testimony to the effect that handlers operating city plants only could not regulate or control the volume of Class II milk received from producers and that they have difficulty in disposing of some of this skim milk without a loss under present prices.

The proponent indicated that he could not dispose of Class II milk in the higher value Class II use for thinning cream but the record indicates that there is a substantial amount of Class II milk used in the city market for this use in May and June. From the evidence it is concluded that handlers operating city plants have no pressing problem in this connection. Adoption of the proposal would disturb in May and June the present basis of uniformity of cost to all handlers for Class II milk in the marketing area, whether received from producers at city plants or shipped from country plants in the 200-mile zone. Accordingly, this proposal should not be adopted.

(6) *Pricing basis for butterfat made into butter or Cheddar-type cheese.* Three co-operative associations proposed an amendment to restore permanently the butter and cheese adjustment which became inoperative on September 12, 1945. The proponents testified that there were many uncertainties in the situation for 1946, that a handler could not afford to make Cheddar-type cheese at the regular Class II price, and that restoration of the butter and cheese adjustment would enable more efficient use of facilities. This provision would bring to producers the same return for milk made into cheese as they would obtain if the butterfat from the milk were made into butter. It was claimed that there should be no discrimination against the manufacture of Cheddar-type cheese as compared to the manufacture of butter as an outlet for excess butterfat. It was stressed that efficiency required that the butter made should be churned in as few plants as possible and that the adjustment should be allowed if the butter is made by a second person.

There was no testimony in opposition to allowing the adjustment made on butterfat made into butter to apply to butterfat made into Cheddar-type cheese. Witnesses for two other co-operatives and for one large handler supported the proposal. Several witnesses emphasized that the butter adjustment should apply to butter made by a second handler if any butter adjustment is to be continued in the order. During the period from May 13, 1944, through September 11, 1945, approximately one-half of the butter made from butterfat contained in pool milk was made at the plants of second persons.

It is concluded that the present provision for an adjustment in the price of milk made into butter should be replaced by provisions for an adjustment on butterfat made into either butter or Cheddar-type cheese and that the adjustment should apply if the butterfat is made at a plant of the handler who received the milk from producers or at a plant of a second person to which such butterfat is moved.

Another proposal by three co-operatives was that the adjustment of the price of butterfat made into butter or Cheddar-type cheese should apply throughout the year rather than being limited to certain months. The statistics of the Market Administrator show that in every year the importation of bottling-quality cream from outside the milkshed in the months of July, August, and September has exceeded the quantity of cream churned in the milkshed. The same has been true in April of each year except 1944. In May of both 1944 and 1945, and in June of each of the past three years, more butterfat has been churned than was contained in cream of bottling quality brought into the market from outside the milkshed. With all restrictions removed on the sale of heavy cream and on the manufacture of ice cream and cheeses of various types, there appears to be no likelihood that the volume of Class II milk in 1946, even in the month of June, will provide enough butterfat to supply fluid cream, ice cream, and frozen cream needed in New England.

It is evident that butterfat in Class II milk in the Boston milkshed should be utilized in fluid cream, ice cream, and frozen cream to the greatest practical extent. Provisions of Order No. 4 should be designed to encourage such use of the butterfat and to discourage its use in the manufacture of butter and Cheddar-type cheese. The manufacture of these two products in New England, at a time when there are heavy shipments of cream from outside areas to the region, merely results in inefficient and uneconomic utilization of butterfat as between regions.

It seems to be a reasonable estimate that the over-all demand for cream, ice cream, and frozen cream in New England in the spring of 1946 will equal at least the entire production of butterfat in Class II milk in that region. However,

under present conditions it may be necessary to continue the importation of some western cream. Some handlers, particularly the co-operative associations, may be forced to manufacture some of their butterfat into butter and Cheddar-type cheese in the months of heaviest production. Accordingly, it is recommended that the butter and cheese adjustment should apply in the months of April, May, and June.

Two co-operative associations proposed to change the overrun factor in the butter adjustment from 20 per cent to 16⅔ per cent. The proponents presented evidence on the loss of butterfat in handling and manufacturing operations. They did not present any information on the actual yields of butter from butterfat-in-cream although they testified that they manufactured substantial quantities of butter. There was some testimony to the effect that butter cannot be made at a profit under the present butter adjustment, but this evidence does not directly support a change in the overrun factor. Neither does it support any change in the formula since adjustments which would make the manufacture of butter profitable would encourage such use of the butterfat in the Boston milkshed. As pointed out above, this would be an uneconomic development and it would lower the blended price in the pool. It is concluded that no change should be made in the overrun factor.

One co-operative association proposed a separate class for milk made into Cheddar-type cheese. Evidence introduced at the hearing showed that in the years 1938–1940 the regular Class II price exceeded the value of milk for manufacture into Cheddar-type cheese by 27 to 30 cents per hundredweight. Since 1941, this difference has increased to approximately 60 cents per hundredweight. The proponent indicated that he had been able to manufacture Cheddar-type cheese in 1944 and 1945 under the pricing provisions contained in the butter and cheese adjustment then in effect. It is recommended that there should be no separate class for milk made into Cheddar-type cheese. The amendment recommended above for pricing butter fat made into Cheddar-type cheese will allow the manufacture of such cheese in the Boston milkshed and will return to producers for the milk as high a price as they would obtain if the butterfat were made into butter. If the price of cheese in the future should be relatively lower than the price of butter, it would not be necessary to continue the manufacture of cheese.

Two co-operative associations proposed that the butter adjustment should not apply to butterfat from route returns. It does not so apply under the present provision of the order. The proponents based their proposal on the fact that losses from route returns in the city are a part of the cost of distribution and should not be absorbed by producers. However, handlers who press the sale of milk and cream on retail routes are likely to have most of the route returns in the market and such sales promotion is beneficial to producers. The volume of butter made from route returns during the past two seasons has not been large enough to affect the blended price by more than one-tenth of a cent per hundredweight of milk. It is concluded that with a butter and cheese adjustment in effect in only three months no exception should be made for butter from route returns.

The present method of pricing milk made into butter provides for no adjustment to the handler in the cost of butterfat in excess of 3.7 per cent of the producer milk. The butter and cheese adjustment in effect during the past two seasons provided for a larger adjustment on the butterfat in excess of the 3.7 per cent equivalent of the milk made into butter than was allowed on the butterfat up to 3.7 per cent. The Dairy Branch proposed a single adjustment rate per pound of butterfat, regardless of the butterfat test of the milk involved or the location of the plant where the milk was received from producers.

An adjustment rate per pound of butterfat is preferable to an adjustment per hundredweight of milk in the case of butter manufacture because it is the butterfat which is made into butter. There is no inconvenience to an adjustment per pound of butterfat in the case of the manufacture of Cheddar-type cheese. In order to provide uniformity in costs among handlers, the adjustment return should be the same on each pound of butterfat made into butter or cheese, regardless of the butterfat test of the original milk. Other provisions of the order result in each handler's cost for cream being uniform at the point of separation of milk into cream.

The butter and cheese adjustment in effect during the past two seasons provided slight differences in the rate according to the zone in which the milk was received from producers. These zone differentials were small but they made it necessary for the Market Administrator to allocate on an arbitrary basis to various plants the butterfat made into butter. Such allocations are undesirable and should be avoided.

It is recommended that the butter and cheese adjustment should provide for a single rate per pound of butterfat and that this rate should be the one provided under the butter and cheese adjustment in effect last year for the fat up to 3.7 per cent in milk received from producers at plants in the 201–250-mile zone. This zone is the approximate center of the Boston milkshed. The adjustment rate would represent the difference between the value of butterfat in 3.7 per cent Class II milk recieved from producers in the 201–250-mile zone and the value of butterfat to be made into butter.

The Dairy Branch also proposed a specific method to be set forth in the order for allocating to the various sources of a handler's butterfat the quantity of butterfat made into butter. It was proposed at the hearing by representatives of the Market Administrator that the quantity of butterfat-in-cream received from nonpool sources by a handler during the month in which he claims a butter adjustment should first be offset against the butterfat used to make butter. The intent of this proposal apparently would be to discourage the importation of outside cream by a handler in the same months in which he was making butter.

There was testimony at the hearing to the effect that such a provision would be discriminatory as between handlers who ordinarily purchase outside cream and those who do not make such purchases. Briefs submitted by interested parties raised several questions on this point of discrimination. It is not entirely clear as to how the method of allocation proposed by the Market Administrator would work out in practice and no one else proposed specifically any other method. Accordingly, it is recommended that on the present record no amendment should be made to the Order in this respect.

(7) *Handling allowances on Class I milk and Class II milk.* The proponent of increased handling allowances presented the results of a survey of receiving and handling costs for the year 1944. This survey covered 47 country plants which handled 39.5 per cent of all the milk in the pool received from country plants in 1944. On the basis of this survey it was claimed that receiving and handling costs averaged 23.8 cents per hundredweight in 1944, and that this amount was approximately 6 cents per hundredweight greater than such costs in 1941, an increase of about one-third.

On the proponent's assumption that the handling costs at city plants have also increased one-third since 1941, the additional cost (except for transportation) of handling milk received at country plants compared with milk received at city plants would have increased from the 13 cents per hundredweight, reflected in the location differential in $904.10 (c) of the order, to 16 cents per hundredweight. To correct this discrepancy in favor of city-delivered milk it was proposed, if Class I prices are changed, to include a rate of increase 3 cents more per hundredweight for milk delivered at city plants than whatever the increase is at country plants. Handlers who are large receivers of producer milk at city plants testified that the cost of receiving such milk had increased by more than one-third since 1941. Since the proposal to change the present difference between city and country producer prices is based on an assumption which was refuted by the handlers who are in the best position to know the facts on city plant costs, no change in the order on this point is recommended.

A second proposal based on the same survey of handling costs at country plants would increase the Class II handling allowance 3 cents per hundredweight. The receiving and handling costs in the survey were computed by taking total operating and administrative expenses at country plants, and reducing such expenses by the cost of manufacturing Class II products, using the rates in the order for both cost of manufacture and yield of product per unit of fluid milk rather than actual cost rates and yields of the concerns involved.

In other words, handling costs are shown in the survey as the residual amount after manufacturing costs have been deducted at the rates allowed in the order. Under this method of allocating costs of manufacturing, the handling cost is exaggerated if the actual cost of manufacturing exceeds the allowance in the order. In testifying on other points, the proponent of this proposal testified that its costs of manufacturing did exceed allowances.

It is difficult to reconcile the proposal to increase handling allowances with the increasing number of country plants and the intense competition for milk in the country. More evidence than is contained in the record is needed to justify a change in the order and, therefore, no change is recommended.

(8) *Transportation allowances on Class I milk and Class II milk received at country plants.* The proposals relating to changes in allowances on Class I milk are so closely related to Class I prices that action on all such proposals is being deferred until such time as a decision is reached with respect to Class I prices. The table of plant handling and transportation differentials should be brought up to date by inserting the rates actually in effect as a result of changes in rail tariffs on May 15, 1943.

The evidence in support of the proposal to allow a whole milk freight rate on a limited amount of Class II milk shipped to the market shows that the proposal was intended to apply to an unlimited amount of both whole milk and skim milk shipped to the marketing area. If adopted, the proposal would restore to the order some of the undesirable features which were eliminated by the adoption of the amendment which became effective August 1, 1941. Accordingly, the proposal should not be adopted.

(9) *Definition and assignment to classes of emergency milk, and incidence of extra costs on such milk.* It was proposed that the order contain a definition of emergency milk, and that provision be made for the classification of emergency milk; for its exclusion from the milk included in the computation of the blended price, and for the payment from the proceeds of the pool of the premiums paid to obtain emergency milk.

The testimony emphasized the shortages in the supply of milk for the market during the fall and winter months of the past three years, and the substantial quantities of milk which had to be imported from emergency sources, particularly in the winter months of 1945. There was also testimony that milk from sources other than the regular supply will probably have to be brought in during the fall and winter months of 1946.

The record established the need for defining emergency milk and making provision for exempting it from inclusion in the pool. It was shown that the order does not adequately set forth a basis for including emergency milk in the pool, and that it was necessary to obtain a special interpretation in order to handle the extraordinary situation created by importations of emergency milk during the past winter. There are important objections to including in the pool the milk of midwestern shippers, who supply most of the emergency milk. It is conceivable that the zone Class II price for such milk would exceed the zone Class I price, unless a special basis for graduating the zone Class I and Class II prices were set up. Also the order would be setting up prices for the western shippers to pay producers in a region which is not primarily in the fluid milk business.

It is concluded that there should be two definitions with respect to emergency milk, the first to define such milk, and the second to define the emergency period. In defining emergency milk, no geographical limits should be designated which would restrict the source of such milk, since the prime objective during an emergency period is to attract milk to the market from whatever source, whether it be New England or the midwest. The only limitations being recommended is that the milk must be received from plants which were not in the Boston pool during the delivery period or portion of a delivery period net previous to the beginning of the emergency period.

In defining the term "emergency period" it is recognized that the Market Administrator is the person best able to determine when an emergency exists in the supply of milk for the market and that he is in a position to act promptly. Although it is reasonable to expect that an emergency would generally arise during the months of low production, there are other factors which might result in making the supply of milk available to the market from regular sources inadequate for varying periods of time. For example, a serious flood or breakdown of transportation facilities in northern New England may make it impossible for handlers to ship milk to the market. This could occur in the spring, rather than in the fall or winter. Accordingly, it is concluded that emergency period should be defined as the period of time during which the Market Administrator declares that an emergency exists.

With respect to the basis for excluding emergency milk from a handler's gross Class I milk or Class II milk, the record established that no emergency milk was imported during November and December 1944 nor October 1945, although the percentages of Class II milk in the market during those months were 12 percent, 18 percent, and 11.3 percent, respectively. There was also evidence to the effect that the demand for milk does not fluctuate as widely in the fall and winter as in the summer, so that a handler can fairly well safeguard himself against the probability of importing a quantity of emergency milk which would result in his having Class II milk in excess of 10 percent. Accordingly, it is concluded that the percentage of Class II milk up to which a handler's receipts of emergency milk will first be allocated to Class I milk should be fixed at 10 percent of the handler's total receipts of milk during the emergency period. This should result in substantial equity to handlers while providing adequate safeguards to protect the interests of Boston producers.

It is concluded that that portion of the proposal relating to making payment to handlers from the pool for the additional costs of emergency milk should not be adopted. There is validity to the objection to reducing returns to producers in periods in which emergency milk is brought in partly to supply the increased demand for milk in secondary markets, which absorb much smaller proportions of pool milk as Class I milk during the months of flush production.

(10) *Milk subject to the New York Order.* The order presently provides that milk subject to the New York order shall not be subject to the Boston order. It was proposed that the provisions of the order be made more specific to provide clearly that milk considered as received from producers under the New York order shall not be considered as received from producers under the Boston order. It was also proposed that the Boston order set forth specifically the basis on which milk received from plants subject to Order No. 27 shall be allocated to a Boston handler's Class I and Class II milk. Specifically, it was proposed that the New York milk be allocated to Class I milk if it is classified in Class I by the administrator of Order No. 27, unless the Boston handler's records clearly established that the milk had been utilized as Class II milk. In the case of skim milk and buttermilk, it was proposed that receipts from New York plants be allocated to Class II milk, except where the Boston handler's total Class II utilization of such products at the receiving plant was less than the corresponding receipts from New York, in which event the difference would be allocated to Class I milk.

On the basis of the record, it appears that milk is imported from plants subject to the New York order very largely to make up deficiencies in the regular Boston supply. The provisions of one Federal order, insofar as possible, should not interfere with the free flow of milk which one Federally regulated market has available and which the other such market requires.

On the other hand, there is merit in the objection made at the hearing to permitting absolutely unrestricted importations of New York milk in the periods of heavy production. Accordingly, the proposal, as originally made, is being recommended for adoption, with one significant change to provide that in the months of April, May, June, and July, all milk, skim milk, and buttermilk is to be allocated to Class II milk. This would prevent the lowering of the blended price through importations of New York milk at a time when the regular Boston supply is more than ample for the Class I requirements of the market.

(11) *Substitution of individual handler pools for market pool in September-February.* Four handlers proposed an amendment to provide for an individual handler pool instead of a market-wide pool from September through February as a means of inducing handlers to offer their supplies freely for Class I use and to eliminate the alternative of manufacturing profits as a basis for computing a premium to be charged for the milk when offered for sale as Class I. The proponents also requested that the market-wide pool be discontinued until a plan had been developed to prevent the loading of the pool in the flush months with milk from producers or plants which withdraw deliveries during other periods.

No. 67——5

Seven co-operatives opposed the proposal on the grounds that the proponents had failed to prove that milk had not been freely offered as Class I, and the co-operatives supplying city handlers would be at a disadvantage.

This proposal involves a fundamental change from the market-wide pool in use since the effective date of Order No. 4, which could not be abandoned, even for certain months of the year, without more consideration than is devoted to the subject in this record. A proposal designed to prevent the loading of the pool in the flush months is being recommended. Therefore, the proposal should not be adopted.

(13) *Creation of a fall and winter payment reserve from the pool to encourage production and shipment of milk to the marketing area in fall and winter months.* The proposal provides for the deduction from the blended price in April, May, and June of 50 cents per hundredweight of milk, the money to be paid back to producers during the following November, December, and January, on the basis of the ratio of each handler's Class I sales in the marketing area to total Class I sales in the area. The evidence shows that from a practical standpoint the proposal could not be administered. Therefore, the proposal cannot be adopted.

(14) *Permissive variation in butterfat differential.* The testimony on this proposal was made in connection with the testimony on the need for a higher Boston milk price in order to bring producer prices in the competitive marginal zone of the Boston and New York milksheds more nearly in line. It was claimed that the difference in the butterfat differentials in the New York and Boston Orders made it particularly hard for Boston handlers to buy low test milk in the spring months, when production was the heaviest and butterfat tests averaged the lowest.

The evidence did not support the need for the proposal. Accordingly, the proposed permissive variation in the differential should not be adopted.

It should be noted that an amendment to Order No. 27 effective August 1, 1945, changed the method of determining the butterfat differential under that order. That change will eliminate most of the difference between the New York and Boston butterfat differentials in the spring months.

(15) *Price to producers within the 80-mile zone.* The order provides that the Class I price at city plants shall be the maximum required price to producers whose farms are located within 80 miles of Boston. This maximum prevents producers delivering to city plants from receiving credit from the pool at more than the Class I price for their milk after the addition of the location differential but it has not prevented producers in the 41–80-mile zone delivering to country plants from receiving credit from the pool in certain months at more than the Class I price in effect at the plants to which they deliver. The clear intent of the provision was that no producer should be required to be paid a blended price higher than the Class I price at the plant to which his milk was delivered and the order should so provide.

(16) *Location differentials to producers in Barnstable and Plymouth Counties, Massachusetts.* It was proposed to delete from the order the provision applicable to location differentials payable to producers whose farms are located beyond the 40-mile zone in Barnstable and Plymouth Counties, Massachusetts. This provision was adopted in 1939 because a handler receiving milk from a group of producers on Cape Cod contended he could not hold the supply unless those producers received the additional price for their product. All those producers have discontinued making deliveries and no deliveries from this area have been received by any Boston handler since June 1942. Therefore, the proposal should be adopted.

(17) *Classification of milk moved to third persons and to plants not subject to the Boston Order.* It was proposed that the classification section be amended so as to permit classification of milk in accordance with its utilization at any pool handler's plant regardless of the number of interplant movements. This would exempt from mandatory Class I classification any milk moved to a third person who is a pool handler. Such handlers are regularly audited by the Market Administrator and no additional administrative difficulties or expense would be involved in permitting classification on the basis proposed. No opposing testimony was offered which related directly to the proposal and it is recommended that the proposal be adopted.

Another proposal for amending the classification section would remove the requirement that milk moved to a plant not subject to the order shall be classified as Class I milk up to the total Class I use at the receiving plant. As an alternative, it was proposed that if pool milk is moved to a plant not subject to the order and does not become commingled with other milk at that plant, it shall be classified in accordance with its utilization, but, if it is intermingled with other milk at the plant, it shall be classified as Class I milk up to the total quantity of Class I milk at the receiving plant.

It was argued that the Class I classification of milk moved to plants not subject to the order, regardless of the specific use of the milk, is inconsistent with the other paragraphs of the classification section. The proponents maintained that it hampers resonably free movement of milk and the realization of maximum returns to producers. On the other hand, there was testimony that before the present provision was included in the order, the Market Administrator had investigated a number of claims for the separate handling of milk, but in the overwhelming majority of cases no separate handling of the Boston milk could be established.

It appears that if the proposal were adopted, the end result would be to encourage the movement of milk as Class II milk to plants not subject to the order. Also, it would cause pool milk to be classified in a lower use classification and grant priority to unregulated milk.

On the basis of the record, it is recommended that the proposal should not be adopted.

(19) *Clarification of provision for "interest" on overdue accounts.* The proponents offered no proposals to clarify the "interest" provision of the order after the Market Administrator explained how it is being applied.

(20) *Powers and duties of the Market Administrator.* In verifying the utilization of milk and the quantities utilized the Market Administrator must necessarily make determinations in individual cases as to how the order applies. In some instances he has already issued instructions to handlers, advising them of the method he will use in carrying out certain provisions of the order. It should be a regular function of the Market Administrator to issue as rules and regulations such determinations and instructions as have a general application in administering the order.

If it were a duty of the Market Administrator to determine a handler's willingness to ship Class I milk to the marketing area or the reasonableness of interhandler prices or any other factors that would not depend on the physical handling of milk, then some formal procedure for issuing and amending rules and regulations might be justified. No such duties are being recommended.

Procedure was suggested at the hearing to insure that rules and regulations be made public, that they would not be made subject to retroactive change, and that except in emergencies the views of the industry would be obtained before changes were made. The evidence shows that it would be difficult to apply formal procedure, based on the concept of a public hearing, to auditing problems. Since the power to issue rules and regulations is recommended in the interest of a more general knowledge of the accounting procedure, no provisions to formalize the issuance and amendment of rules and regulations are recommended. This will not prevent the Market Administrator from seeking the advice and criticism of the industry before issuing rules and regulations.

The Market Administrator should have the power to recommend amendments to the order. The function of preparing and disseminating market information should be transferred from the list of the Market Administrator's powers to the paragraph which sets forth his duties.

(21) *Establishment of an Industry Advisory Committee.* The suggestion that an advisory Committee of handlers and producers be provided in the order was stated to be a result of the failure of distributors and co-operative leaders to hold meetings and prepare amendments to the order. This proposal by four Boston handlers was opposed by counsel for seven co-operatives on the ground that it is unnecessary. It was pointed out at the hearing that in the case of at least two other Federal Orders a marketing committee can be created only on petition by the industry. In the hearing the industry was far from unanimous in supporting this proposal. Since the record fails to show any broad support for this proposal among those who would have to do the work to make the committee a success, the proposal should not be adopted.

(22) *Responsibility of agents of handlers.* It has been proposed to define the

term "handler" so that persons actually in control of the major marketing functions should be held responsible under the order, whether or not they happen to be the first receivers of milk from producers. No fundamental difficulties were shown to exist under the present definition in the order and the record abounds in examples of the confusion that might result from attempting to place ultimate responsibility on an agent of the first receiver. The proposal should not be adopted.

(23) *Improvement in references to quotations for manufactured dairy products.* Clarification of the wording of the order should be made, where possible, to avoid any misunderstanding as to the basis for determining Class I and Class II prices.

Incorporation into the order of these recommendations will require changes in the wording of certain related paragraphs. Several new definitions of terms are needed to give greater clarity to certain sections of the order that are being amended. These newly defined terms can be utilized to advantage in clarifying other paragraphs in which no substantive changes are being made.

The following proposed amendments to the order as amended, are recommended as the detailed means by which these conclusions may be carried out. The proposed marketing agreement is not included in this report because the proposals applicable to it would be the same as those contained in the order, as amended and as proposed here to be further amended.

1. Delete § 904.3 (a) (5) and insert the following:

(5) The term "dairy farmer" means any person who produces milk.

2. In § 904.3 (a) renumber subparagraphs (6), (7), (8), and (9) as (7), (8), (15), and (16), respectively, and add new subparagraphs (6), (9), (10), (11), (12), (13), and (14), to read as follows:

(6) The term "producer" means any dairy farmer who, in conformity with the health regulations which are applicable to milk which is sold for consumption as milk in the marketing area, distributes or delivers to a handler milk of his own production.

(9) The term "pool handler" means any handler, other than a producer-handler, who receives milk from producers.

(10) The term "regulated plant" means any plant at which milk is received from producers, or any other plant from which Class I milk is distributed in the marketing area.

(11) The term "city plant" means any plant which is located not more than 40 miles from the State House in Boston.

(12) The term "country plant" means any plant which is located more than 40 miles from the State House in Boston.

(13) The term "emergency period" means the period of time for which the market administrator declares that an emergency exists in that the milk supply available to the marketing area from producers and pool plants under the New York order (Order No. 27 regulating the handling of milk in the New York metropolitan marketing area) is insufficient to meet the demand for Class I milk in the marketing area.

(14) The term "emergency milk" means that milk received at a regulated plant during an emergency period from a plant which was an unregulated plant in the delivery period or in the portion of a delivery period which immediately preceded the beginning of the emergency period.

3. Insert the word "pool" immediately before the word "handler" or any variation thereof in the first instance in which this word appears in § 904.6 (a), (b), (b) (1), and (b) (2); § 904.7 (c) and (d); § 904.10 (a), (d), (e), (e) (1), (e) (2), (f), (h), and (j); § 904.11 (a) (1) and (f).

4. In § 904.6 (a) (1) and (b) (1), and in § 904.10 (e) (2), delete the words "plant located not more than 40 miles from the State House in Boston", and substitute therefor the words "city plant."

5. In § 904.6 (a) (2) and (b) (2), and in § 904.10 (e) (1) and (f) (2), delete the words "plant located more than 40 miles from the State House in Boston", and substitute therefor the words "country plant".

6. Revise § 904.4 (c) to read as follows:

(c) *Powers.* The market administrator shall have power:

(1) To administer the terms and provisions hereof;

(2) To make rules and regulations to effectuate the terms and provisions hereof;

(3) To receive, investigate, and report to the Secretary complaints of violations of the terms and provisions hereof; and

(4) To recommend to the Secretary amendments hereto.

7. In § 904.4 (d) renumber subparagraphs (6) and (7) as (7) and (8), and add a new subparagraph (6) to read as follows:

(6) Prepare and disseminate for the benefit of producers, consumers, and handlers statistics and information concerning the operation of this order.

8. Delete § 904.5 (a), (b), and (c) and substitute therefor the following:

(a) *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to the other provisions of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk the utilization of which is not established as Class II milk.

(2) Class II milk shall be all milk the utilization of which is established:

(i) As being sold, distributed, or disposed of other than as or in milk which contains one-half of 1 per cent or more but less than 16 per cent of butterfat; and other than as or in chocolate or flavored whole or skim milk, buttermilk, or cultured skim milk, for human consumption; and

(ii) As plant shrinkage not in excess of 2 per cent of the volume handled.

(b) *Classification of milk utilized at regulated plants of pool handlers.* All milk and milk products received at a regulated plant of any pool handler shall be classified in accordance with their utilization at such plant, except as provided otherwise in paragraph (c) of this section.

(c) *Classification of milk moved to other plants.* All milk, including skim milk and buttermilk, which is moved to any unregulated plant or to any regulated plant of a nonpooled handler shall be classified as follows:

(1) If moved from a regulated plant of a pool handler to any other regulated plant, the milk shall be classified in accordance with its utilization at the plant to which it is moved.

(2) If moved from a regulated plant of a pool handler to any unregulated plant, the milk or milk product so moved shall be classified as Class I milk up to the total quantity of milk or the corresponding milk product which was utilized as Class I milk at the unregulated plant.

(3) If moved from either an unregulated plant or a regulated plant of a nonpooled handler to any other such plant, the milk or milk product so moved shall be classified as Class I milk.

9. Revise § 904.6 (a) (3) to read as follows:

(3) For the purpose of this paragraph, the milk received from producers which was sold or distributed during each delivery period by each pool handler as Class I milk shall be considered to have been first, that milk which was received from producers' farms at such handler's city plants; and then, that milk which was received from producers' farms at his country plants and which was shipped as milk, skim milk, or buttermilk from each of his country plants, in the order of the nearness of the plants to Boston.

10. In § 904.6 (b) (2) (i) and § 904.10 (d) delete the words "in the Boston market" and substitute therefor the words "f. o. b. Boston".

11. Delete § 904.6 (b) (2) (iii) and substitute therefor the following:

(iii) Compute any plus amount for skim milk value which results from the following calculation. Using the midpoint in any range as one quotation, compute the average quotation per pound of nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal feed products in bags, as published during the delivery period by the United States Department of Agriculture for New York City. Multiply each such average quotation by the applicable percentage indicated for the delivery period in the following table and combine the results; subtract 4 cents; and multiply the remainder by 7.5.

Delivery period	Percent	
	Human food products	Animal feed products
January	100	0
February	100	0
March	50	50
April	50	50
May	50	50
June	50	50
July	50	50
August	75	25
September	75	25
October	100	0
November	100	0
December	100	0

12. Delete § 904.6 (b) (3).

13. In § 904.6 (c) decrease the differentials in column B of the table by one-half cent in all zones up to 170 miles and by one cent in all zones beyond 170 miles.

14. Revise § 904.6 (e) to read as follows:

(e) *Butter and cheese adjustment.* During the months of April, May, and June, the value of a pool handler's milk computed pursuant to § 904.9 (a) shall be reduced by an amount determined as follows:

(1) From the average price for the delivery period as reported by the United States Department of Agriculture (or by such other Federal agency as may be authorized to perform this function) for 92-score butter at wholesale in the New York market, deduct 5 cents and add 20 percent.

(2) Divide by 3.7 the value determined as applicable to milk delivered to country plants in the 201–250 freight mileage zone pursuant to § 904.6 (b) (2) (i) or (ii), whichever applies, and subtract therefrom the value determined in (1) hereof. The result is the butter and cheese differential.

(3) Determine the pounds of butterfat in milk received from producers, which was made into butter, Cheddar cheese, American Cheddar cheese, Colby cheese, washed curd cheese, or part skim Cheddar cheese at a plant of the first handler of such butterfat or at a plant of a second person to which such butterfat is moved.

(4) Multiply the pounds of butterfat determined pursuant to (3) hereof by the butter and cheese differential determined pursuant to (2) hereof.

15. Revise § 904.6 (f) to read as follows:

(f) *Casein adjustment.* During the months of April, May, and June, the value of a handler's milk computed pursuant to § 904.9 (a) shall be reduced by an amount determined as follows:

(1) Divide by .9075 any plus amount for skim value determined pursuant to § 904.6 (b) (2) (iii).

(2) Using the midpoint of any range as one quotation, compute the average of all quotations per pound for domestic, acid-precipitated casein, in lots of 100 bags or more, f. o. b. shipment point as published during the delivery period in the "Oil, Paint and Drug Reporter"; subtract 6.6 cents; and multiply by 2.42.

(3) Subtract any plus value determined in subparagraph (2) hereof from the value determined in subparagraph (1) hereof. The result is the casein differential per hundredweight of skim milk. If the value determined in subparagraph (2) hereof is zero or a minus value, the value determined in subparagraph (1) hereof shall be the casein differential.

(4) Multiply the number of hundredweight of skim milk obtained from milk from producers, which was used to make casein, by the casein differential determined pursuant to subparagraph (3) hereof.

16. In § 904.7 (a) delete the words "handler who receives milk from producers" and substitute therefor the words "pool handler".

17. Revise § 904.7 (a) (3) to read as follows:

(3) Receipts at each plant pursuant to § 904.8 (c);

18. Revise § 904.7 (b) to read as follows:

(b) *Reports of handlers who receive no milk from producers.* Each handler who receives no milk from producers shall file reports with the market administrator relating to the receipt and utilization of milk and milk products. Such reports shall be made at such time and in such manner as the market administrator may require.

19. Delete § 904.7 (c) (5).

20. Delete § 904.8 and substitute therefor the following:

§ 904.8 *Application of provisions.* Insofar as the provisions of this section are inconsistent with other terms and provisions of this order, the provisions of this section shall prevail.

(a) *Producer-handlers and buyer-handlers.* The provisions of this order, except as set forth in § 904.7, shall not apply to a producer-handler or to a handler whose sole source of milk supply consists of receipts from other handlers.

(b) *Milk received from producer-handlers.* Milk of a producer-handler's own production which is delivered in bulk to another handler shall be considered as being delivered by a producer unless the receiving handler is also a producer-handler or a handler subject to the provisions of paragraph (f) hereof.

(c) *Receipts from dairy farmers for outside markets.* Milk received at a regulated plant in April, May, June, or July from farms from which dairy farmers delivered milk to an unregulated plant of such handler (or of any person affiliated with, or controlled directly or indirectly by, such handler) on more than three days in any one of the preceding months of August to January, inclusive, shall be considered as receipts from dairy farmers for outside markets and not as receipts from producers. Such milk shall be allocated to classes in the same manner as milk received from producers, shall be reported pursuant to § 904.7, and the handler shall make payments in connection therewith as provided in § 904.10 (h) and (i), and § 904.12.

(d) *Milk subject to the New York order.* (1) Milk considered as received from producers under the provisions of the New York order (Order No. 27 regulating the handling of milk in the New York Metropolitan marketing area) shall not be considered under the provisions of this order as received from producers, nor shall the provisions of paragraph (f) of this section apply to handlers subject to the New York order.

(2) All milk, including skim milk and buttermilk, received in all delivery periods except April, May, June, and July from a plant subject to the New York order shall be allocated to classes in the following manner:

(i) If received as milk, it shall be allocated to Class I milk to the extent that it is classified in Classes I–A, I–B, or I–C, under the New York order, except that the quantity of such milk respecting which Class II utilization is established shall be allocated to Class II milk;

(ii) If received as skim milk or buttermilk, it shall be allocated to Class II milk, except that if the quantity so received is in excess of the total quantity of skim milk or buttermilk classified as Class II milk at the receiving plant, such excess shall be allocated to Class I milk.

(3) All milk, including skim milk and buttermilk, received in April, May, June, and July from a plant subject to the New York order shall be allocated to Class II milk.

(e) *Emergency milk.* Emergency milk shall not be considered as received from producers, nor shall the provisions of paragraph (f) of this section apply to handlers of such milk. Receipts of emergency milk shall be allocated to classes in the following manner:

(1) Emergency milk received by a pool handler shall be allocated to Class II milk to the extent that it is specifically established as used as Class II milk, or to the extent that such handler's Class II milk is in excess of 10 per cent of his total supply of milk during the emergency period within the month, whichever is greater.

(2) Any remaining quantity of emergency milk shall be allocated to Class I milk.

(f) *Handlers with less than 10 per cent of total receipts as Class I in the marketing area.*

(1) Milk received from dairy farmers by a handler who sells or distributes as Class I milk in the marketing area less than 10 per cent of his total receipts of milk shall not be considered as receipts from producers. Such handlers shall make payments on the quantity of milk received from dairy farmers which is sold or distributed as Class I milk in the marketing area, as provided in § 904.10 (g) and (i), and § 904.12,

(2) During April, May, and June the provisions of (1) of this paragraph shall not apply to any handler who operates a country plant.

21. In § 904.9 (a) delete the words prior to subparagraph (1) and substitute therefor the following:

(a) *Computation of value of milk received from producers.* For each delivery period, the market administrator shall compute the value of milk received from producers which is sold, distributed, or used by each handler in the following manner:

22. Revise § 904.9 (b) (5) to read as follows:

Divide by the total quantity of milk for which a value is determined pursuant to subparagraph (1) hereof.

23. In § 904.9 (c) delete the words "• • • handlers who received milk from producers" in the two instances in which these words appear and substitute therefor the words "pool handlers".

24. In § 904.10 (e) delete in subparagraph (3) and subparagraph (4) the words "• • • the highest Class I price in effect pursuant to subparagraph (1) of § 904.6 (a)," and substitute therefor "• • • the Class I price pursuant to § 904.6 (a) which is effective at the plant to which such milk is delivered".

25. In § 904.10 (e) (4) delete the words "• • • or whose farm is located in Barnstable or Plymouth Counties, Massachusetts".

26. Revise § 904.10 (f) (1) to read as follows:

(1) With respect to milk delivered by producers to a city plant which is located outside the marketing area and more than 14 miles from the State House in Boston, 10 cents per hundredweight.

27. Revise § 904.10 (g) to read as follows:

(g) *Payments by handlers with less than 10 per cent of total receipts as Class I in the marketing area.* On or before the 23d day after the end of each delivery period, each handler subject to the provisions of § 904.8 (f) (1) shall pay to producers through the market administrator the value determined by multiplying the quantity of milk received from dairy farmers which was sold or distributed as Class I milk in the marketing area by the difference between the price pursuant to § 904.6 (a) and the price pursuant to § 904.6 (b) effective in the location or freight mileage zone of the plant at which such milk was received.

28. Revise § 904.10 (h) to read as follows:

(h) *Payments for milk received from dairy farmers for other markets.* On or before the 23d day after the end of each delivery period, each handler who received milk pursuant to § 904.8 (c) shall pay to producers through the market administrator the value determined by multiplying the quantity of such milk in each class by the prices applicable pursuant to § 904.6 and, subtracting the value of such milk at the Class II price in effect for the plant at which such milk was received.

29. Revise § 904.12 (a) to read as follows:

(a) *Payments by handlers.* As his pro rata share of the expense of the administration hereof, each handler, except as set forth in § 904.8 (a), shall, on or before the 23d day after the end of each delivery period, pay to the market administrator a sum not exceeding 2.5 cents per hundredweight with respect to all milk which he received from producers during such delivery period, including milk received from his own production, and with respect to all milk upon which he is required to make payments for such delivery period pursuant to § 904.10 (g), or (h), the exact sum to be determined by the market administrator, subject to review by the Secretary.

[Docket No. G–707]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION

APRIL 2, 1946.

Notice is hereby given that on March 25, 1946, an application was filed with the Federal Power Commission by The Ohio Fuel Gas Company (hereinafter referred to as the "Applicant" or "Ohio Company"), an Ohio corporation, with its principal place of business at 99 North Front Street, Columbus, Ohio, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the Applicant to construct and operate certain additional natural gas pipe line and appurtenant facilities, hereinafter more particularly described, which, if constructed, are to be used to furnish improved natural gas service at wholesale to certain communities in Ohio, where service is rendered at retail by The Dayton Power and Light Company.

In addition to gas obtained from its own wells or other sources in Ohio, the Ohio Company purchases substantial quantities of natural gas in interstate commerce from United Fuel Gas Company, this supply being composed of gas produced in West Virginia and Kentucky and augmented by deliveries through the facilities of Tennessee Gas and Transmission Company. Applicant also purchases substantial quantities of natural gas from Panhandle Eastern Pipe Line Company. The Ohio Company supplies natural gas at wholesale and retail for ultimate consumption in numerous communities in the State of Ohio.

The facilities which the Ohio Company seeks authorization to construct and operate are described in its application as follows:

The project consists of the construction of about 15 miles (80,000 feet) of 12¾-inch O. D. natural gas transmission line. The transmission line will be located in Butler Township, Montgomery County, and in Monroe and Concord Townships, Miami County, Ohio, extending from Applicant's existing 16-inch natural gas transmission line (Z–50) in Butler Township, Montgomery County, to Applicant's existing eight-inch natural gas transmission line (Z) at the western edge of the City of Troy, Concord Township, Miami County, Ohio. Also the construction of about one mile (5,600 feet) of four-inch natural gas transmission line from a point of connection on the above 12¾-inch line in a generally easterly direction to Applicant's existing measuring station on the western edge of the community of Tipp City, all lying in Monroe Township, Miami County, Ohio. Also connections, valves and regulators to permit attachment and connection of proposed facilities to Applicant's existing facilities. Transmission line will be of steel pipe, ¼-inch wall thickness, 33.38 pounds per lineal foot, of all welded construction, located on private rights-of-way.

The purpose of the project, the Ohio Company says, is to furnish improved natural gas service at wholesale to certain communities where service is rendered at retail by The Dayton Power and Light Company. The present status of wholesale delivery by Applicant and retail service by The Dayton Power and Light Company is not to be changed, nor is it contemplated that additional markets will be connected and served, this additional construction being necessary for a continuous and adequate service to customers already being supplied. These Ohio communities include New Bremen, Minster, Fort Laramie, Sidney, Versailles, Bradford, Covington, Piqua, Pleasant

Hill, Troy, Tipp City, West Milton and Vandalia, with a total of 15,669 gas customers and an annual delivery in 1945 of 1,592,089 Mcf. There are no industrial customers, the Applicant states, to be attached to this proposed line, and no other sales or interchanges are contemplated beyond the normal growth of business in territory presently served.

In the winter of 1944–45, on the peak day experienced by Applicant's system, the maximum demand of the group of markets to be served by the proposed line was 8.4 million cubic feet. The deliveries for the month of December 1945 were eight and one-half percent above those of the previous year, and, Applicant says, adjustments for temperatures would indicate a peak day 11½ percent above 1944, or 9.4 million cubic feet. To date estimates prepared by The Dayton Power and Light Company indicate a maximum daily demand of 13 million cubic feet in the winter of 1949–1950 at a temperature of 0° F.

The estimated total cost of the proposed facilities, the Applicant states, is $266,030. There will be no special financing of this project, Applicant using cash in its treasury to defray the estimated cost. It is anticipated that the operating expenses attributable to the new facilities, the Ohio Company says, will amount to approximately $200 per year and, continues saying, inasmuch as the facilities will be utilized to improve existing service and will not result in service to new or additional consumers, no estimate as to expected revenues can be given.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of the Ohio Company should, on or before the 19th day of April, 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

(a) *Maximum prices for United Metal Manufacturing Company, Inc.* (1) The above manufacturer may determine his maximum prices for his line of radiator valves, return elbows, sill faucets, boiler drains, low pressure stops and stop and waste valves by increasing by 18 percent his prices on these items in effect on October 1, 1941, to each class of purchaser.

(b) *Resellers' maximum prices.* All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their presently established maximum prices the actual dollars-and-cents increase in cost resulting from the adjustment granted the manufacturer by this order.

[SO 148, Order 1]

W. E. KAUTENBERG CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Supplementary Order No. 148, it is ordered:

(a) *Manufacturer's ceiling prices.* The W. E. Kautenberg Company may increase its maximum price for sales of its No. 77 household mop stick to jobbers to $16.50 per gross.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

(i) A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all information called for by OPA Form 620-759 with regard to how he determined his ceiling prices for as long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on April 4, 1946.

Issued this 3d day of April 1946.

Administrator.

[Region I Order G-1 Under Gen. Order 68]

HARD BUILDING MATERIALS IN VERMONT

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all "retail sales" of the commodities listed in Table I by any seller to a purchaser in the State of Vermont. For the purposes of this order a "retail sale" means a sale to an ultimate user, or a sale to a contractor or builder for resale on an installed basis within the meaning of section 1 (b) (2) of Revised Maximum Price Regulation 251. The term "customary place of business" means the location where the materials are generally stored and available for delivery.

SEC. 2. *Items covered by this order.* This order covers the list of hard building materials set forth in Appendix A, Table I, appearing below and made part of this order. Other related items may be added from time to time.

SEC. 3. *Maximum prices.* (a) The prices listed in Appendix A, Table I, appearing below, and made a part of this order, shall be the maximum prices for "retail sales" of the respective items of hard building materials listed in said table.

(b) Maximum prices established by this order shall be reduced by 2% whenever cash payment is made to the seller within 10 days of receipt of an invoice by the buyer.

(c) In Column B of Table I of the appendix where the words "customary discount" appear in place of dollar and cent prices for large sale units, maximum prices for such large sale units shall be the maximum price for small sale units listed in Column A of said Table I reduced by the customary discounts granted during March 1942 by the seller to purchasers of the same class on sales of the same quantity. Records or other satisfactory evidence of each seller's customary discounts referred to in the preceding sentence shall be available for inspection by representatives of the Office of Price Administration.

SEC. 4. *Delivery.* The maximum prices fixed by this order include free delivery by the seller within a five-mile radius of his customary place of business. However, where a seller's free delivery zone during March 1942 exceeds the five-mile radius of his customary place of business, he shall nevertheless continue to maintain his March 1942 free delivery zone. Transportation charges may be made for deliveries beyond the free delivery zones referred to in the preceding sentences at the rates or by the method customarily charged or used by the seller during March 1942. In the case of an isolated sale of a small sale unit the seller may maintain his customary delivery practices relating to such sales which were in effect for him during March 1942. Records or other satisfactory evidence of each seller's delivery rates and/or practice during March 1942 shall be available for inspection by representatives of the Office of Price Administration.

SEC. 5. *New sellers.* A seller who was not engaged in the sale and delivery of hard building materials during March 1942, may file an application for authority to use the customary discounts and/or delivery rates and practices of his most closely competitive seller of the same class. (The discounts, delivery rates and practices are those referred to in sections 3 (c) and 4 of this order.) The application shall state the name and address of his most closely competitive seller of the same class, shall specify the discounts and rates, and shall describe the delivery practices. If the application contains the required information and is not disapproved within 15 days after it has been duly filed, the applicant may use the discounts, rates and practices set forth in the application. If a seller is unable to ascertain the customer's discounts and/or delivery rates and practices of his most closely competitive seller of the same class, he may apply to the Vermont District Office for assistance to obtain such information. The authority to use the customary discounts and/or the delivery rates and practices is subject to non-retroactive revision, modification or denial if warranted or required:

SEC. 6. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum prices or pricing methods previously fixed by any other order or regulation issued by the Office of Price Administration. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation shall apply to sales covered by this order.

SEC. 7. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A, Table I in his customary place of business in a manner plainly visible to all purchasers.

SEC. 8. *Sales slips and records.* (a) For any sale of $50.00 or more, each seller (regardless of previous custom) must keep records showing the following:

1. Name and address of buyer;
2. Date of transaction;
3. Place of delivery;
4. Complete description of each item sold and price charged.

(b) Every seller covered by this order shall give to the purchaser a sales slip receipt or other evidence of purchase showing the name and address of the seller, the date of purchase, a description, quantity and the price of each item sold, the said description to be in detail sufficient to determine whether the price charged has been properly computed under this order. However, in the case of sales amounting to less than a total of $7.50 only the name and the address of the seller and the amount of the sale need be shown. The seller shall prepare the sales slips, receipts, or other evidence of purchase, hereinbefore described, in duplicate, and he must keep for at least six months after delivery a duplicate copy.

SEC. 9. *Evasion.* The price limitations of this order shall not be evaded by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of any commodities covered by this Regulation or by way of commissions, services, transportation, or other charges, or by tying agreement or other trade understanding, or by making the terms and conditions of the sale more onerous to buyers than they were in March 1942.

SEC. 10. *Enforcement.* Persons violating any provisions of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses, provided by the Emergency Price Control Act of 1942 as amended.

SEC. 11. *Amendment.* This order may be modified, amended, revised or revoked at any time by the Office of Price Administration.

This order shall become effective March 11, 1946.

Issued this 5th day of March 1946.

ELDON C. SHOUP,
Regional Administrator.
